The Sky Is Not the Limit

A story for a new generation of Maximum Ride fans! 17-year-old Hawk is growing up hard and fast in post-apocalyptic New York City . . . until a perilous destiny forces her to take flight. Where is Maximum Ride? Ten years ago a girl with wings fought to save the world. But then she disappeared. Now she's just a fading legend, remembered only in stories. Hawk doesn't know her real name. She doesn't know who her family was, or where they went. The only thing she remembers is that she was told to wait on a specific street corner, at a specific time, until her parents came back for her. She stays under the radar to survive until a destiny that's perilously close to Maximum Ride's forces her to take flight. Someone is coming for her. But it's not a rescue mission. It's an execution.

From Within I Rise

On Sunday 22 July, Bradley Wiggins became the first British rider ever to win the Tour de France. It was the culmination of years of hard work and dedication and a vision begun with the creation of Team Sky. This is the inside story of that journey to greatness.

The Sky's the Limit

The action-packed true story of Australia's very own top gun pilot, Matt Hall. "I would sit there at the controls and think: I'm going to go left, and I can. I want to go right, and I will. I don't have to follow the road. I don't have to follow rules. I don't have to ask anyone - I can go left when I want, I can go right when I want. I had discovered the freedom that has kept me flying to this day." Since he was old enough to notice planes, Matt Hall wanted to be a pilot. Flying with his Dad in a glider, making models at home and meeting officers from the Air Force fuelled his ambition. So when he was accepted into the RAAF's grueling training school it seemed a dream come true. But dreams take hard work and focus - and the willingness to make your own luck. From the rigours of his first professional job as a top Gun fighter in the Battle of Baghdad where he experienced extreme fear and loss for the first time, to his post Air Force

File Type PDF Sky Is Not My Limit Its My Playground Logbook Skydive Log For 201 Jumps

career as a professional racer where he has survived near fatal situations to become one of the most renowned pilots in the world, Matt Hall has led an extraordinary life. His story is a rare glimpse into a normally closed world where skill, quick thinking and a cool head can mean the difference between life and death. 'A must read for anyone interested in flying' COURIER MAIL

Knit the Sky

From the author of *Astrophysics for People in a Hurry* and the host of *Cosmos: A Spacetime Odyssey*, a memoir about growing up and a young man's budding scientific curiosity. This is the absorbing story of Neil deGrasse Tyson's lifelong fascination with the night sky, a restless wonder that began some thirty years ago on the roof of his Bronx apartment building and eventually led him to become the director of the Hayden Planetarium. A unique chronicle of a young man who at one time was both nerd and jock, Tyson's memoir could well inspire other similarly curious youngsters to pursue their dreams. Like many athletic kids he played baseball, won medals in track and swimming, and was captain of his high school wrestling team. But at the same time he was setting up a telescope on winter nights, taking an advanced astronomy course at the Hayden Planetarium, and spending a summer vacation at an astronomy camp in the Mojave Desert. Eventually, his scientific curiosity prevailed, and he went on to graduate in physics from Harvard and to earn a Ph.D. in astrophysics from Columbia. There followed postdoctoral research at Princeton. In 1996, he became the director of the Hayden Planetarium, where some twenty-five years earlier he had been awed by the spectacular vista in the sky theater. Tyson pays tribute to the key teachers and mentors who recognized his precocious interests and abilities, and helped him succeed. He intersperses personal reminiscences with thoughts on scientific literacy, careful science vs. media hype, the possibility that a meteor could someday hit the Earth, dealing with society's racial stereotypes, what science can and cannot say about the existence of God, and many other interesting insights about science, society, and the nature of the universe. Now available in paperback with a new preface and other additions, this engaging memoir will enlighten and inspire an appreciation of astronomy and the wonders of our universe.

