Services Marketing: Concepts, Strategies, & Cases

Advance praise for Service Innovation: "To the CEOs of all service companies I deal with: READ THIS BOOK!" -- Dave Wascha, senior director, Bing Product Management, Microsoft Corporation "Lance Bettencourt deftly blends his academic and consulting experience to provide an example-rich, readable, practical, and innovative discussion of service innovation." -- Leonard Berry, coauthor of Management Lessons from Mayo Clinic "Provides the robust framework to design services that unlock growth opportunities for every business." -- Lance Reschke, vice president, Ceridian Corporation "The tools and guidance in this book will inspire companies, small and large, to create effective and innovative services that are desperately needed." -- Mary Jo Bitner, Ph.D., W. P. Carey School of Business, Arizona State University, and coauthor of Services Marketing: Integrating Customer Focus Across the Firm "Cracks the code from the fuzzy front end through the complete life cycle of Service Innovation." -- Angelo Rago, division vice president, Global Customer Services, Abbott Medical Optics "Filled with rich examples of how firms can innovate service through helping customers get jobs done." -- Stephen W. Brown, Ph.D., W. P. Carey School of Business, Arizona State University "Any leader intent on providing distinctive value to customers must read Service Innovation." -- Michael Reynolds, staff vice president, Commercial Marketing, WellPoint, Inc. If there's one truism about the service sector, it's that businesses don't succeed by inventing a better mousetrap; they succeed by finding the best, most cost-effective way to get rid of their customers' mice. In industries ranging from heavy machinery to health care to financial services to consumer goods, service innovation is helping businesses find new revenue streams--and enhance existing ones--by satisfying their customer's need to get things done. Few understand this better than Lance Bettencourt, a strategy adviser at Strategyn and a leading educator in management innovation consulting. And in Service Innovation, Bettencourt gives a master's class on the art and science of creating breakthrough service products. True service innovation demands that you shift the focus away from the solution and back to the customer. To achieve this shift in your business--one that

takes you from making educated guesses to building a clear model to guide service innovation--Bettencourt instructs on the finer points of how to rethink your approach to the customer's needs: how the customer defines value in a product or service. Bettencourt mines nearly 20 years' experience in teaching and advising clients with service- and product-dominant businesses to demonstrate proven ways you can build, streamline, and focus your company's service product innovation processes. Among the numerous key ideas and practices are: Insight on understanding the different types of clients you serve—and how your products deliver value to them Ways to design specific frameworks for discovering service innovation opportunities for new, improved, and supplementary service products Practical guidance on staying focused on the "fuzzy front end" of service innovation The fundamental elements of a winning service strategy Finding new ways to help people solve problems and get things done is why there are goods and services in the first place. And in *Service Innovation*, Lance Bettencourt fills a vital need by delivering the essential guide that can put your business on the latest frontier of value creation.

Services Marketing: Integrating Customer Focus Across the Firm

Satellite marketing uses multiple social media sites as a series of marketing sub-stations or "satellites." Each satellite is a stand-alone marketing effort, which means that if and when your prospects are engaged, they are being introduced to your brand, your product and services, and your community of users. Prospects presented with a call to action through satellite marketing are more likely to act because they are actively engaged with your message. Identifying opportunities for social media within integrated marketing communications, *Satellite Marketing* outlines a proven process to help you create an actionable strategic plan based on measurable goals. It provides business owners, CEOs, CMOs, and sales people with a comprehensive strategy for leveraging new media and integrating it with conventional marketing tactics. Traditional marketing is still important, and the context of social media will make traditional tactics more effective. Dispelling many of the myths surrounding social media, this book will help you: Develop an effective social media strategy to boost sales and brand awareness Identify and target relevant markets Create, deploy, and maintain effective satellites Measure the success of your satellite marketing campaigns The book explains why successful marketing has evolved from product-centric to customer-centric. It presents valuable lessons learned from established communications channels that apply to social media. It also details a step-by-step process to help you identify measurable goals, better understand your audience, create a strategy, select the appropriate social media, build engagement, develop a communications plan, and monitor performance. This book is written by Kevin Popović, the Founder of Ideahaus®. Mr. Popovic is a speaker,

educator, and was recently named a Top 20 Digital Marketing Strategist for 2015 by the Online Marketing Institute.

