Food (and life) is all about perspective: having an open mind and an adventurous spirit can take you to wonderful places you'd never experience otherwise. From health and nutrition writer, podcast host, and self-proclaimed health nerd Ashleigh VanHouten comes this entertaining and user-friendly guide to enjoying some of the more adventurous parts of the animal, as well as understanding the value of whole-animal cooking. Enjoy 75 delicious and uncomplicated recipes sourced from an enthusiastic advocate of nose-to-tail, ancestrally inspired eating who does not have a background in cooking or organ meats—so if she can do it, so can you! Ashleigh has also enlisted the help of some of her chef friends who are known for their beautiful preparations of nose-to-tail dishes to ensure that her recipes nourish and satisfy both your body and your palate. There are many great reasons to adopt a truly whole-animal, nose-to-tail approach to eating. *It Takes Guts: A Meat-Eater's Guide to Eating Offal with over 75 Healthy and Delicious Nose-to-Tail Recipes* is more than a cookbook: it's about education and understanding that the way we eat is

important. Our choices matter, and we should seek to know why a particular food is beneficial for us, the ecosystem, and the animals, and how our food choices fit into the larger food industry and community in which we are a part. Through interviews with experts, more than a few hilarious and thoughtful anecdotes, and of course, delicious recipes, you'll learn the cultural, environmental, and health benefits of adding a little "variety meat" to your diet. As the saying goes, the way you do anything is the way you do everything. So let's all approach our plates, and our lives, with a sense of adventure and enthusiasm! In this book, you will find An entertaining introduction into the "offal" world of organ meats, and why it's more delicious (and less scary) than you may think A breakdown of the healthiest and tastiest organ meats, from heart, liver, and kidney to tongue, bone marrow, and blood! An interview with a butcher on how to source the best organ meats, including what to look for and ask about 75 delicious, fun, and easy recipes that you don't have to be a chef to prepare Plenty of background and personal anecdotes about specific recipes: where they come from, why they're special, and why you should add them to your meal plan! A number of contributed recipes from respected chefs, recipe developers, and fellow health nerds, including the Ben Greenfield family, Beth Lipton, and Tania Teschke From the author: "I encourage, whenever I can, a little adventure when you eat. One bite of something new won't hurt you, and it just might open up a whole new world of pleasure and health. By eating nose-to-tail, we're also honoring and respecting the animals who sacrificed for our dinner plates by ensuring none of it is wasted."

There is nothing lucky about playing good golf. Practice and attention to detail are key in playing better and more consistent. This funny titled book "It Takes a Lot of Balls to Play Golf Like I Do" is true for many golfers, especially new golfers. You can go through a few sleeves of balls real fast. The title of the book alone makes it a great gift for many of your friends and family. The Golfer's Log is a type of journal that has 100 pages of identical logs to enter your golf games. You enter as much or as little as you like, but the more you enter, the more you will see what you should practice on, what holes you keep having issues on when you play the same course often. This log tracks the course you play on, holes, yardage, weather, temp, hazards, drives, putts, par, Albatross to Triple Bogeys. There is a generous area for notes on each log. The more you put in the more you will get out. This is a great gift for new golfers, or for those that play casually but can't up their game. No more excuses, you will have answers to prove and show on the greens!

A must have book for anyone has ever wanted to make a difference in the world.

---

Service is the rent we pay for living" says preeminent children's advocate Marian Wright Edelman and this is the motto by which Malaak Compton Rock, dedicated humanitarian and wife of comedian Chris Rock, lives her life. From a childhood grounded in the importance of giving back to her work in public relations at The U.S. Fund for UNICEF to becoming a full-time mother and humanitarian, Malaak's life has fully embodied this sentiment. Part memoir, part practical guide, *If It Takes a Village, Build One* offers readers insightful advice on everything from how to find just the right volunteer opportunity, how to get kids involved in a life of service, how

to research charities, and even how to start a nonprofit, as Malaak did several years ago. All of this practical wisdom is grounded in inspirational anecdotes about her own experience with service, including her work with Katrina rebuilding and her recent brainchild, Journey for Change: Empowering Youth Through Global Service, a program for at-risk kids from Bushwick, Brooklyn, which takes teens on a two week service mission to South Africa to volunteer and experience the world. The book also features interviews with other well known humanitarians, like PR powerhouse Terrie M. Williams, activist Bobby Shriver, and journalist Soledad O'Brien and engaging sidebars with interesting facts about service and nuggets of advice. At the end of the narrative readers will find a compendium of information including Malaak's favorite charities, unique service ideas, and suggested reading and web resources, which will make this a book to be visited time and time again. Far from being preachy or sanctimonious, Malaak's warm voice reminds us all that giving back is ultimately easier and infinitely more fulfilling than we thought it could be. Warm, honest, and accessible, *If it Takes a Village, Build One* will be the must-have book (and perfect gift!) for aspiring do-gooders. From the Hardcover edition.

Sometimes life seems like we know the end of the movie and we're watching anyway. If I could I would, tell you the ending. But you wouldn't believe because it so beautiful. A beauty of which that cannot be explained without the wisdom of the experience. The undeniable truth in communication with the core of your being. Touching your soul and molding it into a new reality. Perhaps living "Under a Bridge" is the nothing that my soul has been yearning for. After all it's in that nothing that something can arise. The void of feeling about expectation, the complete abandonment of social pressure. Not to give up or give in -rather the emersion of the experience. To live for every moment as the river rolls along. Reminding us that we are passing and well after we're gone the river will continue to flow.
