### **Fly-Fishing for Bonefish**

Nick Lyons, a legend in fishing world, has assembled a sampling of the best of the classic and contemporary tales, memoirs, essays and poetry. This book is perfect for anyone who fishes, or knows someone who fishes, or loves life out of doors. I know what I'll be giving as gifts this year. Skyhorse Publishing is proud to publish a broad range of books for fishermen. Our books for anglers include titles that focus on fly fishing, bait fishing, fly-casting, spin casting, deep sea fishing, and surf fishing. Our books offer both practical advice on tackle, techniques, knots, and more, as well as lyrical prose on fishing for bass, trout, salmon, crappie, baitfish, catfish, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

### **Pop Fleyes**

Now for the first time in ten years, The Orvis Fly-Fishing Guide appears in a revised edition that solidifies its place as the flagship title of the Orvis brand. A best-selling, fully illustrated, and comprehensive book, this large-format volume has been required reading for every angler for nearly three decades. Included here are instructions for tackle selection; casting and presentation; flies and their specific uses; successful techniques on stream, pond, or ocean; and the select tackle, flies, and methods for pursuing every major gamefish in fresh and salt water, from bass to bonefish, tarpon to trout.

### **Prospecting for Trout**

In Fly-Fishing for Smallmouth, Bob Clouser shares the extensive knowledge he has developed over a quarter-century of guiding for smallmouth bass on the Susquehanna River. Beyond his native waters, the lessons Bob offers in this book can be directly applied to smallmouth fisheries across the country, from

creeks to large rivers. An experienced teacher, Bob anticipates the questions and challenges faced by anglers when they first encounter a smallmouth stream. He explains the natural history of smallmouth--their range, spawning behavior, feeding habits, and seasonal movement patterns--and then introduces the specific flies and techniques he uses when fly-fishing for bass. In sections on casting and presentations, he discusses intermediate to advanced methods of casting with weighted flies and lines as well as various surface and subsurface tactics, with dramatic color photos of the author demonstrating how it's done. Bob has designed a series of flies especially for smallmouth, and he reveals recipes and fishing tips for these flies and the other bass patterns he regularly uses and carries in his fly box. In the book's final chapter, he invites his friends to write about their favorite local bass streams across North America. These well-known anglers, among them Lefty Kreh, John Randolph and Mike O'Brien, offer intimate details on the greatest bass waters from California to Ontario. AUTHOR: Bob Clouser is also the author of *Clouser's Flies* (0-8117-0148-4), which contains complete instructions for tying his renowned patterns. He and his wife, Joan, own and operate Clouser's Fly Shop near their home in Middletown, Pennsylvania. Contributing photographer Jay Nichols fishes for smallmouth bass on the Susquehanna River and its many tributaries. He lives in New Cumberland, Pennsylvania, with his wife, Donna, and daughter, Amelia. REVIEWS: "In addition to being the inventor of the world-famous Clouser Deep Minnow, Bob Clouser is a master of smallmouth bass fly fishing. This book, long overdue, reveals the bass-fishing secrets that have helped earn Bob his reputation." ---John Randolph, editor of *Fly Fisherman* magazine

## **Selective Trout**

From the bestselling author of *Saban, 4th and Goal*, and *Sowbelly* comes the thrilling, untold story of the quest for the world record tarpon on a fly rod—a tale that reveals as much about Man as it does about the fish. In the late 1970s and early 1980s, something unique happened in the quiet little town on the west coast of Florida known as Homosassa. The best fly anglers in the world—Lefty Kreh, Stu Apte, Ted Williams, Tom Evans, Billy Pate and others—all gathered together to chase the same Holy Grail: The world record for the world's most glamorous and sought-after fly rod species, the tarpon. The anglers would meet each morning for breakfast. They would compete out on the water during the day, eat dinner together at night, socialize and party. Some harder than others. The world record fell nearly every year. But records weren't the only things that were broken. Hooks, lines, rods, reels, hearts and marriages didn't survive, either. The egos involved made the atmosphere electric. The difficulty of the quest made it legitimate. The drugs and romantic entanglements that were swept in with the tide would finally make it all veer out of control. It was a confluence of people and place that had never happened before in the world of fishing and will never happen again. It was a collision of the top anglers and the top species of fish which would lead to smashed lives for nearly all involved, man and fish alike. In *Lords of the Fly*, Burke, an obsessed tarpon fly angler himself, delves into this incredible moment. He examines the growing popularity of the tarpon, an amazing fish has been around for 50 million years, can live to 80 years old and can grow to 300 pounds in weight. It is a massive, leaping, bullet train of a fish. When hooked in shallow water, it produces "immediate unreality," as the late poet and tarpon obsessive, Richard Brautigan, once described it. Burke also chronicles the heartbreaking destruction that exists as a result—brought on by greed, environmental degradation and the shenanigans of a notorious Miami gangster—and how all of it has shaped our contemporary fishery. Filled with larger-than-life characters and vivid prose, *Lords of the Fly* is not only a must read for anglers of all stripes, but also for those interested in the desperate yearning of the human condition.