The Sky Is Not My Limit It's My Playground - Ruled Notebook Journal with a Funny Skydiving Quote

From the bestselling creators of *Happiness Is* comes a celebration of the many delightful, triumphant, silly, sweet, life-changing experiences that lie ahead. A world full of wonder is waiting for you . . . the sky is the limit of what you can do! The only thing needed to begin this marvelous adventure? YOU! From far-reaching endeavors to the quieter milestones that have a magic all of their own, this book celebrates life's most meaningful moments, and encourages readers to reach for a sky's worth of possibilities. • A joyous all-ages book perfect for families

and children celebrating everyday accomplishments • An inspiring graduation read • Lisa Swerling and Ralph Lazar are the creators of the critically acclaimed and bestselling Happiness Is series. In the spirit of Yay, You!, I Knew You Could, and Oh the Places You'll Go, The Sky Is the Limit will hold a cherished place in the hearts of readers young and old. • Read-aloud toddler books Lisa Swerling and Ralph Lazar are famed illustrators, the authors of the New York Times bestseller Me Without You, and the creators of the internationally beloved Happiness Is . . . brand. They live in Marin County, California.

The Sky Is Not the Limit

A collection of 25 leveled passages with text-dependent comprehension questions that help students tackle increasingly complex texts and provide the academic rigor called for by the Common Core State Standards. With the rigorous reading standards called for in the Common Core State Standards, teachers need easy access to reading passages at an increasing level of complexity so students will have opportunities to read closely and stretch their skills as the school year progresses. This collection of passages offers just that. Each of the 25 passages comes with text-dependent comprehension questions, including open-ended questions that require students to use higher-order thinking skills when writing their responses. The lessons include teaching tips that target the challenges students will encounter in the passage and provide text-complexity information- quantitative (Lexile level), qualitative, and reader and task considerations-to help teachers meet the needs of their class. For use with Grade 6.

The Sky is Mine

From the author of *Astrophysics for People in a Hurry* and the host of *Cosmos: A Spacetime Odyssey*, a memoir about growing up and a young man's budding scientific curiosity. This is the absorbing story of Neil deGrasse Tyson's lifelong fascination with the night sky, a restless wonder that began some thirty years ago on the roof of his Bronx apartment building and eventually led him to become the director of the Hayden Planetarium. Flat Earth Clues

Documents the renowned female aviator's attainment of her pilot's license in her early twenties, her famous Atlantic crossings, her record-setting two-decade career, her tragic disappearance in 1937, and the theories surrounding her fate. Reprint. 15,000 first printing.

25 Complex Text Passages to Meet the Common Core: Literature and Informational Texts, Grade 6

Find the courage to dream big with words of wisdom from 11-year-old professional skateboarder and 2020 Olympic hopeful Sky Brown! When it comes to pushing the limits and breaking the mold, Sky Brown is a pro. As a skateboarder, surfer, and one of the first-ever winners of *Dancing with the Stars: Juniors*, she knows what it means to take risks and never back down from a challenge. This collection of inspirational quotes from Sky--accompanied by photographs of the rising star--is the perfect gift for anyone who dares to dream. Sky believes that you can do anything if you set your mind to it. Just remember her motto: Be brave, be strong, have fun, and do it because you love it!

Sky's the Limit

A new window opens onto the cosmos Almost every day we are challenged by new information from the outermost reaches of space. Using straightforward language, *One Universe* explores the physical principles that govern the workings of our own world so that we can appreciate how they operate in the cosmos around us. Bands of color in a sunlit crystal and the spectrum of starlight in giant telescopes, the arc of a hard-hit baseball and the orbit of the moon, traffic patterns on a freeway and the spiral arms in a galaxy full of stars--they're all tied together in grand and simple ways. We can understand the vast cosmos in which we live by exploring three basic concepts: motion, matter, and energy. With these as a starting point, *One Universe* shows how the physical principles that operate in our kitchens and backyards are actually down-to-Earth versions of cosmic processes. The book then takes us to the limits of our knowledge, asking the ultimate questions about the origins and existence of life as we know it and where the universe came from--and where it is going. Glorious photographs--many seen for the first time in these pages--and original illustrations expand and enrich our understanding. Evocative and clearly written, *One Universe* explains complex ideas in ways that every reader can grasp and enjoy. This book captures the grandeur of the heavens while making us feel at home in the cosmos. Above all, it helps us realize that galaxies, stars, planets, and we ourselves all belong to *One Universe*.

The Sky Is the Limit

Bonding with the son from a family of gypsies who have set up an illegal camp in the paddock by her home, Iris, whose mother has recently abandoned their family, struggles with her introverted father's prejudices and her impulsive brother's troubled nature. A first novel.

