Americans are overweight, and they're getting heavier. Other than wanting to perform invasive surgical procedures, most doctors offer little help. Their advice is usually "Eat less, exercise more," which falls back on the outdated dogma of calories in/calories out. Medical research on dieting is confusing and often contradictory. Not only are physicians unsure about which weight-loss plan is best, but their patients are, too! It has become an "every one for him- or herself" situation, where we're forced to experiment, hoping to hit on the magic weight-loss formula by chance . . . and the increasing number of fad diets makes our odds of picking the right weight-loss plan even less likely. Why can't the medical industry make sense of the overload of information and give us sound advice that actually enables people to lose weight and improve their health? Fortunately, recent studies have shined a new light on the subject and may finally help us understand a successful way to diet. This research proves what many men and women have learned through trial and error: some do better on a low-carb diet, and others do better on a low-fat diet. This is because some people have the metabolism of a hunter, while others have the metabolism of

a farmer. In this groundbreaking book, Dr. Mark Liponis, a leading expert in preventive and integrative medicine, will show you how to determine which type you are so that you can lose weight and improve your health at the same time. Once you know your type, you'll be on the road to successful weight loss and greater health and well-being!

The Cowboy President: How the American West Transformed Theodore Roosevelt details how his time spent in the Western Dakota Territory helped him recover from an overwhelming personal loss, but more importantly, how it transformed him into the man etched onto Mount Rushmore, a man who is still rated as one of the top five Presidents in American history. Unlike other Roosevelt biographies, The Cowboy President details how the land, the people and the Western code of honor had an enormous impact on Theodore and how this experience influenced him in his later years.

### Bob and Helen Kleberg of King Ranch

Before he ascended to the highest office in the land as the United States youngest president, Theodore Roosevelt, with illustrations by Frederic Remington, though a New York City man born and bred, was a devotee of the Old West. In 1888,

he published this charming ode to the American frontier, from the rewarding hard work of a rancher on the open plains to the pleasures of hunting the big game of mountains high. Today, the inimitable prose and infectious enthusiasm of Roosevelt 's writing here serves as much to limn a unique aspect of the character of the nation as it sings an elegy for a disappearing way of life. Includes numerous illustrations by Frederic Remington. The Last Ranch

The author of the controversial bestseller *Brain Trust* brings his scientific expertise to the chilling true story of unexplained phenomena on Utah's Skinwalker Ranch -- and challenges us with a new vision of reality. For more than fifty years, the bizarre events at a remote Utah ranch have ranged from the perplexing to the wholly terrifying. Vanishing and mutilated cattle. Unidentified Flying Objects. The appearance of huge, otherworldly creatures. Invisible objects emitting magnetic fields with the power to spark a cattle stampede. Flying orbs of light with dazzling maneuverability and lethal consequences. For one family, life on the Skinwalker Ranch had become a life under siege by an unknown enemy or enemies. Nothing else could explain the horrors that surrounded them -- perhaps science could. Leading a first-class team of research scientists on a disturbing odyssey into the unknown, Colm Kelleher spent hundreds of days and nights on the Skinwalker property and experienced firsthand many of its haunting mysteries. With investigative reporter George Knapp -- the only journalist allowed to witness and document the team's work -- Kelleher chronicles in superb detail the spectacular happenings the team observed personally, and the theories of modern physics behind the phenomena. Far from the coldly detached findings one might expect, their conclusions are utterly hair-raising in their implications. Opening a door to the unseen world around us, *Hunt for the Skinwalker* is a clarion call to expand our vision far beyond what we know.

resources, and an author."--Library Journal There have been few hunters as daring, as powerful, and as articulate as our twenty-sixth president, Theodore Roosevelt. From his ranching years in the Dakota Territory to the famous African adventures, Roosevelt's tales are unparalleled stories of the hunt. The best of them are collected here. Of Roosevelt's many volumes of hunting and exploration, two reader favorites have always been *Ranch Life and the Hunting Trail* and *African Game Trails*, both excerpted here. During his ranching years, Roosevelt ranged far and wide, and his African trips were also famously bold. In all his expeditions, Roosevelt reveals in detail hunts that were incredible journeys of both pursuit and discovery, for wherever he went in the outdoors he assumed the dual roles of hunter and naturalist. The hunts range from upland birds and waterfowl to prized big game animals like elk, bear, and sheep amid lofty peaks. There are goat pursuits among ice-glazed mountain spires, and close encounters with grizzlies in the black timber. He survives lion charges and buffalo attacks, and stumbles on elephants.

