Professor Peyton Wilde has an enviable life teaching sociology at an idyllic liberal arts college--yet she is troubled by a sense of fading inspiration. One day an invitation arrives. Peyton has been selected to attend a luxurious all-expense-paid seminar in Iceland, where participants, billed as some of the greatest thinkers in the world, will be charged with answering

one perplexing question. Meeting her diverse teammates--two neuroscientists, a philosopher, a dance teacher, a collage artist, and a farmer--Peyton wonders what she could ever have to contribute. The ensuing journey of discovery will transform the characters' work, their biases, and themselves. This suspenseful novel shows that the answers you seek can be found in the most unlikely places. It can be read for pleasure, is a great choice for book clubs, and can be used as unique and inspiring reading in qualitative research and other courses in education, sociology, social work, psychology, and communication.

This anthology of international scholarship offers new critical approaches to the study of the many manifestations of the paranormal in the Middle Ages. The guiding principle of the collection is to depart from symbolic or reductionist readings of the subject matter in favor of focusing on the paranormal as human experience and, essentially, on how these experiences are defined by the sources. The authors work with a variety of medieval Icelandic textual sources, including family sagas, legendary sagas, romances, poetry, hagiography and miracles, exploring the diversity of paranormal activity in the medieval North. This volume questions all previous definitions of the subject matter, most decisively the idea of saga realism, and opens up new avenues in saga research.

“Filled with charming illustrations, this delightful book about Iceland’s 265 museums is as quirky and mesmerizing as the country’s dreamscape itself.” —Forbes Mythic creatures, natural wonders, and the mysterious human impulse to collect are on beguiling display in this poetic tribute to the museums of an otherworldly island nation. Iceland is home to only 330,000 people (roughly the population of Lexington, Kentucky) but more than 265 museums and public collections--nearly one for every ten people. They range from the intensely physical, like the Icelandic Phallogical Museum, which collects the penises of every mammal known to exist in

Iceland, to the vaporously metaphysical, like the Museum of Icelandic Sorcery and Witchcraft, which poses a particularly Icelandic problem: How to display what can't be seen? In *The Museum of Whales You Will Never See*, A. Kendra Greene is our wise and whimsical guide through this cabinet of curiosities, showing us, in dreamlike anecdotes and more than thirty charming illustrations, how a seemingly random assortment of objects--a stuffed whooper swan, a rubber boot, a shard of obsidian, a chastity belt for rams--can map a people's past and future, their fears and obsessions. "The world is chockablock with untold wonders," she writes, "there for the taking, ready to be uncovered at any moment, if only we keep our eyes open."