The Sky's the Limit

We are often dissatisfied with our current situation in life, while knowing perfectly well that where we find ourselves today, is exactly where we have chosen to be. This book uncovers the barriers which lie between you and the unlimited potential within you. Once you can locate what is holding you back, you can shatter the barriers keeping you from being the powerful individual that you already are. The only limitations you have are self-imposed and this book

shows you how to get out of your own way and act out of your original self. Using real life stories, examples and more importantly the time-tested techniques, this book shows you how to: Unleash the powerful you Believe in your own self Reach your highest potential Emerge a winner even in the most challenging situations Achieve your dreams Live a highly successful, healthy and bountiful life Read this book and discover that even the Sky is Not the Limit!

Sky's the Limit: Wiggins and Cavendish: The Quest to Conquer the Tour de France

A collection of original stories spanning the popular series' twenty-year history includes contributions by such authors as Christopher L. Bennett, David McIntree, and Keith R. A. DeCandido. Original.

The Sky is No Limit

Step Up

In August 2012, at the Tony Ireland stadium in Townsville, Australia, a star was born. Unmukt Chand led the India U-19 team to its first World Cup win outside Asia, leading them there with a stellar performance of his own. Now on the cusp of finding a place in the national team, Unmukt stands as a beacon for the future of Indian cricket. In this book Unmukt describes, in his own words, his journey up until this point, and how he came to represent his country—as captain no less—and brought home this prestigious trophy. Inspirational, revelatory and intensely engaging, *The Sky is the Limit* is the story of how one young man's determination to work hard and take every chance he got made his dream come true.

And the Sky is Not the Limit

How the crushing blow from a random boulder taught this Mother/ Daughter team not how to face death but how to choose to fully live! A journey of inspiration and discovery like no other! On February 19, 2016, Meridith's youngest daughter Schuyler, a recent graduate from Yale, was crushed by a boulder while traveling in Colombia, South America. The doctors weren't sure that they could keep her alive long enough for Meridith to get down there. On that plane, Meridith realized that she had to make a decision. She could let those circumstances define her forever as "the mother of a child who was crushed by a boulder" -- or she could dig deep within herself and become the reluctant hero that her daughter needed right then. She launched a page on Facebook called Schuy is the Limit thinking that she would simply be keeping friends and family informed. She filled it with the light and love and inspiration that she believed her daughter would want. Before she knew it, their followers had expanded into the thousands -- many of whom had never met either Schuyler or Meridith. Instead of being a lesson in how to face death, this boulder became a lesson for thousands in how to choose to LIVE. It changed both Meridith and her family's lives -- and it also transformed the lives of others all over the world. Today, Meridith is still the 24/7 caregiver for her now 24-year old daughter as Schuy relearns how to talk, stand, walk -- basically all aspects of her life. Helping others to cultivate their own greatness has become Meridith's mission. She believes that when we can find our greatness- our own unique inner power- we can explode through obstacles, adversity and fear so that we can soar farther than we ever imagined. Meridith has begun speaking all over the world and has a powerful Sky is the Limit Evening of Inspiration program

that tours theaters. She has her own podcast From Impossible to I'm Possible that explores the concept of massive Greatness. This book is the collection of the actual Facebook posts between February 19, 2016 and July 31, 2016 that stole the hearts of thousands.

The Sky Is the Limit

The Sky Is Not the Limit

"What if you suddenly found yourself in Maryellen's world during the 1950s? How would your life be changed, and what would you do to fit in? More importantly, what would you do to stand out? Join Maryellen on an adventure where the two of you can put on poodle skirts and head to a school dance (they were called sock hops back then), enter a contest, or take a trip in a streamlined silver camper that looks like a rocket ship. Your journey back in time can take whatever twists and turns you choose, as you select from a variety of exciting options in this multiple-ending story"--Provided by publisher.

The Sky's the Limit

Izzy feels invisible. Trapped under the weight of expectation and censored by shame. Her mum Steph and best friend Grace have always been there to save her. But with one under the control of her stepfather and the other caught in the throes of new love, Izzy is falling between the cracks. As threats to her safety grow, Izzy wants to scream. But first she must find her voice. And if the sky is the limit, then the sky is hers. [This book contains material which some readers may find distressing, including discussions of rape, coercive behaviour, domestic violence and abuse.]