WINNER: NYC Big Book Award 2020 - Sales and Marketing category WINNER: The Stevie Awards 2020 - 'Book of the Year' Silver award, Women in Business category Written by the award-winning storyteller Miri Rodriguez at Microsoft, this actionable guide goes beyond content strategy and, instead, demonstrates how to leverage brand storytelling in the marketing mix to strengthen brand engagement and achieve long-term growth, with advice from brands like Expedia, Coca Cola, McDonalds, Adobe and Google. Despite understanding essential storytelling techniques, brands continue to explain how their product or service can help the customer, rather than showcasing how the customer's life has changed as a result of them. Brand Storytelling gets back to the heart of brand loyalty, consumer behaviour and engagement as a business strategy: using storytelling to trigger the emotions that humans are driven by. It provides a step by step guide to assess, dismantle, and rebuild a brand story, shifting the brand from a 'hero' to 'sidekick' mentality, and positioning the customer as a key influencer to motivate the audience. Simplifying where to begin, how to benchmark success and ensure a consistent brand voice throughout every department, this book clearly shows how readers can align an emotive connection with the customer's personal values, experiences and aspirations, and how that will enable brand leaders, employees and influencers to celebrate and strengthen brand engagement for the long-term, rather than simply trying to win it. Clarifying why machine-learning, AI and automation only tell one side of the story, this book will inspire you with cutting edge interviews and case studies from leading brands like Expedia, Coca Cola, McDonalds, Adobe and Google, to tap into authentic brand loyalty and human connection.

The New Rules of Marketing and PR

Do professions really place duty to society above clients' or their own interests? If not, how can they be trusted? While some public relations (PR) scholars claim that PR serves society and enhances the democratic process, others suggest that it is little more than propaganda, serving the interests of global corporations. This is not an argument about definitions, but about ethics - yet this topic is barely explored in texts and theories that seek to explain PR and its function in society. This book places PR ethics in the wider context of professional ethics and the sociology of professions. By bringing together literature from fields beyond public relations - sociology, professional and philosophical ethics, and Jungian psychology - it integrates a new body of ideas into the debate. The unprecedented introduction of Jungian psychology to public relations scholarship shifts the debate beyond a traditional Western 'Good/Bad' ethical dichotomy towards a new holistic approach, with dynamic implications for theory and practice. This thought-provoking book will be essential reading for students, academics and professionals with an interest in public relations, ethics and professionalism.

Marketing 4.0

Do you want to be a leader? Or, do you want more leaders on your network marketing team? The strength of your network marketing business is measured in leaders - not in the number of distributors. Leaders are the long-term foundation of your business. Everyone says they want to have more leaders, but how? How does one find leaders? How does one create leaders? What are the things we need to teach ordinary distributors to do in order to become leaders? Successful leaders have a plan. They want to duplicate themselves as leaders. This plan doesn't happen by accident. Follow this plan. Instead of wishing and hoping for leaders, this book will give you the step-by-step activities to actually create leaders. Yes, there is a plan for building leaders and it is simple to follow. Discover how to give ordinary distributors a leadership test to determine if they are ready to enter the path of leadership. Then, learn how to start their training process with the biggest leadership lesson of all: problems. When you have an organization of leaders, network marketing gets easier. Instead of spending the day with repetitive activities with distributors, you will enjoy the free time this business offers. Spend the time to build and create leaders, and then you will have the freedom to visit the beaches of the world. This is the perfect book to lend to a new distributor who wants to build a long-term MLM business, and would like to know exactly how to build it. Creating network marketing leaders should be the focus of every business-builder. Order your copy now!

