In this introduction I'll say this: I've seen a lot of repeating patterns happening in the world of influence and persuasion. People who are more influential and persuasive seem to acquire greater material riches in life. I used to think that some people simply possessed qualities and attributes which made them this way. In other words, some people were destined for success while others weren't. This belief isn't true anymore for me. I've disproved it personally, and I've known others who have disproved it too.

Persuasion, mind control call it what you like covert or conversational hypnosis is within all of our grasp. Use the information in this book to influence others easily and quickly without their knowledge, get what you need in minutes from anyone. Use self hypnosis to change your life. Rid yourself of unwanted baggage quickly and easily. This guide will help you practice this natural and powerful technique. Become a happier and better balanced person in hours. You see we've all read books or watched movies that captivated us, held us in suspended reality, until which time the book or movie ended. After you've finished reading the book or watching the movie there are all these things happening inside of you at the neurological level. One part of you is bewildered, not knowing what to think or how to feel. Another part may wish the story had never ended. Another part may feel drawn to take action or investigate something related to what you just read or watched. Even your own personality, values, ideas, identity, persuasions, and so forth may change as a result of one BREAKTHROUGH book or movie.

Imagine having the power to read a person correctly, understand his/her personality, and use that information to influence him/her . Sometimes, we are convinced that it is impossible to predict what the other person is thinking, but here is the good news. It is possible to read and understand the personality of a person even before you talk to them. Over the years, I have identified several ways of doing this. To be honest with you, I have tested all of them, and believe me; they work effectively. As a life coach and researcher specializing in personal development, I have engaged with a lot of people from different walks of life. This interaction offered me the chance to observe and identify what works and what does not work when it comes to manipulation, persuasion, reading people, and effectively influencing them. The tips, techniques, and skills shared in this book are the most effective ones. However, it takes time and practice to be able to apply them correctly. On the brighter side, once you learn them, it becomes very easy to even detect and protect yourself from toxic and abusive people. Interestingly, some of these tips are so obvious that you will be thinking, "How did I miss that?" For example, you probably know that a person's shoes say a lot about the person. The question is, do you know how to read them to identify behavior and characteristics? Keep reading to find out more about different types of personalities, toxic people, manipulators, and effective boundary setting. Buy Your Copy Today!

Dr. William Wesley Cook's Practical Lessons in Hypnotism was originally published in 1901, but this scholarly study is as relevant as it ever was. In spite of the skeptics, hypnotism has long been a psychological science that has earned the respect of many in the medical profession (notably, Sigmund Freud) and hypnotherapy is widely used in many treatment programs. Here, Cook approaches the subject in a constructive way, covering the history and philosophy of the science, as well as practical techniques and considerations. Most compelling are the studies of hypnotism's many applications, such as in self-healing, anesthesia, behavioral therapy, and even persuasion in the field of business. Cook's work also includes intellectual discussions on tangential-and fascinating-subjects such as telepathy, clairvoyance, and magnetic healing. Comprehensive and erudite, it promises satisfaction for the curious as well as the studious.