Hawk

ON THE MORNING OF 9TH AUGUST 2015 AMANDA NEWTON'S LIFE CHANGED FOREVER WHEN SHE BROKE HER BACK IN A CYCLING ACCIDENT. From the day of the accident Amanda took to Facebook documenting everyday life from her new position. The Sky Is Not The Limit documents a year in the life of this extraordinarily inspiring woman as she comes to terms with the reality of living with sudden paralysis from the waist down, and the trials and challenges that she faced up until the year anniversary of the accident. 'You get very few chances in life to meet people that just amaze you, Amanda is one of them for me Read this book, it will put a lot into perspective; it did for me and I drew on her inspiration during my dark times of the challenge.' - Ben Smith, who ran 401 marathons in 401 days for The 401 Challenge

The Sky is Not the Limit - One Woman's Inspiring and Humorous account of

coming to terms with sudden disability

What exactly is "breakthrough leadership"? Quite simply, it's an approach to performance aimed at transcending limitations and maximizing team potential. As the author points out, the process of innovation and high performance is not random or haphazard. The limitations and barriers that commonly get in the way of success can be overcome-if we use the right leadership techniques. And that's just what Dr. Bart Barthelemy, one of the nation's leaders in the fields of aeronautics and astronautics, discusses in *The Sky Is Not the Limit*-leadership techniques that work, and work consistently. Barthelemy has used his years of management experience to come up with a practical, results-driven guide to leadership based on the ideas of competitive collaboration and structured flexibility. Whether you're a manager, supervisor, team leader or consultant, *The Sky Is Not the Limit* can help you achieve significant breakthroughs in performance and productivity. You can use its proven tips and techniques to lead your teams to new heights of excellence. Remember, the sky is not the limit-not for airplanes, not for this planet, not for our organizations and not for any of us!

The Sky Is Not the Limit

"The Only Book You Need to Succeed both at Work and Home." In this engaging, witty and conversational book, Anju Jain explains why gender disparity is an issue both at home and work and how that can be changed. With insights gained from extensive research and experience, she presents practical techniques in a simple matrix for women to use to become successful. This book will help you to: •Increase your productivity • Create work-life balance • Get support from those who matter • Build your own brand at work • Reach your goals and succeed There are also interviews with key leaders—both women and men—who talk about the challenges they faced and the solutions which worked for them. Among those featured are Kiran Mazumdar Shaw (Biocon), Sonia Singh (NDTV), Devyani Rana (Caterpillar), Geetu Verma (Unilever), Ipsita Dasgupta (GE), Sunita Maheshwari (Rx Dx and Teleradiology Solutions), Vaishali Kasture (Deloitte Consulting), Divya Suri (Lalit Suri Resorts), Kumud Srinivasan (Intel), Gwen Ryan (EY), N. V. Tyagarajan (Genpact), Mohandas Pai (Manipal Global Education) and Raj Nayak (Colors TV). Full of interesting anecdotes and great advice, *Step Up* will both entertain and guide women towards personal and professional growth.

The Weight of Our Sky

A music loving teen with OCD does everything she can to find her way back to her mother during the historic race riots in 1969 Kuala Lumpur, Malaysia, in this heart-pounding literary debut. Melati Ahmad looks like your typical movie-going, Beatles-obsessed sixteen-year-old. Unlike most other sixteen-year-olds though, Mel also believes that she harbors a djinn inside her, one who threatens her with horrific images of her mother's death unless she adheres to an elaborate ritual of counting and tapping to keep him satisfied. A trip to the movies after school turns into a nightmare when the city erupts into violent race riots between the Chinese and the Malay. When gangsters come into the theater and hold movie-goers hostage, Mel, a Malay, is saved by a Chinese woman, but has to leave her best friend behind to die. On their journey through town, Mel sees for herself the devastation caused by the riots. In her village, a neighbor tells her that her mother, a nurse, was called in to help with the many bodies piling up at the hospital. Mel must survive on her own, with the help of a few kind strangers, until she finds her mother. But the djinn in her mind threatens her ability to cope.

