Roaming America

The Art of Looking Up surveys 40 spectacular ceilings around the globe that have been graced by the brushes of great artists including Michelangelo, Marc Chagall and Cy Twombly. From the floating women and lotus flowers of the Senso-ji Temple in Japan, to the religious iconography that adorns places of worship from Vienna to Istanbul, all the way to bold displays like the Chihuly glass flora suspended from the lobby of the Bellagio Hotel in Las Vegas: this book takes you on a tour of the extraordinary artworks that demand an alternative viewpoint. History of art expert Catherine McCormack guides you through the stories behind the artworks – their conception, execution, and the artists that visualised them. In many cases, these artworks also make bold but controlled political, religious or cultural statements, revealing much about the society and times in which they were created. Divided by these social themes into four sections – Religion, Culture, Power and Politics – and pictured from various viewpoints in glorious colour photography, tour the astounding ceilings of these and more remarkable locations: Vatican Palace, Rome, Italy Blenheim Palace, Oxfordshire, UK Louvre Museum, Paris, France Dali Theatre-Museum, Figueres, Catalonia Museum of the Revolution, Havana, Cuba Capitol Building, Washington, DC, USA Four eight-page foldout sections showcase some of the world's most spectacular ceilings in exquisite detail. First and foremost, this is a visual feast, but also a desirable art book that challenges you to seek out fine art in more unusual places and question the

Yellowstone Fly Fishing Guide

“ A work of extraordinary imagination and sympathy, a journey from slavery to the mountaintop, perfectly realized. ” —Ken Burns, American filmmaker Born on Emancipation Day, 1863, to a sharecropping family of black and Indian blood, Elijah Yancy never lived as a slave—but his self – image as a free person is at war with his surroundings: Spartanburg, South Carolina, in the Reconstructed South. Exiled for his own survival as a teenager, Elijah walks west to the Nebraska plains—and, like other rootless young African – American men of that era, joins up with the US cavalry. The trajectory of Elijah ’ s army career parallels the nation ’ s imperial adventures in the late 19th century: subduing Native Americans in the West, quelling rebellion in the Philippines. Haunted by the terrors endured by black Americans and by his part in persecuting other people of color, Elijah is sustained only by visions, memories, prayers, and his questing spirit—which ultimately finds a home when his troop is posted to the newly created Yosemite National Park in 1903. Here, living with little beyond mountain light, running water, campfires, and stars, he becomes a man who owns himself completely, while knowing he ’ s left pieces of himself scattered along his life ’ s path like pebbles on a creek bed. “ Seen through the fresh eyes of buffalo soldier Elijah Yancy, Yosemite is Gloryland, his true home. Shelton Johnson has written a beautiful novel about Elijah ’ s journey. ” —Maxine Hong Kingston, author of *China Men* and *The Woman Warrior*
