Suggesting that the United States' dominant form of literacy is contingent and historical, not permanent and absolute, this book asserts that when a society changes its definition of literacy, it also changes its models of mind and its models for teaching English. The book challenges the assumption that the public schools are a failure, arguing instead that public school teachers have met every literacy challenge put to them by parents and government. The book introduces a new standard of literacy ("translation/critical

literacy"), and discusses how the new standard affects the English and language arts curriculum, the tools and methods of learning, and the conceptualization of assessment of knowledge. Chapters in the book are: (1) Shifting Social Needs: From Clocks to Thermostats; (2) From Oracy (or Face-to-Face Literacy) to Signature Literacy: 1660-1776; (3) Signature and Recording Literacy: 1776-1864; (4) Recitation and Report Literacy: 1864-1916; (5) A Literacy of Decoding, Defining, and Analyzing: 1916-1983; (6) The Transition to a New Standard of Literacy: 1960-1983; (7) The Event-Based Features of Translation/Critical Literacy; (8) Embodied Knowledge: Self-Fashioning and Agency; (9) Distributed Knowledge: The Technology of Translation/Critical Literacy; (10) Negotiated and Situated Knowledge: Translating among Sign Systems; (11) Negotiated and Situated Knowledge: Translating among Speech Events; (12) Negotiated, Situated, and Embodied Knowledge: Translating among the Modes; (13) Negotiated and Situated Knowledge: Translating between Stances; (14) Style and Worldviews in Literature and Public Discourse; and (15) Conclusion: "I Think It Happened Again." Volume II of The Cambridge History of War covers what in Europe is commonly called 'the Middle Ages'. It includes all of the well-known themes of European warfare, from the migrations of the Germanic peoples and the Vikings through the Reconquista, the Crusades and the age of chivalry, to the development of state-controlled gunpowder-wielding armies and the urban militias of the later middle ages; yet its scope is world-wide, ranging across Eurasia and the Americas to trace the interregional connections formed by the great Arab conquests and the expansion of Islam, the migrations of horse nomads such as the Avars and the Turks, the formation of the vast Mongol Empire, and the spread of new technologies - including gunpowder and the earliest firearms - by land and sea.

The Cambridge History of War: Volume 2, War and the Medieval World

Morocco is a land of spectacular scenery, with a rich history, and heady with tantalizing scents and colorful sights. The call of the muezzin seems to draw people from every corner of the globe. In 1956 Morocco gained independence from French colonial rule and was jolted into the 20th century. Today it is a country in transition—a unique blend of Arab, African, and European ways of life. The teeming cities have an air of sophistication and joie de vivre, but life in rural

areas has stayed much the same. And while the cities are highly westernized, tradition and religion still play a vital role in the everyday life of most people. With rapid change came problems. Lack of opportunity and high unemployment resulted in a "brain drain" as educated Moroccans made their way abroad, and a fundamentalist interpretation of Islam started gaining ground among the urban poor. Even so, as technology becomes widespread and the world shrinks further, Morocco today is coming into its own. Culture Smart! Morocco describes the way the country's past has shaped its present, advising tourists and business travelers on what to expect and how to behave in different situations.

"An exceptionally concise and well-organized compilation of lucid accounts of the historical background and current research into all aspects of island science. Anyone with a serious interest in islands needs this tome close at hand."--Alex McBirney, author of "Volcanology and Igneous Petrology" "Scientific research on islands has greatly expanded our knowledge not only of insular biology, but also of the ecological and evolutionary processes that shape biodiversity throughout the world. This beautifully illustrated volume is a comprehensive compendium of all topics related to islands and the science conducted on them. It will be an invaluable resource not only to ecologists and evolutionary biologists, but also to anthropologists, historians, geologists, conservationists, and anyone else interested in the wonderful diversity of islands and their inhabitants."--Jonathan Losos, author of "Lizards in an Evolutionary Tree: Ecology and Adaptive Radiation of Anoles" "Encyclopedia of Islands "is an excellent reference guide. Winner of the 2016 Pulitzer Prize for Fiction Winner of the 2016 Edgar Award for Best First Novel Winner of the 2016 Andrew Carnegie Medal for Excellence in Fiction “[A] remarkable debut novel”—Philip Caputo, New York Times Book Review (cover review) The winner of the Pulitzer Prize for Fiction, as well as seven other awards, *The Sympathizer* is one of the most acclaimed books of the twenty-first century. With the pace and suspense of a thriller and prose that has been compared to Graham Greene and Vladimir Nabokov, *The Sympathizer* is a sweeping epic of love and betrayal. The narrator, a communist double agent, is a

“man of two minds,” a half-French, half-Vietnamese army captain who comes to America after the Fall of Saigon, and while building a new life with other Vietnamese refugees in Los Angeles is secretly reporting back to his communist superiors in Vietnam. The Sympathizer is a blistering exploration of identity and America, a gripping spy novel, and a powerful story of love and friendship.
