A strong argument for a 'feminine' approach to religious discovery: to struggle in the ambiguous gap between the wisdom of the psyche and the wisdom of Scripture, between our interior experience of God and the exterior reality of God. The Wisdom of the Psyche encourages clergy to help parishioners bring forth their unconscious feelings and images to join their conscious thoughts. In this way, the church allows its members the space to present themselves fully to God and to be fully present to the human need around them.

To Speak for the Trees

Wit and Wisdom; Jokes, Conundrums, Sentiments, and Aphorisms

Wisdom is a woman. That is not just my opinion or some new academic theory. Wisdom is a woman because the Bible tells

us so. It tells us that wisdom is more than just a benefit or a characteristic. In the Bible, wisdom is sometimes a person. When so personified, wisdom is always a woman. Sometimes she is Lady Wisdom. Sometimes she is Madame Insight. Most often she goes incognito; yet the shadow she casts is always a female form. Perhaps it is this very tendency to eschew the spotlight that has allowed us to overlook her for so long. It has not helped that pastors, theologians, and Bible scholars have historically been men. And much of Scripture chronicles God's interaction with men, not women. But what if this centuries-long focus of and on men has had a subtle influence on Christian orthodoxy? What if some passages in Scripture remain unexplored, as undisturbed as the thick layer of dust that covers the top of every refrigerator in America? *Wisdom Is a Woman* examines just such dust-laden biblical passages. This is a journey of discovery that helps us look at things we thought we knew with fresh eyes. Luckily for us, we do not take this journey into dusty cupboards and overgrown gardens alone. Our guide throughout is Lady Wisdom, a formidable dame who knows every stone, tree root, and hidden pitfall along the way. She will take us back to the very beginnings of our world. We will focus for a time on Biblical women, from Eve to Priscilla. We will examine women in a general sense, looking for clues in our study of wisdom. We will visit the Proverbs 31 woman and tour Lady Wisdom's academy. Our journey will compare the lives and work of two wise Biblical men and end with a step-by-step correlation between women and wisdom.

Sermons on Proverbs

This collection of leading scholars presents reflections on both wisdom as a general concept throughout history and

cultures, as well as the contested nature of the category of Wisdom Literature. The first half of the collection explores wisdom more generally with essays on its relationship to skill, epistemology, virtue, theology, and order. Wisdom is examined in a number of different contexts, such as historically in the Hebrew Bible and its related cultures, in Egypt and Mesopotamia, as well as in Patristic and Rabbinic interpretation. Additionally, wisdom is examined in its continuing relevance in Islamic, Jewish, and Christian thought, as well as from feminist, environmental, and other contextual perspectives. The second half of the volume considers "Wisdom Literature" as a category. Scholars address its relation to the Solomonic Collection, its social setting, literary genres, chronological development, and theology. Wisdom Literature's relation to other biblical literature (law, history, prophecy, apocalyptic, and the broad question of "Wisdom influence") is then discussed before separate chapters on the texts commonly associated with the category. Contributors take a variety of approaches to the current debates surrounding the viability and value of Wisdom Literature as a category and its proper relationship to the concept of wisdom in the Hebrew Bible. Though the organization of the volume highlights the independence of wisdom as concept from "Wisdom Literature" as a category, seeking to counter the lack of attention given to this question in the traditional approach, the inclusion of both topics together in the same volume reflects their continued interconnection. As such, this handbook both represents the current state of Wisdom scholarship and sets the stage for future developments.

The Wisdom-literature of the Old Testament

Ijamama Speaks is a hilarious satire. Ijamama is a woman from the urban Hood who is accidentally discovered by a feminist magazine, Hot Heifer, after she stood up to a sexist law that allowed men to be topless in public but not women. A published interview of Ijamama in Hot Heifer magazine leads to her cohosting a feminist, late-night TV show, and eventually getting her own late-night TV show, The Ijamama Tell-It-Like-It-Is Midnight Show, targeted to urban blacks, college students, and working-class women. Although very funny, Ijamama Speaks presents meaningful lessons about rightful living and quality living through dialogues of host Ijamama with her diverse TV guests. Some of her guests include Celibate Dude, Lead Belly, Benevolent Angel, Smart-Ass White Boy, Dr. Fartenstein, PumpDaddy, Spiritual Teacher, Bootylicious Queens, Preacher-Teacher, Little Red Rapper from da Hood, and HoneyBaby.

