The Original and Still the Greatest Book of Hypnotic Seduction Poetry. These seduction poems give you the ability to hypnotize women and give them post-hypnotic suggestions to adore and want you - simply by reading them some mildly erotic poems. The NLP for PUA Foreword explains the hypnosis and neuro-linguistic programming (NLP) language patterns used to capture and lead a woman's imagination (and body) into bed. Here are some of the many positive comments I have received from men and women: "Women accept them because of their unobtrusive and romantic nature, without realizing the deep hidden commands that are taking place " (Richard G. Butler PhD DD) "Thanks phil they really do work astonishing well. esp when the 7 hypnosis secrets are applied" (Anon) "OMG!!!! This is amazing! Even this sample worked like magic!" (Bob) "wow These rocked my life! Thanks!" (Anon) "My wife loves the poems and when I put her into a trance and read them to her I get Great results." (Bill) "I read your poem to one woman who I haven't touched in years. She is literally begging me now since getting back in touch with me (bumped into each other at work and was still horny for me anyway,) but now even more so, she is practically dripping thru the phone as I read poems to her. (she thinks I write them). She said she let her female friend listen and her friend said it made her panties wet (to stop it!!)." (Anon) "I'll be your spokes person!! Or that guy on the freeway with a sign saying "Phil is the MAN!" " Perrin "The only comment I have for you Phil is. when is the next book going to be available?. my girl told me to give you her opinion so here it is Gotta tell ya though, I read Sublimity to several females to see if it phased them (scientific study of course) and WOW!!! the response was very positive (Anon) "I am a woman, and I used them with a man. I am very pleased with the results. I read several of them to him as I lay with my head in his lap.. reading softly and slowly, and gazing into his eyes when ever I could without losing my place. Watching his face go from 'but I wanted to watch TV', to interest and then tenderness was awesome! Thanks Phil for you poems, you newsletters, and you book!" (Jen)

clear, step by step guide that explains theory as well as practice so that you can develop your own style and flair? Authors James Gordon, a clinical hypnotherapist, and Rebecca Doll, who holds a master's in education, wrote an exhaustive guide. Taking a clear, consent based, non-gendered , approach to hypnotic instruction, we use a scientific and historical approach to de-mystify hypnosis so that anyone and everyone can learn to hypnotize not just highly suggestible individuals, but any partner. We focus on teaching fundamentals so that you can develop your own unique style and flair. Other books are designed to give you a few scripts and tricks, but they are not an entire course in hypnosis. We reveal all the keys that will allow the reader a complete understanding of how to hypnotize. Among many topics we cover: ethics and consent, types of suggestibility, suggestibility testing, hypnotic modalities, inductions, deepening techniques. Designed to be an inclusive course, we offer roadmap of how to recover if you have a problem, and what to do if you experience abreaactions or other issues in hypnosis, discussing important issues such as emotional support and aftercare. We tell you the things that are vital to your knowledge and understanding of how to successfully hypnotize even those subjects that have previously proven difficult or impossible to hypnotize. If you've been looking for a respectable source for training in erotic hypnosis with a full and up front discussion of both the easy and hard parts, this book is an excellent guide. In addition to a broad overview of hypnotic skills we include a detailed discussion of play suggestions, including hypnotic bondage, eroticization, orgasm control and orgasm on command , hypnotic roleplay and how to use hypnosis as part of D/s play.

### Beyond Games of Trance

All kinds of people are secretly (or not so secretly) fascinated by the erotic possibilities of hypnosis. Many of us know that hypnosis doesn't really have the kind of mind-melting power we see in movies. Still, we can't help but get turned on at the thought of either controlling someone, or being controlled by someone, into doing things we've been told we shouldn't do but really, inside, kind of want to. In this book, Mark Wiseman (Wiseguy) will teach you how to put your partner into a hypnotic trance safely and effectively. Then the fun begins as you learn how to: Create or intensify arousal and desire Turn their entire body into an erogenous zone eager for your touch Get kinky with hypnotic bondage, flogging, or tickling Give them intense pleasure using his Five-Point Palm Exploding Orgasm technique and more! Whether you are new to hypnosis or have already learned the basics, Mind Play will give you the tools you need to become a skilled, responsible erotic hypnotist. This 2017 edition has been updated to reflect changes in community standards and resources.

### Hypnodomme

In the 23 years since this book was first published, numerous books along the same lines have appeared. Techniques vary minimally, and very few discoveries or developments have been made in the field of using hypnosis in therapy. The research that has appeared largely confirms what has been known for a very long time, such as its efficacy as an adjunct to chemical analgesia and anesthesia for intrusive and painful surgical procedures. However, during that period, a tremendous and astonishing amount of research has appeared in the fields of neurology (especially brain function), endocrinology, and immunology, as well as their interaction and integration with psychological processes. While hypnotic techniques have been much the same over the years, the underlying and mediating roles of these physical mechanisms in hypnosis are now substantially revealed. Understanding how hypnotic suggestions produce physical effects, and how these physical processes affect what is to be done in hypnosis will illuminate and guide what is attempted in hypnotherapy. The more the therapist bears these mechanisms in mind, the more effective and focused the work will be. This second edition therefore includes a summary account of the most cogent discoveries of the last two decades, and references to some of the most important knowledge acquired in this period in psycho-neuro-endocrino-immunology.