## **L.L. Bean Fly Fishing for Bass Handbook**

Here fishing guide and fly designer Henry Cowen shares decades of hard-earned knowledge of stripers for the first time. Learn about the species, its food, and where and how to find them, so you can land far more and bigger stripers. Knowing where and how to find stripers is key, and Cowen offers proven techniques for locating fish in both reservoirs and rivers, including water temperature, seasonal patterns, weather patterns, locating the bait, water clarity, and wildlife and how it can help anglers. The popularity of fishing for striped bass in freshwater is growing quickly, especially as global warming allows the fish to live in waters that used to be too cold. This is the first major book on the subject, one that is sure to be part of a big trend among fly fishers. Cowen carefully outlines fishing tactics, along with detailed photographs of the steps involved, covering: Retrieving a striper Fishing a point, uphill and downhill Working a topwater fly (constant retrieve) Hooking a fish (strip strike) Fishing a hump Fishing a saddle or blow-through Fishing a breakwater Using the countdown method Fishing a deep hole in a river Fishing a creek in a river And much more! Cowen also takes a close look at freshwater striped bass, explaining how natural and stocked fisheries are managed as well as the difference between the various species. Along with help choosing equipment and some notes on wading tactics, anglers will have everything they need to improve their fishing techniques or make a start on this popular all-American outdoor sport.

### **Clouser's Flies**

"The most innovative fly tier I have ever known." --Lefty Kreh on Bob Popovics "Bob Popovics has brought more creative ideas to the table in the last two decades than any other tier out there." --Dan Blanton This is the first and only book available on the tier whose techniques with epoxy and silicone revolutionized saltwater fly tying. The family of flies Bob Popovics developed over the last three decades (dubbed "Pop Fleyes," a spelling that incorporates part of his last name with the fact that eyes are a prominent feature in their design) have proven devastatingly effective for stripers, bluefish, false albacore, and many more species. This book goes beyond the basic recipe format to provide the thinking behind Popovics's pattern development, a guide to key tying techniques, and detailed notes on how to fish Pop Fleyes most effectively.

### **The Gigantic Book of Fishing Stories**

When it was originally published in 1971, Selective Trout was universally acclaimed as the most revolutionary approach to aquatic insect imitation in the twentieth century. Using common sense, science, and imagination, authors Doug Swisher and Carl Richards developed a wide array of new patterns that were in sharp contrast to those offerings used by American fly fishermen up to that time. Their radical no-hackle dry fly, in particular, proved to be a more convincing, natural silhouette than anything anglers had ever seen before. With hatch charts covering different regions of the country, and

featuring detailed tying instructions for flies that could be used in those regions, all liberally illustrated, the book provided anglers with a new arsenal of deadly fly patterns. Thirty years later, and after more than 200,000 copies of the first edition had been sold, a Thirtieth Anniversary Edition was brought out. Updated and revised by the authors, with new observations on trout behavior as well as detailed instructions on how to keep useful fishing logs, the book also featured detailed appendices on terrestrials, mayflies, caddisflies, and stoneflies. Not only that, but the new edition included hundreds of color illustrations by the renowned artist and fly-fishing innovator Dave Whitlock. It's hard to imagine how anything could top that. In this new paperback edition of *Selective Trout* we know that we can't top what's been done previously. But we do know that this deserves to stay in print, because it's the type of book that every fly fisherman should own and read. To add a new twist to this new edition, what we have done is added a new introduction by Doug Swisher (Carl Richards passed away in 2006), plus a new foreword by Nick Lyons, the book publisher who had the foresight to get behind the book in the first place.

### **Trout and Their Food**

San Francisco Bay Striper is a regional how-to book for catching one of our most popular game fish the striped bass. Basically the book follows the spring, summer, and fall migration of the striped bass throughout San Francisco Bay and our coastal zones from Marin to Half Moon Bay. For each local it covers the popular angling methods for taking these fish which can range from live bait fishing, casting from shore, boat trolling, and fly fishing. Although the striped bass populations have fluctuated dramatically since the book's publication in 1983, and Fish & Game regulations regarding size and limits have changed for this fish, nevertheless the how-to techniques for catching striped bass still apply for the present. Also my brother Angelo and I have decided to put the book out for nostalgic reasons to give new readers a glimpse of what striper fishing was like in the past. Enjoy.

### **Along the Water's Edge**

They were the favorite game fish of Ernest Hemingway and Zane Grey. They can grow to greater than 1,000 pounds. They can reach burst speeds of 70 miles an hour. Their fighting stamina and migratory habits are legendary. But blue marlin are not easy to catch. Even experienced anglers typically spend weeks or months - not to mention small fortunes - trying to connect with a precious few of these elusive ocean prizes Steve Campbell has answered practically every question the avid bluewater angler could possibly think to ask him-who, why, where, when and then some Steve is a highly seasoned and skilled sport-fishing captain from New Zealand. He has spent a lifetime fishing throughout the South Pacific With more than 1,000 stunning color photographs and original illustrations Far more than an elaborate fishing book, [this] is also a visual feast of the unspoiled ocean environment as seen through the lenses of talented photographers Doug Perrine of Hawaii, Jon Schwartz of California, and Kim Westerkov of New Zealand. Internationally award-winning marine photographer Perrine spent one month in Tonga aboard (and overboard) Campbell's boat, Reel Addiction, to capture vivid underwater images of blue marlin and other beautiful creatures - whales to sharks to seabirds - of the South Pacific"--Publisher's description.