Rethinking the Sales Force: Redefining Selling to Create and Capture Customer Value

A powerful call to action, Customer Centricity upends some of our most fundamental beliefs about customer service, customer relationship

management, and customer lifetime value. Despite what the old adage says, the customer is not always right. Even companies that can seemingly do no wrong—like the coffeehouse giant Starbucks—have only recently started to figure this out. Starbucks is one of many companies that has successfully executed a pivot that puts the company in a customer-centric mindset, an approach that Wharton professor Peter Fader describes in *Customer Centricity*. Fader advocates that in the world of customer centricity, there are good customers and then there is pretty much everybody else. In a new preface and afterword to *Customer Centricity*, Fader reflects on how the landscape has changed over nearly a decade since he first proposed that businesses radically rethink how they relate to customers. Using examples from Starbucks, Nordstrom, and more, Fader provides insights to help you understand: Why customer centricity is the new model for success in today's data-driven environment. How the ideas of brand equity and customer asset value help us understand what kinds of companies naturally lend themselves to the customer-centric model and which ones don't; Why the traditional models for determining the value of individual customers are flawed; How executives can use customer lifetime value (CLV) and other customer-centric data to make smarter decisions about their companies; How the well-intended idea of customer relationship management (CRM) lost its way—and how your company can properly put CRM to use; How customer centricity will help you realign your performance metrics, product development, customer relationship management and organization to make sure you focus directly on the needs of your most valuable customers and increase profits for the long term. ALSO AVAILABLE: Once Fader convinces you of the value of customer centricity in this book, *The Customer Centricity Playbook*, with Sarah Toms, will show you where to get started to bring it to the forefront of your organization. THE WHARTON EXECUTIVE ESSENTIALS SERIES The Wharton Executive Essentials series from Wharton School Press brings the ideas of the Wharton School's thought leaders to you wherever you are. Inspired by Wharton's Executive Education program, each book is authored by globally renowned faculty and filled with real-life business examples and actionable advice. Wharton Executive Essentials guides offer a quick-reading, penetrating, and comprehensive summary of the knowledge leaders need to excel in today's competitive business environment and capture tomorrow's opportunities.

Service Innovation: How to Go from Customer Needs to Breakthrough Services

Services Marketing

In today's markets, success no longer depends on communicating the value of products or services. It rests on the crucial ability to create value for customers. Sales forces need to retool current strategies by recognizing the customer's dominant power in today's economy and what that means for those who sell. Capitalizing on research into the practices of cutting edge companies, the authors show how the successful sales force breaks away from traditional thinking and transforms themselves into complex business processes with multiple sales approaches and selling models that meet the demands of today's sophisticated customers.

Driving Customer Equity

This textbook provides a comprehensive review and analysis of services marketing issues, practice and strategy. Customer behaviour, expectations and perceptions are discussed early on in the text to form the basis for understanding services marketing strategy later on, and the managerial content is framed by the GAPS model.

Services Marketing

How can managers design and manage excellent customer experiences that will develop long-term relationships with their customers? This book addresses this key question and explores both the theory developed over the past 20 years and tools to create truly engaging brands. Taking a broad holistic approach, this book brings together current thinking on experiential marketing, brand management, customer engagement, customer well-being and happiness, customer loyalty and emotions, the customer journey map, and big data and combines it into a practical and clear roadmap for brand managers. By integrating these modern perspectives, concepts, research techniques, and operative tools, this book provides a new perspective of marketing management to design and build engaging branding. Using extensive examples from a variety of industries, this book offers a global perspective that will appeal to both advanced students and experienced marketing managers.

Unleashing Excellence

Public Relations Ethics and Professionalism

In their efforts to become more customer-focused, companies everywhere find themselves entangled in outmoded systems, metrics, and strategies rooted in their product-centered view of the world. Now, to ease this shift to a customer focus, marketing strategy experts Roland T. Rust, Valarie A. Zeithaml, and Katherine N. Lemon have created a dynamic new model they call "Customer Equity," a strategic framework designed to maximize every firm's most important asset, the total lifetime value of its customer base. The authors' Customer Equity Framework yields powerful insights that will help any business increase the value of its customer base. Rust, Zeithaml, and Lemon introduce the three drivers of customer equity -- Value Equity, Brand Equity, and Retention Equity -- and explain in clear, nontechnical language how managers can base their strategies on one or a combination of these drivers. The authors demonstrate in this breakthrough book how managers can build and employ competitive metrics that reveal their company's Customer Equity relative to their competitors. Based on these metrics, they show how managers can determine which drivers are most important in their industry, how they can make efficient strategic trade-offs between expenditures on these drivers, and how to project a financial return from these expenditures. The final section devotes two chapters to the Customer Pyramid, an approach that segments customers based on their long-term profitability, and an especially important chapter examines the Internet as the ultimate Customer Equity tool. Here the authors show how companies such as Intuit.com, Schwab.com, and Priceline.com have used more than one or all three drivers to increase Customer Equity. In this age of one-to-one marketing, understanding how to drive Customer Equity is central to the success of any firm. In particular, Driving Customer Equity will be essential reading for any marketing manager and, for that matter, any manager concerned with growing the value of the firm's customer base.

