A Book on Duck Shooting

### Shooter's Bible, No. 85

Nash Buckingham was shooting man's man, and bird hunter. These are his stories.

### Game Birds and Gun Dogs

### Catalog of Copyright Entries

## Catalogues of sales (no. 4601-5200)

Van Campen Heilner conveys his passion, expertise, and broad experience for waterfowl hunting based on his own experiences from before the full-scale industrialization following the Second World War. This book is a must for anyone who wants to learn about duck hunting, and also tap into the greater sensibility about the companionship it creates and the responsibility it places on its participants to act in an ethical manner, and to protect wetlands and waterfowl.

## American Book Prices Current

## Tales of Rod and Gun

A price handbook to more than twenty thousand titles in various categories--literature, poetry, Americana, detective and spy novels--lists the market value of each volume

## Sales

## Publications of the Derrydale Press, 1927-1941

Tales and true stories about hunters, their dogs and the upland game and waterfowl they hunt.

## De Shootinest Gent'man and Other Tales

### Selections from the books

#### Locust

Replete with information, this book satisfies even the most ardent enthusiast by furnishing specifications, prices, and general information on most currently manufactured firearms. Includes information on optics and related equipment. Revised virtually every year since the first publication in 1925.

#### Real World Whitetail Behavior

A priced and annotated annual record of international book auctions.

#### The Greatest Hunting Stories Ever Told

First published in 1951, this book is a collection of hunting and fishing stories from Havilah Babcock, a University professor of English at the University of South Carolina who discovered his love of hunting and fishing whilst on a year's leave of absence in South Carolina in 1926. These delightful and humorous stories will entertain lovers of the great outdoors! Wonderfully illustrated throughout by artist William J. Schaldach.

#### The Publishers Weekly

Taking the controversial approach that deer hunting has become more of a "social event" than an affirmation of the more basic

human need to subsist in the wild, Jim Roy proposes a simple, common sense method of stalking the whitetail that he calls "survival hunting." Some of the mysteries and myths concerning the whitetail can best be unraveled by observing the natural movements of the herd-not the more unnatural movements caused by pressure from humans or dogs. Roy breaks the deer herd down into its natural family groups, such as parental does with fawns, lone bucks, and single does of various ages, tracking their movements to and from their bedding areas based on such natural influences as wind direction and angle of sunlight. Based on over twenty years of observation at the Smithsonian Institute's Environmental Research Center on Chesapeake Bay, this revised edition of a classic will be welcomed by hunters and wildlife watchers alike.

## Guide to Reprints

Throughout the nineteenth century, swarms of locusts regularly swept across the continent, turning noon into dusk, demolishing farm communities, and bringing trains to a halt as the crushed bodies of insects greased the rails. In 1876, the U.S. Congress declared the locust "the single greatest impediment to the settlement

of the country." From the Dakotas to Texas, from California to Iowa, the swarms pushed thousands of settlers to the brink of starvation, prompting the federal government to enlist some of the greatest scientific minds of the day and thereby jumpstarting the fledgling science of entomology. Over the next few decades, the Rocky Mountain locust suddenly -- and mysteriously -- vanished. A century later, Jeffrey Lockwood set out to discover why.

Unconvinced by the reigning theories, he searched for new evidence in musty books, crumbling maps, and crevassed glaciers, eventually piecing together the elusive answer: A group of early settlers unwittingly destroyed the locust's sanctuaries just as the insect was experiencing a natural population crash. Drawing on historical accounts and modern science, *Locust* brings to life the cultural, economic, and political forces at work in America in the late-nineteenth century, even as it solves one of the greatest ecological mysteries of our time.

Don't Shoot the Decoys

Tales of Quails In Such

The New Encyclopaedia Britannica: Macropaedia:  
knowledge in depth. 19 v

Experience all the thrills and dangers of hunting big game as told by writers who experienced them first-hand. Elephant. Bear. Moose. Rhinoceros. Buffalo. Lion. Since prehistoric times man has hunted. An elemental part of life, seeking out and overpowering large, strong, and fast animals has been a pivotal part of human evolution. In later times, when hunting for food wasn't necessary, man still tracked down his prey. Following an instinct for adventure, for the thrill of defeating formidable opponents, man hunted. Now, for the forty million Americans who hunt, here is the perfect companion. The Greatest Hunting Stories Ever Told is a collection of true hunting tales, told by some of the most courageous and clever sportsmen. The quest for adventure has touched all these writers, who convey the drama, tension, stamina, and sheer thrill of tracking down game. Included here are the experiences of Teddy Roosevelt in "The Wilderness Hunter," of Jack O'Connor in "The Leopard," of J. C. Rickhoff in "Wounded Lion in Kenya," of Frank C. Hibben in "The Last Stand of a Wily Jaguar," and of John "Pondoro" Taylor in "Buffalo," among others. Collected by a lifelong devotee of hunting

literature, the stories here are classics. In more than two dozen selections, the true experiences of hunting a variety of animals are relayed by the most reliable eyewitnesses: the hunters themselves. A must for all hunters and armchair adventurers, *The Greatest Hunting Stories Ever Told* is a real trophy. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

The established reference work *Guide to Reprints* has been radically reworked for this edition. Bibliographical data was substantially increased where information was obtainable. In addition, the user-friendliness of *Guide to Reprints* was raised to the high level of other K.G. Saur directories through author-title cross-references, a subject volume, a person index and a publisher index. In this edition, the directory lists more than 60,000 titles from more than 350 publishers.
