Fundamentals of Financial Accounting - Alison

The main objective of financial accounting is to showcase an accurate and fair picture of the financial affairs of the company. To understand its fundamentals, first, we should start with a double-entry system and debit & credit, and then gradually should understand journal and ledger, Trial Balance , and four financial statements.

BSC

To learn a foreign language like Accounting, you need quite a bit of practice in the basic foundations (grammar, syntax, idioms, etc.). This material is absolutely essential for being able to read and to understand books written in the language (in our case, financial statements.). This week, we will start building these foundations.
