idea of new possibilities and new horizons. This book is an indispensable guide to the most beautiful, breathtaking, extraordinary, and fun road trips the world has to offer. Complete with road trips varying in length and level of challenge, from an epic transglobal route inspired by Ewan McGregor and Charley Boorman's Long Way Round documentary series to a two-mile blast around Monaco's F1 street circuit, there is something for any adventurer. Each entry provides information about distance, start and finish points, road surfaces, must-see stop-offs, detours, and other details to plan an unforgettable trip. Entries are organized into three categories: Scenic, Adventure, and Culture. One can marvel at the views from Cape Town's scenic Chapman's Peak Drive or central California's Pacific Coast Highway, but the thrill seeker might opt for the hair-raising ride through Montenegro's coastal mountains to reach the medieval walled town of Sveti Stefan on the Adriatic. The culture category features routes inspired by film, literature, and history: recreate Thelma and Louise's heart-pounding joyride (minus the final leap), savor Japan's "Romance Road" through unspoiled small towns, or follow Jack Kerouac's path from *On the Road*.

The Clown in the Gown Drives the Car with the Star

Every year, Top Gear dispatches correspondents to cover many serious stories around the world. Wherever they go, they ask tough questions and leave no stone unturned in search of the cold, hard truth. Questions such as: Is it possible to drive a Ferrari up a Scottish ski slope? Exactly how far can you drive a bulldozer across the Antarctic before it falls down a big crack? And what happens when you drive a small 4X4 up a volcano, during an earthquake, with a high chance of eruption? The answers to all of the above – and more – can be found in *Top Gear Top Drives*, a new book featuring Top Gear 's best adventures, neatly arranged in precise geographic order: top, middle and bottom. These are not Sunday drives to country pubs. You will not find any mentions of freshly cut grass and picnics under oak trees. In fact, you are more likely to

encounter roadside landmines and a pack of Chilean llamas with a relaxed approach to personal hygiene. Of course you will also find supercars on winding mountain passes, but this book goes much further, bringing you the most unusual combinations of car and tarmac – or lack of it – from across our planet. All of which are accompanied by a surprisingly useful collection of travel tips, featuring such useful advice as when to go, what the weather 's like and where to find a reasonably priced beer. Like any classic travel guide, you really shouldn ' t leave home without it. Unless you write down the really important bits, in which case you ' ll probably be OK.