Customer-Oriented Marketing Strategy

This new edition balances the theoretical and the practical for advanced undergraduates, those specialising in financial services at postgraduate level, individuals undertaking professional courses such as those offered by the IFS School of Finance, and employees working within the financial services sector. Ennew & Waite draw from global business cases in both B2B and B2C marketing, taking a unique approach in terms of structure by splitting discussion between marketing for acquisition and marketing for retention. This fully updated and revised second edition features: A revised approach to the industry in the light of the global financial crisis, including ethical considerations, consumer confidence issues, and new approaches to regulation New sections on e-commerce and its impact on customer relationships New case studies and vignettes A new companion website to support teaching, including PowerPoint slides, test bank questions, additional cases and cameo video mini-lectures. Financial Services Marketing 2e will help the student and the practitioner to develop a firm grounding in the fundamentals of financial services strategy, customer acquisition and customer development. Reflecting the realities of financial services marketing in an increasingly complex sector, it provides the most up-to-date, international and practical guide to the subject available.

Engaging Brands

Marketing attempts to influence the way consumers behave. These attempts have implications for the organizations making the attempt, the consumers they are trying to influence, and the society in which these attempts occur. We are all consumers and we are all members of society, so consumer behavior, and attempts to influence it, are critical to all of us. This text is designed to provide an understanding of consumer behavior. This understanding can make us better consumer, better marketers, and better citizens. A primary purpose of this text is to provide the student with a usable, managerial understanding of consumer behavior.-Pref.

Services Marketing: Global Edition

Services Marketing, 5/e, recognizes that services present special challenges that must be identified and addressed in real circumstances. The heart of the book's content is to develop strong customer relationships through quality service. The book also focuses on knowledge needed to implement service strategies for competitive advantage across industries. Hence, frameworks for customer-focused management, and strategies for increasing customer satisfaction and retention through service are included in the fifth edition.

Services Marketing

Understanding the visitor experience provides essential insights into how museums can affect people's lives. Personal drives, group identity, decision-making and meaning-making strategies, memory, and leisure preferences, all enter into the visitor experience, which extends far beyond the walls of the institution both in time and space. Drawing upon a career in studying museum visitors, renowned researcher John Falk attempts to create a predictive model of visitor experience, one that can help museum professionals better meet those visitors' needs. He identifies five key types of visitors who attend museums and then defines the internal processes that drive them there over and over again. Through an understanding of how museums shape and reflect their personal and group identity, Falk is able to show not only how museums can increase their attendance and revenue, but also their meaningfulness to their constituents.

Strategic Marketing in the Global Forest Industries

Companies are being forced to react to the growing individualization of demand. At the same time, cost management remains of paramount importance due to the competitive pressure in global markets. Thus, making enterprises more customer centric efficiently is a top management priority in most industries. Mass customization and personalization are key strategies to meet this challenge. Companies like Procter&Gamble, Lego, Nike, Adidas, Land's End, BMW, or Levi Strauss, among others, have started large-scale mass customization programs. This book provides insight into the different aspects of building a customer centric enterprise. Following an interdisciplinary approach, leading scientists and practitioners share their findings, concepts, and strategies from the perspective of design, production

engineering, logistics, technology and innovation management, customer behavior, as well as marketing.

Introduction to Business

Services Marketing

Zeithaml's *Services Marketing* introduces readers to the vital role that services play in the economy and its future. Services dominate the advanced economies of the world, and virtually all companies view services as critical to retaining their customers. The seventh edition maintains a managerial focus by incorporating company examples and strategies for addressing issues in every chapter, emphasizing the knowledge needed to implement service strategies for competitive advantage across industries. New research references and examples in every chapter include increased coverage of new business model examples such as Airbnb, Uber, OpenTable, Mint/Intuit, and others, alongside greater emphasis on technology, digital and social marketing, Big Data, and data analytics as a service.
