A project manager must not only master methods and processes, but also have the ability to deal with new, unexpected and critical situations. The book deals with these challenges, the passion for projects and the creativity which is required in order to lead projects and bring them to a successful conclusion. Experienced project managers report on exciting tasks in various countries, daily life as project managers and about their personal experiences and learning effects. Readers will experience the fascinating appeal of the job of a "project manager", which also means constantly being prepared to get into a new task. Furthermore, the book provides ideas about how to overcome social, cultural, organisational, financial, bureaucratic or other hurdles. Not only classic project managers - engineers and economists -, but also lawyers or industrial engineers, who work in projects or are interested in project work, will be inspired by this book, how personal commitment and professional, organisational and social capabilities combine to form this unique profession.

Rail-Trails Midwest Great Lakes

In this edition in the popular series, the Rails-to-Trails Conservancy presents the best of the Great Lakes rail-trails, home to the most rail-trails in the country. With 113 rural, suburban, and urban trails threading through nearly 2300 miles, Rail-Trails Midwest: Great Lakes covers Illinois, Indiana, Michigan, Ohio, and Wisconsin. Many rail-trails are paved and run through the most popular parts of town, such as the 61-mile Illinois Prairie Path, which links Chicago-area suburbs. Others take you back in time for a look at regional history, like Ohio's 11-mile Holmes County Trail. The Midwest has thousands of miles of rail corridor that have been turned into 360 rail-trails in the Great Lakes alone. Every trip has a detailed map that includes start and end points, trailhead, parking, restroom facilities, and other amenities. Many of the level rail-trails are suitable for walking, jogging, bicycling, inline skating, wheelchairs, and horses.

The celebration of Washington D.C. basketball is long overdue. The D.C. metro area stands second to none in its contributions to the game. Countless figures who have had a significant impact on the sport over the years have roots in the region, including E.B. Henderson, the first African-American certified to teach public school physical education, and Earl Lloyd, the first African-American to take the court in an actual NBA game. The city's Spingarn High School produced two players — Elgin Baylor and Dave Bing — recognized among the NBA's 50 greatest at the League's 50th anniversary celebration. No other high school in the country can make that claim. These figures and many others are chronicled in this book, the first-ever comprehensive look at the great high school players, teams and coaches in the D.C. metropolitan area. Based on more than 150 interviews, *The Capital of Basketball* is first and foremost a book about basketball. But in discussing the trends and evolution of the game, McNamara also uncovers the turmoil in the lives of the players and area residents as they dealt with prejudice, educational inequities, politics, and the ways the area has changed through the years.

Major Taylor

In the wake of the Tour de France's fallen heroes, the story of one of history's most legendary cyclists provides a much-needed antidote. In 1907 the world's most popular athlete was not Cy Young or Ty Cobb. Rather, he was a black bicycle racer named "Major" Taylor. In his day, Taylor became a spiritual and athletic idol. He was the fastest man in America and a champion who prevailed over unspeakable cruelty. The men who aided him were among the most colorful to emerge from the era. When hotel and restaurant operators denied Taylor food and lodgings, forcing him to sleep in horse stables and to race hungry, there was a benevolent racer-turned-trainer named Birdie Munger, who took Taylor under his wing and into his home. Then along came Arthur Zimmerman, an internationally famous bike racer, who gently mentored Taylor when some riders drew the color line and refused to race against him. Taylor's manager, pugnacious Irishman and famed Broadway producer William Brady, stood up for him when track owners tried barring him from competition. From the Old World came a rakishly handsome, mustachioed sports promoter named Victor Breyer, who lured Taylor overseas for a dramatic, Seabiscuit versus War Admiral-like match race that would be widely remembered a quarter century later. With a foreword by World Champion and three-time Tour de France winner Greg LeMond, this spellbinding saga of fortitude, grace, forgiveness, and a man's unyielding will to win against the greatest of odds is sure to become a classic that will be enjoyed by everyone. Skyhorse Publishing, as well as our Sports Publishing imprint, is proud to publish a broad range of books for readers interested in sports—books about baseball, pro football, college football, pro and college basketball, hockey, or soccer, we have a book about your sport or your team. In addition to books on popular team sports, we also publish books for a wide variety of athletes and sports enthusiasts, including books on running, cycling, horseback riding, swimming, tennis, martial arts, golf, camping, hiking, aviation, boating, and so much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

Trailblazing greenway projects from vision to reality In this eye-opening journey through some of America's most innovative landscape architecture projects, Charles Flink shows why we urgently need greenways. A leading authority in greenway planning, design, and development, Flink presents inspiring examples of communities that have come together to build permanent spaces for the life-sustaining power of nature. The Greenway Imperative reveals the stories behind a variety of multiuse natural corridors, taking readers to Grand Canyon National Park, suburban North Carolina, the banks of the Miami River, and many other settings. Flink, who was closely involved with each of the projects in this book during his 35-year career, introduces the people who jumpstarted these initiatives and the challenges they overcame in achieving them. Flink explains why open green spaces are increasingly critical today. "Much more than a path through the woods," he says, greenways conserve irreplaceable real estate for the environment, serve as essential green infrastructure, shape the way people travel within their communities, reduce impact from flooding and other natural disasters, and boost the economies of cities and towns. Greenways can and should dramatically reshape the landscape of America in the coming years, Flink argues. He provides valuable reflections and guidance on how we can create resilient communities and satisfy the human need for connection with the natural world.

