Making Mentors

Good Day! , the critically-acclaimed biography about the legendary Paul Harvey, is now in paperback! In this heartwarming book, author Paul J. Batura tells the all-American story of one of the best-known radio voices in history. From his humble beginnings to his unparalleled career of more than 50 years with ABC radio, Paul Harvey narrated America's story day by day, through wars and peace, through the threat of communism and the crumbling of old colonial powers, through consumer booms and eventual busts.

To Improve the Academy

Early associates such as Rudolf Hess, Ernst Hanfstaengl, and Hermann Esser all claimed that Hitler revered alcoholic playwright Dietrich Eckart more than any other colleague. Eminent German historians Karl Dietrich Bracher, Werner Maser, Georg Franz-Willig, and Ernst Nolte have confirmed this assessment. Hitler not only dedicated Mein Kampf to Eckart, he hung his portrait in Munich's Brown House, placed a bust of him in the Reich Chancellery next to one of Bismarck, and named Berlin's 1936 Olympic stadium the Dietrich Eckart Outdoor Theater. Yet British-American scholarship has virtually ignored "Nazism's Spiritual Father." J. H. Tyson weaves Eckart's biography into a colorful account

of modern German history.

A book to challenge the status quo, spark a debate, and get people talking about the issues and questions we face as a country!

Danorum Regum Heroumque Historia, Books X-XVI

"People may choose to ignore their animal heritage by interpreting their behavior as divinely inspired, socially purposeful, or even self-serving, all of which they attribute to being human, but they masticate, fornicate, and procreate, much as chimps and apes do, so they should have little cause to get upset if they learn that they act like other

primates when they politically agitate, debate, abdicate, placate, and administrate, too." King of the Mountain presents the startling findings of Arnold M. Ludwig's eighteen-year investigation into why people want to rule. The answer may seem obvious -- power, privilege, and perks -- but any adequate answer also needs to explain why so many rulers cling to power even when they are miserable, trust nobody, feel besieged, and face almost certain death. Ludwig's results suggest that leaders of nations tend to act remarkably like monkeys and apes in the way they come to power, govern, and rule. Profiling every ruler of a recognized country in the twentieth century -- over 1,900 people in all -- Ludwig establishes how rulers came to power, how they lost power, the dangers they faced, and the odds of their being assassinated, committing suicide, or dying a natural death. Then, concentrating on a smaller sub-set of 377 rulers for whom more extensive personal information was available, he compares six different kinds of leaders, examining their characteristics, their childhoods, and their mental stability or instability to identify the main predictors of later political success. Ludwig's penetrating observations, though presented in a lighthearted and entertaining way, offer important insight into why humans have engaged in war throughout recorded history as well as suggesting how they might live together in peace.

Arnold Palmer's Success Lessons

Surgeon Arnold van de Laar uses his own experience and expertise to tell this engrossing history of surgery through 28 famous operations—from Louis XIV and Einstein to JFK and Houdini. From the story of the desperate man from seventeenth-century Amsterdam who grimly cut a stone out of his own bladder to Bob Marley's deadly toe, *Under the Knife* offers a wealth of fascinating and unforgettable insights into medicine and history via the operating room. What happens during an operation? How does the human body respond to being attacked by a knife, a bacterium, a cancer cell or a bullet? And, as medical advances continuously push the boundaries of what medicine can cure, what are the limits of surgery? With stories spanning the dark centuries of bloodletting and amputations without anaesthetic through today's sterile, high-tech operating rooms, *Under the Knife* is both a rich cultural history, and a modern anatomy class for us all.

The Historical Works of Arnold H.L. Heeren

Arnold Palmer taught world-class pro golf instructor Brad Brewer how to play golf. But that was just the beginning. For more than 30 years, Palmer taught Brad how to live. As a businessman, a father, a celebrity, a philanthropist, and a friend, Palmer showed those around him that true success has nothing to do with the final score—and everything to do with how you play the game. In *Arnold Palmer's Success Lessons*, Brad shares the life-changing truths he learned from the King of Golf throughout three decades of knowing Palmer as a business partner, employer, and mentor. In short but powerful chapters, Brad passes on Palmer's secrets such as:

- Why you always need to play for the love of the game
- What your starting point tells you about your destination
- How to capitalize on past success
- The attitude of a true champion
- Why golf is like all the best things in life—it's more complicated than it looks

Taking us from Palmer's childhood to his last years back in his own hometown, Brad introduces us to the Arnold Palmer behind the trophies, the celebrity, and the fame. This was the man who changed lives simply by living well, a man loved and respected not only for what he did but for who he was.
