The efficacy and effectiveness of family therapy

Randomized controlled trial - Wikipedia

These functions are addressed through 4 modes of treatment: multifamily group skills training, individual psychotherapy, coaching calls, and a consultation team for the therapist. The approach is a “life enhancement” as opposed to suicide prevention program.

Parent Education Programs - Child Welfare Information Gateway

Adult treatment has proven to be typically include using drugs/medicine along with family therapy and or parent training Evidence for the effectiveness of family-based treatments from

Recognition of Psychotherapy Effectiveness

In 2012, the Council of Representatives approved the resolution that, as a healing practice and professional service, psychotherapy is effective and highly cost-effective. Consequently, psychotherapy should be included in the health care system as an established evidence-based practice.

AVID® / Closing the Opportunity Gap in Education

It is this act of turning a child against a parent that ultimately serves to turn a child against himself (Baker & Ben-Ami, 2011). Badmouthing the other divorced parent is an alienation strategy, given its aim to alienate the other parent from the child. Such alienation involves any number of criticisms of the other parent in front of the child.
