The perfect Mother's Day gift: A collection of witty one-line advice New Yorker writer Patricia Marx heard from her mother, accompanied by full-color illustrations by New Yorker staff cartoonist Roz Chast. Every mother knows best, but New Yorker writer Patty Marx's knows better. Patty has never been able to shake her mother's one-line witticisms from her brain, so she's collected them into a book, accompanied by full color illustrations by New Yorker staff cartoonist Roz Chast. These snappy maternal cautions include: If you feel guilty about throwing away leftovers, put them in the back of your refrigerator for five days and then throw them out. If you run out of food at your dinner party, the world will end. When traveling, call the hotel from the airport to say there aren't enough towels in your room and, by the way, you'd like a room with a better view. Why don't you write my eulogy now so I can correct it? Every child will want to buy this for mom on Mother's Day!

John Gardner's career was permanently changed by his publication of *On Moral Fiction* (1978), a controversial and derided assessment of the state of literature as Gardner saw it. By arguing for a return to greater seriousness and moral commitments in literature, Gardner found himself attacked on all sides by critics and writers who found his conservatism suspicious or simply irrelevant. In this short tribute to Gardner's late intellectual concerns, Phil Jourdan looks at some of the difficulties in *On Moral Fiction*, and asks whether Gardner was rigorous enough in his deployment of various philosophical concepts through his book. Convinced that, despite any problems of argumentative method or intellectual honesty, *On Moral Fiction*'s basic message should not be dismissed outright, Jourdan tries to determine what is superfluous to the book, so that we may focus on its core: a call for writers not to forget their moral influence on readers. Now that Gardner's career is half-forgotten, it is worth remembering this impassioned and public debate on the role of literature has been around far longer than we care to pretend: throughout the centuries, as literature attempts to define itself over and over, the question of morality is always lurking in the background. In *John Gardner: A Tiny Eulogy*, Phil Jourdan tries to separate the man from the argument, and insists that the latter should not be dismissed because of the imperfection of the former.

experience that so often seems anything but controllable. Their book offers everything from step-by-step instructions for how to do your paperwork and navigate the healthcare system to answers to questions you might be afraid to ask your doctor, like whether or not sex is still okay when you're sick. Get advice for how to break the news to your employer, whether to share old secrets with your family, how to face friends who might not be as empathetic as you'd hoped, and how to talk to your children about your will. (Don't worry: if anyone gets snippy, it'll likely be their spouses, not them.) There are also lessons for survivors, like how to shut down a loved one's social media accounts, clean out the house, and write a great eulogy. An honest, surprising, and detail-oriented guide to the most universal of all experiences, *A Beginner's Guide to the End* is "a book that every family should have, the equivalent of Dr. Spock but for this other phase of life" (New York Times bestselling author Dr. Abraham Verghese).

ABOUT THE BOOK A loved one has passed, and you've been given the task of writing a eulogy. Where to begin? Writing a eulogy can seem like a daunting task; in fact it has been said that people fear public speaking more than death. When writing a eulogy, you are preparing to speak publicly about death — probably the death of a loved one or close acquaintance. Though this is undoubtedly a difficult time, writing a eulogy doesn't have to add to your stress. With proper planning and organization, composing a eulogy can be done relatively quickly and painlessly. **MEET THE AUTHOR** Kate has over 10 years of experience writing, researching and editing articles, eNewsletters, web content, press releases, and resource books. She's a huge nerd, and is interested in everything from science and the latest technology to crafts, food and celebrity gossip. Because of her eclectic tastes, she has written about topics ranging from childhood brain development to fuel efficiency to micro-breweries. Kate loves writing and researching, it gives her a chance to inform and entertain readers, and also as an opportunity to learn something new. Kate a native Mainer, and when she is not shoveling snow or writing, she's huddled near the fire with her daughter, her husband, and her dogs. **EXCERPT FROM THE BOOK** The first stage of writing a eulogy is often referred to as information gathering. Experts recommend sitting down and brainstorming about the person you are commemorating before you begin the actual eulogy writing. By getting thoughts down in a free flowing manner, you may come up with details, stories, or attributes about the person that you may not if you try to follow a strict outline setting from the outset. Think about what the person looked like, hobbies, career, family life, and any stories you might want to share. The more details you can add the better. Don't worry about flow or organization at this point. All you are trying to do is get some ideas down on paper. Next, call some family or friends of the deceased and ask them if they have any stories or memories they would like to share, find out if the deceased had any favorite songs, poetry, or literature that would be good to include. Next you will want to start organizing your eulogy. Some people like to prepare an outline. You will want to include biographical information, perhaps a bit about where the person grew up, their family life, places they lived, also mention their children and spouse if applicable. You could also include career information in this section as well. Buy a copy to keep reading!

Eulogies have a long and important history in remembering and commemorating the dead. As Thomas Lynch notes in his Foreword, eulogies are meant "to speak for the ages, to bring homage and appreciation, the final appraisal, the last word and first draft of all future biography." In Great American Catholic Eulogies, Carol DeChant has compiled fifty of the most memorable and instructive eulogies of and by Catholics in America. The eulogies span the American experience, from those who were born before the Declaration of Independence was written to a modern sports legend, from pioneers in social justice, healthcare, and the arts to founders of distinctly American religious order, and from all the varied ethnic cultures who contribute to the great cultural milieu that is the United States.

Annual Report of the Board of Regents of the Smithsonian Institution

Farewell, Godspeed is a remarkable collection of eulogies for some of the most notable figures of our time, delivered by the people who knew them best. In the words used to eulogize the great and celebrated men and women of the world—sometimes reverential, sometimes funny, always poignant—we come as close as perhaps we ever will to seeing the warm humanity beneath their public personas. Cyrus M. Copeland has gathered some of the greatest of these writings about artists, scientists, authors, public servants, entertainers, and others who have captured our attention by making the world a better, or at least a livelier, place. Here is Andy Warhol's close friend describing Warhol's hidden spirituality. Albert Einstein's assistant recounting his humanism. Edward Kennedy remembering with a brother's tenderness the life of Jacqueline Kennedy Onassis. Larry McMurtry's lively and loving tribute to Irving "Swifty" Lazar. And Robert Bernstein, longtime publisher and friend of Dr. Seuss, memorializing him with special, never-before-published verse. Also included are the eulogies of the Challenger astronauts by President Ronald Reagan; Charles Schulz by Cathy Guisewite (creator of the comic strip *Cathy*); Bette Davis by James Woods; Bob Fosse by Neil Simon; Lucille Ball by Diane Sawyer; Martin Luther King Jr. by Benjamin E. Mays; David O. Selznick by Truman Capote; Karl Marx by Friedrich Engels; and Gianni Versace by Madonna. In these moving and personal tributes we see at last the vulnerabilities and nuances of character that are often hidden from the spotlight, and the true personalities behind the names we remember. From the Hardcover edition.
