Paint by Numbers is the most exciting new kind of puzzle to come along in many years. These "picture logic" puzzles already have a following of millions of devoted fans in Japan, where they were invented five years ago. And now Games, the magazine that introduced Paint by Numbers to the United States last year, proudly brings you an English-language version of the Japanese book that started the craze. The concept is brilliantly simple. You start with an empty grid; numbers above and to the side tell you how many squares in each row and column should be filled in. The trick is that the numbers don't tell you which squares to fill in -- that's for you to determine through logical reasoning and by working back and forth between the rows and columns. When you complete the puzzle correctly, you'll find you've made a picture! Complete instructions and some time-saving tips are included at the front of this book, along with 123 puzzles ranging from easy to very challenging. This book will give every puzzle fan many satisfying hours of entertainment.

50 Logic Puzzles

Gradually an image will emerge, and you'll be rewarded with a completed picture by the end. Not only do these puzzles sharpen logical thinking and cognitive skills, they're tons of fun!

Named a Best Book of the Month by CNN and MSNBC Named a Most Exciting New Book of Fall by PopSugar #1 New York Times bestselling author Philippa Gregory's new historical novel tracks the rise of the Tidelands family in London, Venice, and New England. *Midsummer Eve 1670*. Two unexpected visitors arrive at a shabby warehouse on the south side of the River Thames. The first is a wealthy man hoping to find the lover he deserted twenty-one years before. James Avery has everything to offer, including the favour of the newly restored King Charles II, and he believes that the warehouse's poor owner Alinor has the one thing his money cannot buy—his son and heir. The second visitor is a beautiful widow from Venice in deepest mourning. She claims Alinor as her mother-in-law and has come to tell Alinor that her son Rob has drowned in the dark tides of the Venice lagoon. Alinor writes to her brother Ned, newly arrived in faraway New England and trying to make a life between the worlds of the English newcomers and the American Indians as they move toward inevitable war. Alinor tells him that she knows—without doubt—that her son is alive and the widow is an imposter. Set in the poverty and glamour of Restoration London, in the golden streets of Venice, and on the tensely contested frontier of early America, this is a novel of greed and desire: for love, for wealth, for a child, and for home