RV Capital of the World

Time spent with the family in a Coachmen Leprechaun or a Holiday Rambler is unforgettable. Indiana retains a unique place in the RV industry going back to the 1930s, when pioneering individuals like Milo Miller, Harold Platt and Wilbur Schult created the original RV businesses in the Elkhart-South Bend area, making campers for sale. By the end of World War II, the national media was identifying Elkhart as the "Trailer Capital of the World." That status has been reinforced ever since, and the industry is still thriving in Indiana with the successes of Thor Industries and Forest River. Join author and RV expert Al Hesselbart as he chronicles how the Hoosier State became the RV Capital of the World.

Two friends return home from the Korean War to find their world—and themselves—irrevocably altered in this novel hailed by Kurt Vonnegut as “gruesomely accurate and enchanting” and “wildly sexy” Willard “Sonny” Burns and Tom “Gunner” Casselman, Korean War vets and former classmates, reunite on the train ride home to Indianapolis. Despite their shared history, the two young men could not be more different: Sonny had been an introverted, bookish student, whereas Gunner had been the consummate Casanova and athlete—and a popular source of macho pride throughout the high school. Reunited by the pains of war, they go in search of finding love, rebuilding their lives, and shedding the repressive expectations of their families. As Sonny and Gunner seek their true passions, the stage is set for a wounded, gripping account of disillusionment and self-discovery as seen through the lens of the conservative Midwest in the summer of 1954. Rendered in honest prose, national bestseller *Going All the Way* expertly and astutely captures the joys and struggles of working-class Middle America, and the risks of challenging the status quo. Author Dan Wakefield crafts this enduring coming-of-age tale with fluidity, grace, and deep humanity.

Linda Stager, Wellsboro, PA resident and author takes you on a mile-by-mile, narrated tour of the exceptional 62-mile Pine Creek Rail-Trail. She shows you landmarks, tells stories about the history of the region and imparts practical advice for a successful trip along this award-winning, multi-purpose trail built along an unused railroad corridor. Linda, a retired social worker, and human services assistant administrator has lived in Wellsboro, at the Trail's northern terminus for most of her adult life. After retirement, she learned how to ride her bicycle again and set off on trail adventures. As she rode, she often wondered about the area where she was riding and decided that a guidebook might be in order—for herself as well as others. Linda brings her cameras along on her trail rides, and her book is illustrated with her photos. The book divides the trail into seven sections with mileage markers wherever she points out something of interest. Linda also peppers the book with anecdotes of her travels as well as regional folklore, and old photos. There are also separate sections detailing the Access Areas for the trail, Rules

The Trail Book is a classic of American nature writing. First published in 1918, it is a collection of children's tales, framed by its setting in New York's Museum of Natural History. For two children, Oliver and his sister Dorcas, the museum's famed dioramas (which were new at that time) come to life and admit them into a series of exciting adventures that include talking animals and magical travels. Along the way, the children discover the ways of the ancient Native Americans and the landscapes of the pre-Columbian continent, as well as the impact on both Indians and wildlife from contact with European explorers and Euro-Americans. Told by a variety of narrators, including some of the animals, the stories offer a perceptive and sympathetic view of the natural history of North America and of Native American-white relations. This edition of The Trail Book includes an afterword by Austin scholar Melody Graulich that addresses Austin's motives in writing the book and its significance as an early example of interdisciplinary multicultural literature. The illustrations by Milo Winter that enlivened the original edition are included, as are Austin's appendix giving historical background and a glossary of Indian and Spanish names.

Enhanced with a wealth of illustrations, Trails for the Twenty-First Century provides detailed guidance on topics such as: taking a physical inventory and assessment of a site; involving the public and meeting the needs of adjacent landowners; understanding and complying with existing legislation; designing, managing, and promoting a trail; and where to go for more information. It is the only comprehensive guidebook available for planners, landscape architects, local officials, and community activists interested in creating a multi-use trail.