## How to Be a Sissy Maid

The femdom activity of Sissy Maids is an exciting fantasy that brings a whole new world of passion and interest to the lives of the people taking part, the mistress and her maid. This particular fantasy had been enacted and re-enacted with varying degrees of enthusiasm over many decades, some would say centuries. But what does it take to be a sissy maid, to cross-dress in the frilly uniform of a French maid or Victorian lady's maid? What does the 'maid' need to commit to, indeed, what kind of role is the 'mistress' undertaking? The answers are all here, showing how all parties can enhance their private lives, how the 'maid' dress up and thoroughly enjoy this previously forbidden world. How the 'mistress' can have a willing, passionate servant to attend to her every domestic and personal whim.

## Sensuous Magic

From the earliest days of our youth, we are schooled in the national myth of freedom, of a personal liberation we can and must achieve. They tell us to Be yourself! Do your thing! Do you! Be you! You go, girl! Get 'em, boys! Tell the world to take a number, get in line, and kiss the cellulite-ridden cottage-cheese ass you live your life in front of courtesy of the obesity crisis! Think-as they themselves refuse to do in employing so tired a cliché-outside the box! Until, that is, you actually do go ahead and follow this advice-that's when you'll find that they really don't want you to be yourself. No, your wife, husband, your friends, mommy and daddy, your kiddies, your colleagues, the good people of the world and even Jesus Christ Himself: they want you to be who they want you to be, to live how they want you to live, and to pork like they want you to pork, which usually ends up looking something like-Saturday night, missionary position, simultaneous orgasm on the connubial couch. But what if, in the backseat of your car, you want to clutch fistfuls of your wife's hair while dumping the 57 ropes of cum you've been brewing for the last two weeks into her tight, empurpled starfish of a buttole, exulting in thrill of risky semi-public sex while oblivious families picnic nearby? What if you want to invite your old college bros to the office for a wild afternoon of bukkakeing your secretary, cum all over her face and hair and tits and glasses, and all over the Danish that she is obliged to wash down, bite by bite, with a steaming, foaming cup of cum coffee? What if you want to hire an escort and dick slap her for ten minutes straight while she sings the National Anthem? Or what if you're a chick and are in a mood to drop 15 clams on a set of ginormous, 88 Triple F porn-star tits, for no reason other than that you like the feeling of cocks sliding between them, and the more jiggle and amplitude, the better? Never mind that you will henceforth be obliged to walk with your torso at a 45 degree angle. And never mind that you will almost certainly never be elected president of the PTA. Or maybe you've decided that you're in possession of so much love, that one other person is simply incapable of processing it all; and you've therefore decided to give polyamory a roll of the dice. Or maybe you wake up after 55 years of life and 25 years of respectable marriage only to find that, well, you're a flaming homosexual, and if you don't go and bugger a cabana boy in the next 24 hours, you're going to feel some type of way, indeed? I'm here to tell you that you can do any of these things-indeed, anything at all, from tame to extreme, so long as your desires are legal, consensual, respectful for all involved. I am not concerned with morality. I am concerned with your liberation, your happiness, with the fact that when you die you are going to be dead for a very long time. And you see where I'm going with this. The choice is yours, dear reader: live a life of quiet desperation and run up perhaps a college-education's worth of psychiatrist bills, passing out each night in a Valium stupor in front of the TV, your ill-used dick more or less dead in your shit- stained tightie-whities. Or lead a life of rich, joyous, exhilarating, life- and self-affirming sexual adventure. This would seem to me, as they say, to be a no-brainer. Inside, 1. ### On Doing Things The Right Way

This book represents the first time that the known history and a significant amount of new information has been compiled into a single written record about one of the most important eras in the south central coastal bayou parish of Terrebonne. The book makes clear the unique geographical, topographical, and sociological conditions that beckoned the first settlers who developed the large estates that became sugar plantations. This first of four planned volumes chronicles details about founders and their estates along Bayou Terrebonne from its headwaters in the northern civil parish to its most southerly reaches near the Gulf of Mexico. Those and other parish plantations along important waterways contributed significantly to the dominance of King Sugar in Louisiana. The rich soils and opportunities of the area became the overriding reason many well-heeled Anglo-Americans moved there to join Francophone locals in cultivating the crop. From that nineteenth century period up to the twentieth century's side effects of World Wars I and II, Hard Scrabble to Hallelujah, Volume I: Bayou Terrebonne describes important yet widely unrecognized geography and history. Today, cultural and physical legacies such as ex-slave-founded communities and place names endure from the time that the planter society was the driving economic force of this fascinating region.

## Erotic Hypnosis

Alex Tsander is a veteran stage hypnotist who is also scientifically trained (BSc, Honours in Psychology). He couples scientific insight with vast experience gleaned from over twenty years hypnotising the public. In this book he addresses the increasingly popular but questionable fashion for "erotic hypnosis" by taking the reader beyond adult fantasy games into the realm of actual possibilities. The book begins with a general overview, explaining basic hypnotic technique in great detail. The text then moves onto increasingly sophisticated techniques described in terms of the BDSM scenario which today is at the heart of this particular application of hypnotism. However, the purpose in doing so is not simply as a "how to guide" but a means of developing theoretical insights into how all hypnotism can be explained. Beyond this, the author goes on to apply this explanatory process to a look at controversial speculations that have been made about "mind control". The title hints at much within the text. Whilst there exists a specific fetish for hypnotic games between consenting adults, Alex Tsander takes us beyond these scenes into a sphere of real hypnotic potentialities adapted to the BDSM scenario. His purpose is multi-fold. Yes those with a participating inclination are welcome to delve into the cornucopia of techniques on offer. But the description of these techniques and the psychological processes at work offers the author the field in which to elaborate further a Constructivist, Social-Psychological interpretation of hypnotic behaviour, which he has outlined in previous titles. Beyond all of this, the book reaches further, into realms of controversial topics such as alleged abuse of hypnotism in espionage.
