The Nation

Highlights the histories and cultural expressions of the Dominican people Using a blend of historical and literary analysis, Colonial Phantoms reveals how Western discourses have ghosted-miscategorized or erased-the Dominican Republic since the nineteenth century despite its central place in the architecture of the Americas. musical performance, it illuminates the Dominican quest for legibility and resistance. Dixia Ramírez places the Dominican people and Dominican expressive culture and history at the forefront of an insightful investigation of colonial modernity across the Americas and the African diaspora. In the process, she untangles the forms of free black subjectivity that developed on the island. From the nineteenth century national Dominican poet Salomé Ureña to the diasporic writings of Julia Alvarez, Chiqui Vicioso, and Junot Díaz, Ramírez considers the roles that migration, knowledge production, and international divisions of labor have played in the changing cultural expression of Dominican identity. In doing so, *Colonial Phantoms* demonstrates how the centrality of gender, race, and class in the nationalisms and imperialisms of the West have profoundly impacted the lives of Dominicans. Ultimately, Ramírez considers how the Dominican people negotiate being left out of Western imaginaries and the new modes of resistance they have carefully crafted in response.

At a Crossroads

"Higher education in Latin America and the Caribbean has expanded dramatically in the past 15 years, as the average gross enrollment rate has more than doubled, and many new institutions and programs have been opened. Although higher education access has become more equitable, and higher education supply has become more varied, many of the 'new' students in the system are, on average, less academically ready than are their more advantaged counterparts. Furthermore, only half of higher education students, on average, complete their degree, and labor market returns to higher education vary greatly across institutions and programs. Thus, higher education is at a crossroads today. Given the region's urgency to raise productivity in a low-growth, fiscally constrained environment, going past this crossroads requires the formation of skilled human capital fast and efficiently. 'At a Crossroads: Higher Education in Latin America and the Caribbean' contributes to the discussion by studying quality, variety, and equity of higher education in Latin America and the Caribbean. The book presents comprehensive evidence on the recent higher education expansion and evolution of higher education labor market returns. Using novel data and state-of-the-art methods, it studies demand and supply drivers of the recent expansion. It investigates the behavior of institutions and students and explores the unintended consequences of large-scale higher education policies. Framing the analysis are the singular characteristics of the higher education market and the market segmentation induced by the variety of students and institutions in the system. At this crossroads, a role emerges for incentives, information, accountability, and choice."

In 1937 tens of thousands of Haitians living in the Dominican Republic were slaughtered by Dominican troops wielding machetes and knives. Dominican writer and lawyer Freddy Prestol Castillo worked on the Haiti--Dominican Republic border during the massacre, known as "The Cutting," and documented the atrocities in real time in *You Can Cross the Massacre on Foot*. Written in 1937, published in Spanish in 1973, and appearing here in English for the first time, Prestol Castillo's novel is one of the few works that details the massacre's scale and scope. Conveying the horror of witnessing such inhumane violence firsthand, it is both an attempt to come to terms with personal and collective guilt and a search to understand how people can be driven to indiscriminately kill their neighbors.

In 1996, the author wrote the first volume of his Pan-African Chronology-"an excellent, useful reference work," according to Library Journal-covering the period from 1400 through the end of the Civil War in the United States. In this continuation volume, Mr. Jenkins chronicles the most significant events in the African diaspora from the end of the Civil War through the pre-dash;World War I years. This was a time of great change for black Americans-Reconstruction, the founding of the NAACP, the judiciary's formation of the separate but equal doctrine, and the migration of hundreds of thousands of blacks from the rural South to the cities of the North. The eradication of slavery as a legalized institution was finally realized in the Americas during the period, while the struggle to end it in Asia was also taking place. European colonialism in Africa was accelerated in the late nineteenth and early twentieth centuries, ironically coinciding with the humanitarian efforts of several European countries to end the slave trade on the African continent. These events and many others are covered here. Many entries are supplemented by brief historical accounts that set the events in context.

Report on the Situation of Human Rights in the Dominican Republic

Seven hundred and fifty Jewish refugees fled Nazi Germany and founded the agricultural settlement of Sosúa in the Dominican Republic, then ruled by one of Latin America's most repressive dictators, General Rafael Trujillo. In Tropical Zion, Allen Wells, a distinguished historian and the son of a Sosúa settler, tells the compelling story of General Trujillo, Franklin Delano Roosevelt, and those fortunate pioneers who founded a successful employee-owned dairy cooperative on the north shore of the island. Why did a dictator admit these desperate refugees when so few nations would accept those fleeing fascism? Eager to mollify international critics after his army had massacred 15,000 unarmed Haitians, Trujillo sent representatives to Évian, France, in July, 1938 for a conference on refugees from Nazism. Proposed by FDR to deflect criticism from his administration's restrictive immigration policies, the Évian Conference proved an abject failure. The Dominican Republic was the only nation that agreed to open its doors. Obsessed with stemming the tide of Haitian migration across his nation's border, the opportunistic Trujillo sought to "whiten" the Dominican populace, welcoming Jewish refugees who were themselves subject to racist scorn in Europe. The Roosevelt administration sanctioned the Sosúa colony.

Since the United States did not accept Jewish refugees in significant numbers, it encouraged Latin America to do so. That prodding, paired with FDR's overriding preoccupation with fighting fascism, strengthened U.S. relations with Latin American dictatorships for decades to come. Meanwhile, as Jewish organizations worked to get Jews out of Europe, discussions about the fate of worldwide Jewry exposed fault lines between Zionists and Non-Zionists. Throughout his discussion of these broad dynamics, Wells weaves vivid narratives about the founding of Sosúa, the original settlers and their families, and the life of the unconventional beach-front colony.