The Pine Creek Rail-Trail Guidebook

How two New Yorkers led the transformation of a derelict elevated railway into a grand--and beloved--open space The High Line, a new park atop an elevated rail structure on Manhattan's West Side, is among the most innovative urban reclamation projects in memory. The story of how it came to be is a remarkable one: two young citizens with no prior experience in planning and development collaborated with their neighbors, elected officials, artists, local business owners, and leaders of burgeoning movements in horticulture and landscape architecture to create a park celebrated worldwide as a model for creatively designed, socially vibrant, ecologically sound public space. Joshua David and Robert Hammond met in 1999 at a community board meeting to consider the fate of the High Line. Built in the 1930s, it carried freight trains to the West Side when the area was defined by factories and warehouses. But when trains were replaced by truck transport, the High Line became obsolete. By century's end it was a rusty, forbidding ruin. Plants grew between the tracks, giving it a wild and striking beauty. David and Hammond loved the ruin and saw in it an opportunity to create a new way to experience their city. Over ten years, they did so. In this candid and inspiring book--lavishly illustrated--they tell how they relied on skill, luck, and good timing: a crucial court ruling, an inspiring design contest, the enthusiasm of Mayor Bloomberg, the concern for urban planning issues following 9/11. Now the High Line--a half-mile expanse of plants, paths, staircases, and framed vistas--runs through a transformed West Side and reminds us that extraordinary things are possible when creative people work together for the common good.

Guide to the Long Path

A celebration of 100 years of the NFL from Hall of Fame receiver and bestselling author Jerry Rice! "This book is an amazing compilation of the game's history as seen through the eyes of my friend Jerry Rice, aka The GOAT. You are going to love this book almost as much as you loved watching Jerry play!" —Barry Sanders, NFL Hall of Fame Class of 2004 The authors of the New York Times bestseller *50 Years, 50 Moments* celebrate the first 100 years of the National Football League, interweaving history, personal stories, memories, and observations of some of its greatest players, coaches, and advocates to chronicle football's amazing evolution from a fledgling regional fly-by-night operation into a multi-billion global brand and one of America's leading franchises. Over the past century, professional football has transformed from a game played in leather helmets on cow pastures to one of the most high-tech, popular sports on the planet. In this entertaining and concise history, Jerry Rice and Randy O. Williams celebrate the NFL's centennial, bringing together colorful memories, insights, and personal experiences and observations from the heroes, losers, innovators, and defining legends who have played the game at its highest level. *America's Game* is filled with inside stories of the league's fiercest rivalries, closest competitions, and most memorable characters, from the early days of Red "The Galloping Ghost" Grange and "Slingin'" Sammy Baugh to Jim Brown and "Broadway" Joe Namath to Lawrence Taylor, Jerry Rice, and Tom Brady. Cowboy fans will never forget how Roger Staubach's Hail Mary lifted his team to a last-second playoff victory over the Vikings. Patriot followers will always point to The Tuck Rule Game as a franchise landmark where Adam Vinatieri's two clutch kicks in deep snow propelled his team to victory over the Raiders. Generations of Steelers fans will celebrate James Harrison's electrifying 100-yard interception return for a touchdown in Super Bowl XLIII. All are among the most memorable moments in NFL history. Divided by increments of twenty-five years, each section of *America's Game* includes the authors' selections for their "All Star" players and teams. *America's Game* is a unique tribute to this enduring cultural phenomenon, and will become the authoritative tribute to all that is great about the sport Americans—and the world—loves.

As Maynard grew from a scattering of small hill farms to a booming center of industry and immigration, much of its colorful history was nearly forgotten. With a rollicking collection of his essays, newspaper columnist David A. Mark uncovers the hidden gems of the town's history. Learn why Babe Ruth shopped in Maynard during his Red Sox days and what they fed the animals at the Taylor mink ranch. Find out who is buried--and who is not--in the Maynard family crypt and which rock 'n' roll bands recorded in the studio upstairs from Woolworths on Main Street. Almost lost to time, these remarkable

moments in history helped shape Maynard into the vibrant community that it is today.

Rail-Trails Southern New England

This is the first anthology to take a theoretical look at violence against women. Each essay shows how philosophy provides a powerful tool for examining a difficult and deep-rooted social problem. Stanley G. French, Wanda Teays, and Laura M. Purdy, all philosophers, present a familiar phenomenon in a new and striking fashion. The editors employ a two-tiered approach to this vital issue. Contributors consider both interpersonal violence, such as rape and battering; and also systemic violence, such as sexual harassment, pornography, prostitution, and violence in a medical context. The editors have further broadened the discussion to include such cross-cultural issues as rape in war, dowry deaths, female genital mutilation, and international policies on violence against women. Against this wide range of topics, which integrate personal perspectives with the philosophical, the contributors offer powerful analyses of the causes and effects of violence against women, as well as potential policies for effecting change.