GERRY, GET YOUR GUN packs the wallop of a .30-30 rifle. Legendary hunting guide Gerry Bracewell recounts tales of extraordinary toughness and perseverance in the untamed Chilcotin. Born in 1922, in Northern Alberta, Gerry Bracewell spent much of her early life on the family farm. But Gerry's dream was to live in the mountains of BC, and when she left home at sixteen she had little understanding of the adventures that awaited her. She worked for a short time short time in Vancouver as a governess, but Gerry's wild spirit drove her to accept a job on a ranch deep in BC's Chilcotin backcountry. There she met her lifelong friend and mentor KB Moore. Through sheer perseverance she became his lead hand and soon discovered that ranching in the Chilcotin was a harsh way of life. Determined to succeed, she learned to ride even the toughest of horses and fight off bears, cougars, wolves and coyotes to keep the cattle herd safe. Recognizing Gerry's passion for the outdoors and her natural tracking and guiding ability, KB brought Gerry into his family and trained her to become BC's first licensed female hunting guide. Known as a fiery, adventurous woman, Gerry became a legend in her field, forging a path for herself and breaking established gender norms. GERRY, GET YOUR GUN is the story of the unyielding pioneer world of BC's Interior through the experiences of one of the toughest women you will ever meet.

Providing a fresh perspective on one of the most beloved presidents of all time, this illuminating activity book tells the rich story of Abraham Lincoln's life and details the events of his era. Highlighting Lincoln's warm, generous spirit and impressive intellect, the guide teaches children about his fascinating life story, his struggles at the onset of the Civil War, and his relevance in today's world. Activities include delivering a speech, holding a debate, drawing political cartoons, and making a stovepipe hat or miniature Mississippi River flatboat. Lively sidebars, abundant photographs and illustrations, and fun projects help to kick the dust off old Honest Abe. Also included are selections from some of Lincoln's most famous speeches and documents, as well as a resource section of Web sites to explore and sites to visit, making this a comprehensive Lincoln biography for young readers.

King Ranch. The name is embroidered in the tapestry of Texas, rising from the sunbaked coastal plains in the infancy of the state itself. King Ranch is the inspiration of legends and speculation, tradition and history. Rawhide-tough through drought, Indian attacks, Civil War, and the Great Depression, among other trials, King Ranch is the star of Texas. Now the memoirs of Helen King Kleberg Alexander-Groves, the only child of Bob and Helen Kleberg, give a personal glimpse of life on the storied ranch of the Kings and the Klebergs. This intimate and compelling book chronicles not only the history of the ranch but also the life of Bob and Helen Kleberg, the first family of cattle ranching. From the Santa Gertrudis, the first cattle breed developed in America and the first breed recognized worldwide in over a century, to the Triple Crown – winning Thoroughbred Assault, Bob and Helen Kleberg changed the ranching industry. The memoirs of “Helenita” open the door to the romance of Southwest cattle ranching, as well as the grit, glory, and inner workings of King Ranch in Texas and its ranches around the world. With over 200 photographs, some by Toni Frissell and many by her close friend and fellow photographer Helen Kleberg herself, this lavishly illustrated portrait includes accounts of the Klebergs’ famous hospitality, extended not only to the celebrities who were entertained regularly but also to the Kine ñ os, the loyal ranch hands first brought to King Ranch by Captain King. Hemingwayesque photos depict hunting adventures in the Texas brush country—for which the ranch is still famous. Bob and Helen Kleberg of King Ranch is a view from the center of the King Ranch legacy, perpetuated now for some 150 years. Bob and Helen Kleberg of King Ranch is a requisite addition to the library of any ranching,

### Gerry, Get Your Gun

A Book-Lover's Holidays in the Open is a classic literary work by Teddy Roosevelt which describes the US president's adventures in the great American outdoors. The man should have youth and strength who seeks adventure in the wide, waste spaces of the earth, in the marshes, and among the vast mountain masses, in the northern forests, amid the steaming jungles of the tropics, or on the deserts of sand or of snow. He must long greatly for the lonely winds that blow across the wilderness, and for sunrise and sunset over the rim of the empty world. His heart must thrill for the saddle and not for the hearthstone. He must be helmsman and chief, the cragsman, the rifleman, the boat steerer. He must be the wielder of axe and of paddle, the rider of fiery horses, the master of the craft that leaps through white water. His eye must be true and quick, his hand steady and strong. His heart must never fail nor his head grow bewildered, whether he

face brute and human foes, or the frowning strength of hostile nature, or the awful fear that grips those who are lost in trackless lands.