Canadian botanist, biochemist and visionary Diana Beresford-Kroeger's startling insights into the hidden life of trees have already sparked a quiet revolution in how we understand our relationship to forests. Now, in a captivating account of how her life led her to these illuminating and crucial ideas, she shows us how forests can not only heal us but save the planet. When Diana Beresford-Kroeger--whose father was a member of the Anglo-Irish aristocracy and whose mother was an O'Donoghue, one of the stronghold families who carried on the ancient Celtic traditions--was orphaned as a child, she could have been sent to the Magdalene Laundries. Instead, the O'Donoghue elders, most of them scholars and freehold farmers in the Lisheens valley in County Cork, took her under their wing. Diana became the last ward under the Brehon Law. Over the course of three summers, she was taught the ways of the Celtic triad of mind, body and soul. This included the philosophy of healing, the laws of the trees, Brehon wisdom and the Ogham alphabet, all of it rooted in a vision of nature that saw trees and forests as fundamental to human survival and spirituality. Already a precociously gifted scholar, Diana found that her grounding in the ancient ways led her to fresh scientific concepts. Out of that huge and holistic vision have come the observations that put her at the forefront of her field: the discovery of mother trees at the heart of a forest; the fact that trees are a living library, have a chemical language and communicate in a quantum world; the major idea that trees heal living creatures through the aerosols they release and that they carry a great wealth of natural

antibiotics and other healing substances; and, perhaps most significantly, that planting trees can actively regulate the atmosphere and the oceans, and even stabilize our climate. This book is not only the story of a remarkable scientist and her ideas, it harvests all of her powerful knowledge about why trees matter, and why trees are a viable, achievable solution to climate change. Diana eloquently shows us that if we can understand the intricate ways in which the health and welfare of every living creature is connected to the global forest, and strengthen those connections, we will still have time to mend the self-destructive ways that are leading to drastic fires, droughts and floods.

Nevertheless, there is an undying strand of resilience here, a nuance of hope that points to the human ability to move on, to build a new life out of a shattered past. Each poem addresses difficult issues concerning hardships and miraculous moments in the lives of women. Some are spirited statements that demonstrate courage even in brutal circumstances; others rage at the perpetrators of warfare or simply mourn their losses. Together, these works reveal a deep consciousness of both the effects of violence, disappointment, love, kindness, motherly love, and the human ability to move forward. The women whose poems appear in this collection stand for peace and the unrelenting ability to continue to love. No matter what they continue to love.

MOTTO: Venture beyond your imagination for great accomplishments is attained only by those who look beyond their limitations. If God tells you to do it, that means it is possible for there is no such thing as impossibility in the vocabulary of God. Listen to the voice of God. What is He instructing you to do? Follow His instructions precisely, and He will make it happen. If God says its possible, who can tell you it is impossible? No more excuses! Go for it! For it is already done in Jesus name.

Seven Pillars of Wisdom is the autobiographical account of the experiences of British soldier Thomas E. Lawrence (1888-1935) ("Lawrence of Arabia"), while serving as a liaison officer with rebel forces during the Arab Revolt against the Ottoman Turks of 1916 to 1918. Charles Hill has called the Seven Pillars "a novel traveling under the cover of autobiography," capturing Lawrence's highly personal version of the historical events described in the book. Lieutenant Colonel Thomas Edward Lawrence, known professionally as T. E. Lawrence, was a British Army officer renowned especially for his liaison role during the Arab Revolt against Ottoman Turkish rule of 1916–18. The extraordinary breadth and variety of his activities and associations, and his ability to describe them vividly in writing, earned him international fame as Lawrence of Arabia, a title which was used for the 1962 film based on his World War I activities. " The book is very well illustrated. "
