mind, relationship, or other activity (or all of the above), we spend our days trying to be, and become, our best selves. But what happens when all that focus starts to dominate our lives? When our desire for "perfect health" trumps everything else, perhaps without us even realizing it? What happens when our solution starts becoming the problem? These are questions that author and popular blogger Jordan Younger faced when she decided that her extreme, plant-based lifestyle just wasn't working in favor of her health anymore--and questions that you may be facing too. In *Breaking Vegan*, Jordan reveals how obsessive "healthy" dieting eventually led her to a diagnosis of orthorexia, or a focus on healthy food that involves other emotional factors and ultimately becomes dysfunctional, even dangerous. In candid detail, Jordan shares what it was like to leave veganism, the downfall of her desire to achieve nutritional perfection, and how she ultimately found her way to recovery. In addition to this, Jordan outlines an "anti-diet," whole-foods-based eating plan featuring more than 25 recipes to help inspire others to find similar balance in their own lives. *Breaking Vegan* is about tolerance and forgiveness. And ultimately, forging one's own path toward happiness.

Hailed as a classic of speculative fiction, Marge Piercy's landmark novel is a transformative vision of two futures--and what it takes to will one or the other into reality. Harrowing and prescient, *Woman on the Edge of Time* speaks to a new generation on whom these choices weigh more heavily than ever before. Connie Ramos is a Mexican American woman living on the streets of New York. Once ambitious and proud, she has lost her child, her husband, her dignity--and now they want to take her sanity. After being unjustly committed to a mental institution, Connie is contacted by an envoy from the year 2137, who shows her a time of sexual and racial equality, environmental purity, and unprecedented self-actualization. But Connie also bears witness to another potential outcome: a society of grotesque exploitation in which the barrier between person and commodity has finally been eroded. One will become our world. And Connie herself may strike the decisive blow. Praise for *Woman on the Edge of Time* "This is one of those rare

novels that leave us different people at the end than we were at the beginning. Whether you are reading Marge Piercy's great work again or for the first time, it will remind you that we are creating the future with every choice we make."--Gloria Steinem "An ambitious, unusual novel about the possibilities for moral courage in contemporary society."--The Philadelphia Inquirer "A stunning, even astonishing novel . . . marvelous and compelling."--Publishers Weekly "Connie Ramos's world is cuttngly real."--Newsweek "Absorbing and exciting."--The New York Times Book Review

She stepped into a death zone. The climbers on Alaska's Mt. McKinley called her "the woman." Ruth Anne Kocour, a world-class mountaineer, wasn't bothered. It was part of the challenge she faced as she joined an all-male team to conquer North America's highest peakthe mountain the Indians called Denali, or God. Faced the extreme. But nine days into this ascent, a forty-fifth birthday present to herself, the most violent weather on record slammed into the mountain. Ruth Anne and her group would be trapped on an ice shelf at 14,000 feet for the deadliest two weeks in Denali history. Pinned down by blinding snows, unable to help other teams dying around her, and her own feet freezing

solid, Ruth Anne tells of a wind chill of minus 150 degrees, deadly hidden crevasses, and being trapped in a place so violent and unforgiving that it threatened to push her over the edge and into a place of no return. And yet, in prose as crystalline as the ice around her, she tells, too, of beauty, courage, and the spirit that drives true mountaineers higher, as she risks all to go for the summit and perhaps, for a transcendent moment, touch heaven. And lived to tell about it in Facing the Extreme.

An extraordinary and inspiring chronicle of one woman's harrowing journey to become the first female to kayak the entire Amazon River. Part memoir, part feminist manifesto, Amazon Woman shows what incredible feats we are capable of and will encourage people, especially women, across all backgrounds and ages to find the courage and strength to live the life they've imagined. This 148-day journey began on Darcy Gaechter's 35th birthday. She sold her successful outdoor adventure business, upsetting her partner and boyfriend of twelve years and getting them both fired in the process. The emotional waters that would fester and erupt on the

ensuing journey was often more challenging to navigate than the mighty river itself. With blistering lips and irradiated fingernails, Darcy would tackle raging Class Five whitewater for twenty-five days straight, barely surviving a dynamite-filled canyon being prepared for a new hydroelectric plan. She and her two companions would encounter illegal loggers, narco-traffickers, murderous Shining Path rebels, and ruthless poachers in the black market trade in endangered species. They would plead for mercy at the hands of the murderous Ashaninka people who were convinced that they had come to steal their children's organs. In a desperate attempt meant to give her some pretense of control, Darcy even cut off all her hair before entering Peru's notoriously dangerous "Red Zone" in hopes of passing for a boy and being seen as less of a target. At once a heart-pounding adventure and a celebration of pushing personal limits, Amazon Woman speaks to all of us feeling trapped by our desk-bound, online society. This a story of finding the courage and strength to challenge nature, cultures, social norms, and oneself.

*Second Wind* is the story of an unlikely athlete and an unlikely heroine: Cami Ostman, a woman edging toward midlife who decides to take on a challenge that stretches her way outside of her comfort zone. That challenge presents itself when an old friend suggests she go for a run to distract her from the grief of her recent divorce. Excited by the clarity of mind and breathing space running offers her, she keeps it up – albeit slowly – and she decides to run seven marathons on

seven continents; this becomes Ostman's vision quest, the thing she turns to during the ups and downs of a new romance and during the hard months and years of redefining herself in the aftermath of the very restrictive, religious-based marriage and life she led up until her divorce. Insightful and uplifting, *Second Wind* carries the reader along for the ride as Ostman runs her way out of compliance with the patriarchal rules about "being a woman" that long held her captive and into authenticity and self-love. Her adventures – and the personal revelations that accompany them – inspire readers to take chances, find truth in their lives, and learn to listen to the voice inside them that's been there all along.

The "fierce" and "remarkable" memoir from one of the nation's most influential and celebrated civil rights attorneys—second cousin of former Secretary of State Condoleezza Rice—is "a rallying cry for social justice" (More magazine). Connie Rice has taken on the bus system, the school system, the death penalty, gangs, and the LAPD—and won. Now, with an electrifying, inimitable voice, Rice illuminates the origins and inspiration for her life's work in this "genuinely compelling" (Kirkus Reviews) account. Part memoir, part call to

action, Power Concedes Nothing is passionate, provocative, and studded with dramatic stories of a life in the trenches of civil rights. Inspired by the words of Martin Luther King, Jr., Connie Rice has written a "remarkable" (Publishers Weekly) blueprint for a new generation of justice seekers.

## **One Woman's Army**

The Ocean is calling me. This is my Journey. With these words, in the spring of 2010, Susan Marie Conrad scaled her world down to an 18-foot sea kayak and launched a solo journey that took her north to Alaska. With no sense of where she belonged in space and unreconciled feelings of a painful childhood following her, she decided that instead of running away, she would run toward her dreams. Her adventure took her along the western coast of North America, through the Inside Passage—a 1,200-mile ribbon of water—in a journey of the sea and soul. The expedition took her deep within herself, humbling her, healing her, helping her to

discover the depths of her own strength and courage. On her way from Anacortes, Washington, to Juneau, Alaska, she grappled with fear and exhaustion, forged friendships with quirky people in the strangest places, endured perilous weather and angry seas, and pretended not to be intimidated by 700-pound grizzly bears and 40-ton whales. She lived her dream.