### Ranch Life and the Hunting-Trail;

Written in the late nineteenth century and first published in Harper's Round Table magazine in 1896, this collection of articles details turn-of-the-century America's rugged wilderness. Good Hunting is an engaging read for those whose interests lie in hunting sports, and nature. Roosevelt, being the first president to begin many of the national park conservation programs in twentieth-century America, was a lover of the outdoors, and his writings are filled with notations and observations of the lands that he explored. From hunting elks, wolves, and bucks, Roosevelt provides stunning insight into some of northwestern America's most well-known inhabitants. Good Hunting is a fascinating historical portal through which we can view a celebrated sportsman, president, and keen observer of the outdoors. The seven chapters in this book range from classic hunting articles, memorable anecdotes from other outdoorsmen, and even a detailed piece on the specifics of ranching—a topic of much interest at the turn of the century. This is a classic read for anyone wanting to learn more about a man who was so loved by a country, and to escape to the America of yesteryear. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck

blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

### Hunting Trips on the Prairie and in the Mountains

A city girl is uprooted and moved to the farm, where she must overcome her fears and learn to live life in a rougher way. Once Bobbi Phelps married Mike Wolverton, an Idaho rancher, she discovered what it was like to live in rural America. The contrast between her suburban background and her farming life created challenging yet rewarding differences. Sky Ranch tells of Bobbi Phelps's Idaho ranch experiences between 1980 and 1996, the adventures in a past time before camera phones, GPS technology, and social media. Throughout this memoir, she shares frightening tales of:

- Dangerous white-outs during Rocky Mountain blizzards.
- A terrifying flooded road crossing in pitch blackness.
- A near drowning while fishing Henry's Lake.
- Losing her young son among huge harvesting machines.

Sky Ranch is a memoir about a naïve suburban woman who struggled to navigate an industrial farm and its commercial cattle enterprise. Her life on the ranch meant grocery shopping once every two weeks, driving through harsh winter storms and swollen streams, and rescuing her horse in a full-blown blizzard. Living in the Rocky Mountains allowed her to fish, hunt, and camp on a regular basis. She also discovered different aspects of the Mormon religion, coyotes hunting her dog, industrial farming, and environmental conservation. Sky Ranch will appeal to readers interested in Western culture, cattle and row-crop farmers,

hunters, anglers, and those who only dream of living on a ranch. It takes the reader on an exciting ride of terror, drama, and humor, giving us a look at what goes on behind the scenes at a rural ranch, many miles from civilization.

### Good Hunting

Great Plains Literature is an exploration of influential literature of the Plains region in both the United States and Canada. It reflects the destruction of the culture of the first people who lived there, the attempts of settlers to conquer the land, and the tragic losses and successes of settlement that are still shaping our modern world of environmental threat, ethnic and racial hostilities, declining rural communities, and growing urban populations. In addition to featuring writers such as Ole Edvart R ö Ivaag, Willa Cather, and John Neihardt, who address the epic stories of the past, Great Plains Literature also includes contemporary writers such as Louis Erdrich, Kent Haruf, Ted Kooser, Rilla Askew, N. Scott Momaday, and Margaret Laurence. This literature encompasses a history of courage and violence, aggrandizement and aggression, triumph and terror. It can help readers understand better how today's threats to the environment, clashes with Native people, struggling small towns, and rural migration to the cities reflect the same forces that were important in the past.

celebrates the life of an exceptional ranch manager on a legendary Texas ranch, a visionary for wildlife and modern ranch management, and an extraordinarily dedicated and generous man. Caesar Kleberg went to work on the King Ranch in 1900. For almost thirty years he oversaw the operations of the sprawling Norias division, a vast acreage in South Texas where he came to appreciate the importance of rangeland not only for cattle but also for wildlife. Creating a wildlife management and conservation initiative far ahead of its time, Kleberg established strict hunting rules and a program of enlightened habitat restoration. Because of his efforts and foresight, by his death in 1946 there were more white-tailed deer, wild turkey, bobwhite quail, javelinas, and mourning dove on the King Ranch than in the rest of the state. Kleberg's legacy lives on at the Caesar Kleberg Wildlife Research Institute in Kingsville, where a research program he helped found has gained recognition far beyond the pastures of Norias.
