Bing: Eras In Epidemiology The Evolution

Nature, in the broadest sense, is the natural, physical, material world or universe. "Nature" can refer to the phenomena of the physical world, and also to life in general. The study of nature is a large, if not the only, part of science. Although humans are part of nature, human activity is often understood as a separate category from other natural phenomena.

The Plague of Thebes, a Historical Epidemic in Sophocles

Sophocles, one of the most noted playwrights of the ancient world, wrote the tragedy Oedipus Rex in the first half of the decade 430–420 bc. A lethal plague is described in this drama. We adopted a critical
