"There was once a King, and he had a Queen; and he was the manliest of his sex, and she was the loveliest of hers. The King was, in his private profession, Under Government. The Queen's father had been a medical man out of town. They had nineteen children, and were always having more. Seventeen of these children took care of the baby; and Alicia, the eldest, took care of them all. Their ages varied from seven years to seven months. One day the King was going to the office, when he stopped at the fishmonger's to buy a pound and a half of salmon not too near the tail, which the Queen had requested him to send home. Mr Pickles, the fishmonger, said, "Certainly, sir, is there any other article, Good-morning." But what of the old lady in the shop? The King hadn't noticed her and she is VERY important to this story for she is the Good Fairy Grandmarina. But just how important you ask? Well, you'll just have to download and read this story and find out for yourselves!"

On the heels of her mother's death, Hope Logan reluctantly returned to her grandparents' home place in search of a journal that revealed explosive crimes and atrocities of the past that had haunted her grandma for nearly sixty-five years. Bitterness, unforgiveness, and anger consumed her as she set out to solve the mystery that surrounded her grandma's life. The dark evil secret that was contained in the journal only deepened her resentment of God. Because of her quest, she came in contact with many strong believers, especially a handsome young pastor and three senior citizens. In that small town in the foothills of the mountains of North Carolina, Hope's bitterness, unforgiveness, and anger slowly began to fade in the light of the strong faith of the young pastor and three senior citizens. She discovered the true meaning of faith and hope in Christ in the midst of adversity. Carolyn Digh Griffin, a native North Carolinian, resides in Waxhaw, North Carolina, with her husband, Hoyle. She is retired from Union County Public Schools where she was an Administrative Assistant to the Assistant Superintendent. She has two daughters and four grandchildren who also reside in the Old North State.

Reinvent best practices that have become bad habits Without meaning to, and often with the best of intentions, most organizations continually waste precious time and money on processes and activities that don't create value and no longer make sense in today's business environment. Until now, the relatively slow speed of marketplace evolution has allowed wasteful habits to continue without consequence. This reality is ending. Detonate explains how organizations built up bad habits, identifies which ones masquerade as "best practices," and suggests alternatives that can contribute to winning in the marketplace. With a focus on optimism and empowerment, it focuses on an approach and mindset which are critical to successfully compete in an era characterized by profound technological advances and uncertainty. • Core themes challenge how you think about and approach problems • Case studies illustrate the challenges you face and how to overcome them • Recommendations are pragmatic and steer clear of suggesting a brand-new, complicated wiring diagram • Actionable advice provides the first steps down an evolutionary path If you want to compete differently in today's marketplace and to challenge the things your company does which you have a nagging feeling are actually just a waste of time – and maybe value-destroying – Detonate gives you what you need to ignite change.

For anyone in the finance profession who feels they are not developing the critical skills to influence others and that their efforts are not getting recognized, The Audacious Finance Partner shows the quickest way to get tangible results for you and your organizations. Discover how to get to the right insights that deliver the most value; become a trusted advisor to the business and apply commercial teaching principles to combine influence with impact. These are areas not traditionally taught in finance courses or business schools; even though they are the skills employers and the next generation of leaders are calling out for. This book follows our main character who frustrated with his lack of success using traditional keeping-the-score approaches decides to push himself outside his comfort zone. He seeks out mentors who have found better and faster ways to develop the critical skills to influence and impact their organizations. The Theory of Business

Hawthorne's first published novel, Fanshawe combines romantic themes with an engaging look at college life in the early nineteenth century. Critics have noted that the novel has strong autobiographical components and is likely a thinly fictionalized account of the writer's own experiences as a student at Bowdoin College.

Journal of Education

If you're in a diverse team, you know employee differences can cause miscommunication, lower trust, and hurt productivity. . . It doesn't have to be this way! The people you work with may be from a different generation, different culture, different race, different gender, or just a different philosophy toward work and life in general, but you need to work together toward a common goal. *How to Work With and Lead People Not Like You* explains how to dial down the differences, smooth out the friction, and play upon each other's strengths to become more effective, more productive, and less stressed. The keys are to find the common ground and identify hidden conflicts that are hurting productivity. Many people shudder at the prospect of working with diverse groups of people, but they can't voice their fear or anxiety. At work, it's not OK or politically correct to say, 'I'm uncomfortable with this person.' In fact, if you do say something along those lines, your job may be at risk. Your company may terminate you for not being on the 'diversity bandwagon.' So you keep quiet and you keep your thoughts to yourself. But deep down, you are uncomfortable. If you feel like this, it doesn't mean you're racist, sexist, ageist, homophobic, or any other negative label. It means you're struggling. You're struggling to understand people, cultures, or values that are unfamiliar to you. You're struggling to do your job with teammates and coworkers who may have very different viewpoints or different approaches to communication than you have. You're struggling to overcome differences and pull together to achieve high performance at work. Whether you're leading a diverse team, working in a challenging cross-cultural environment, or simply working with people who are 'not like you,' you need to be able to get along with everyone as a team, to get the work done. This book explains the skills you need to communicate, motivate, and inspire people to collaborate—even if they have very different values, lifestyles, or priorities. Learn key steps that bring cohesion to diversity How to have a constructive conversation about working alongside people who are different The four magic words that make this easier and smooth over friction What not to say—and why Learn to set aside differences and get things done Learn how to handle a racist, sexist, homophobic or offensive remark in a professional way Retain your sanity when colleagues drive you crazy The changing demographics of today's workforce bring conflicting viewpoints, perspectives, approaches, skills, habits, and personalities together in one place; whether that leads to synergy or catastrophe is up to you. *How to Work With and Lead People Not Like You* helps you turn a hurdle into an advantage so you or your team can do more, achieve more, and enjoy the ride.

The enchanted castle of the title is a country estate in the West Country seen through the eyes of three children, Gerald, James and Kathleen, who discover it while exploring during the school holidays. The lake, groves and marble statues, with white towers and turrets in the distance, make a fairy-tale setting, and then in the middle of the maze in the rose garden they find a sleeping fairy-tale princess. The princess tells them that the castle is full of magic, and they almost believe her. She shows them the treasures of the castle, including a magic ring she says is a ring of invisibility, but when it actually turns her invisible she panics and admits that she is the housekeeper's niece, Mabel, and was just play-acting. The children soon discover that the ring has other magical powers. *The Enchanted Castle* was written for both children and adults. It combines descriptions of the imaginative play of children, reminiscent of *The Story of the Treasure Seekers*, with a magic more muted than in her major fantasies such as *The Story of the Amulet*.
