Introduced by James Campbell. Caught in the melting pot of social injustice, revolution, war, and pacifism, this powerful book gives a vivid account of the experiences and struggles of a Glasgow family from the First World War and into the Depression at the end of the Twenties. It is a story of Glasgow apprentices, their lives dignified with a desire for art and learning and the ideal of reforming the world. The book follows the fortunes of one particular family, the Macdonnells. The mother dreams of social success while struggling to raise her family and her ambitious husband out of slum life. But even at its saddest the humour of life flashes from every page in comic description and witty observation. Quite simply the first great social critique of Glasgow in fiction. Books in Scotland

Adventure

The Louisiana sun beat mercilessly on Nicole St. Claire just as fate, too, had been merciless. The once wealthy, flirtatious belle stood on the auction block to be sold as a servant. Her sensual figure disguised, her glorious titian hair disheveled, she looked like a waif, but she was all woman, trembling when she recognized the highest bidder—idol of her childhood dreams, the owner of plantation Belle Chene. A man of blazing passion, Alex du Villier bought the girl out of pity, but her aqua eyes stirred his soul and her body ignited his blood. She would be the perfect mistress to make him forget his coming marriage to a cold, haughty heiress. Now he intended to teach this innocent beauty that although he had purchased her freedom, he could steal her heart. An affair of burning desires. . . . Under a Creole moon their passion became a wildfire neither could control, driving them to heart-wrenching choices of silken sin . . . or freedom and love. From the Paperback edition.

A masterful celebration of one of golf's great time-honoured traditions - the St Andrews caddie - written by the Caddie Manager at the historic St Andrews Old Course and a former caddie himself. For over 200 years caddies have been walking around St Andrews, the most famous piece of golfing land in the world, advising players of vastly different abilities not only on which club to take but also on the type of shot required and, most importantly on the Old Course, exactly the line on which to play. In his evocative and fascinating book, Richard Mackenzie reminds us how caddies first came to St Andrews, the way in which they have added so much to the folklore of the links and the great contribution which they have made and continue to make to the game of golf for those who visit 'The Home of Golf'. It's a remarkable treasure trove of intriguing insights into the social history of caddies interspersed with timeless anecdotes and vivid feature articles. With legendary characters such as 'Trap Door' Johnson, Stumpie Eye and 'Poot' Chisholm ('With good porridge and a wee nip, you're all right for life'), A Wee Nip takes the reader back to the roots of the game, reliving a host of cherished memories

Hilarious and heartbreaking, Creepy & Maud charts the relationship between two social misfits, played out in the space between their windows. Creepy is a boy who watches from the shadows keenly observing and caustically commentating on human folly. Maud is less certain. A confused girl with a condition that embarrasses her parents and assures her isolation. Together Creepy and Maud discover something outside their own vulnerability — each other's. But life is arbitrary; and loving someone doesn't mean you can save them. Creepy & Maud is a blackly funny and moving first novel that says; 'You're ok to be as screwed up as you think you are and you're not alone in that.'
