Once Mr. Williams began writing this book, important lessons he'd learned about diversity began to take on even greater meaning. Through the experiences of Trent Taylor Jr., he saw that people's outward attributes are of far less value than what lives in their hearts. By fleshing out his characters, he began to sense that our skin color - that outward "paint job" - is really not the point. We hope that as you turn the pages of this volume, you'll take that same journey of personal discovery the author experienced. Maybe you'll realize that neighbor from a foreign country isn't out to steal your job, he's just trying to make a good life for his children. Maybe you'll break away from the ethnic stereotypes your forebears believed in. Maybe you'll begin to understand that how an individual looks on the outside bears no correlation to the quality of the person within.

### **This Perfect Day: A Novel**

By the author of *Rosemary's Baby*, a horrifying journey into a future only Ira Levin could imagine. Considered one of the great dystopian novels—alongside Anthony Burgess's *A Clockwork Orange* and Aldous Huxley's *Brave New World*—Ira Levin's frightening glimpse into the future continues to fascinate readers even forty years after publication. The story is set in a seemingly perfect global society. Uniformity is the defining feature; there is only one language and all ethnic groups have been eugenically merged into one race called "The Family." The world is ruled by a central computer called UniComp that has been programmed to keep every single human on the surface of the earth in check. People are continually drugged by means of regular injections so that they can never realize their potential as human beings, but will remain satisfied and cooperative. They are told where to live, when to eat, whom to marry, when to reproduce. even the basic facts of nature are subject to the UniComp's will—men do not grow facial hair, women do not develop breasts, and it only rains at night. With a vision as frightening as any in the history of the science fiction genre, *This Perfect Day* is one of Ira Levin's most haunting novels.