The Sky is Not the Limit

Sky is Not the Limit

Adversity does not build character-it reveals it!*The Sky Is Not the Limit* is the story of my journey from a devastating personal tragedy to a resilient, fulfilling life. A terrible car crash caused by someone texting and driving left me paralyzed from the chest down at the very beginning of a promising college football career. With the help of my devoted family and friends, and the strength of my faith and upbringing, I was able to find my way through an unthinkable situation to forge a future as a college graduate, working professional, world traveler, and successful motivational speaker while bringing awareness to the dangers of distracted driving. Everyone has a story. Some are blissful, while others are tragic. Mine, on the other hand, is full of triumph. I desire to share my experiences with the hope that more people will feel empowered to endure difficult times and continue to fight for their dreams. To many, my accident seemed like the end of a young man's bright future, but on the contrary, it became the prologue to my destiny. Sure there were times when I wanted to give up, but I made a choice to overcome my challenges, believe in a prosperous future, and motivate others to do the same. *The Sky is NOT the limit! There are NO limits in life!* (This version of the book will be printed in black & white)

One Universe:

The Sky is the Limit is intended to convey to children the limitless choices for what they can be when they grow up. The author encourages children to shoot for the stars and aim for the sky. There is a twist at the end because as we adults know the sky is not the limit.

The Sky is Not the Limit

Meet Ross Hutchison, the man who doesn't just make the days count, he makes the minutes count. He has crammed many lifetimes into one life and made many friends along the way. Ross's boundless energy has taken him to the pinnacle of multiple careers, and his tutors and mentors along the way were always the royalty in their chosen fields. His work in television, theatre, film, cabaret, and radio has been seen and heard in Australia and around the world. For many years, he was a dancer and choreographer on *Bandstand*, both for Brian Henderson and the Daryl Somers Series. Ross was also choreographer and dancer for the great Benny

Hill. During his career, he has danced with Sammy Davis, Liza Minnelli, and numerous other stars. His work with Bernard King on TV and in cabaret/theatre restaurants and pantomimes is legendary. In later life, his love of horses reignited as a need to learn to drive harness racers. But that did not shift his focus from his ministry and support of those in need. The many who have used his private alternative medicine clinic and those who lean on his foundation for support will never forget this magical man.

The Sky's the Limit

Your brother, uncle or dad loves it to jump out of a plane to skydive? Then this funny skydiving saying pun is the perfect birthday gift idea! Skydivers, grab your stuff and go for it! Parachuting, the best extreme sport for crazy people!

Amelia Earhart

This book is about breaking through barriers and overcoming self-imposed limitations. Wife, mother, new immigrant and now author, Svetlana Lazareva shares her struggles, her triumphs and her personal success secrets. With courage, authenticity and passion, she describes the many pitfalls of her journey and reveals the strategies she used to conquer each one on the way to victory. Her message is clear: follow your dreams, even when they are as distant as the moon (or the other side of the world!), because the sky is no longer the limit.

The Sky Is Not the Limit

Presents brief accounts of the work of a variety of women scientists in such fields as astronomy, biology, anthropology, and medicine.

Never Tell Me The Sky's The Limit When There Are Footprints On The Moon

The Flat Earth Clues book gives you 12 compelling reasons why you should rethink the globe model that you have been taught. Before you were born, before your parents, your grandparents, before you even had a family line There was the illusion, the trick, the lie That you lived on a small spinning rock, flying through space. You thought it was true, because children don't believe in lies. And you grew up, and it was still true, because science is never wrong Except for small things like, Lead Gasoline, Lead Paint, DDT, Cigarettes not causing cancer, and what the core of the earth looks like. You know that fire burns, water is wet, drop something and it falls to the floor. We can all test these things. What shape is the world? That's not something you know, it's something you're TOLD. To put it simply, you just have to take their word for it. And there's the real crux of the problem, the weight of their word, it's really about trust. Most of us trust science to some degree. To be fair, it has produced some modern conveniences, like air conditioning, lightbulbs, and smart phones. But it also made things like atomic weapons, nerve gas, and napalm. Make no mistake, the greatest advances in science have been in different ways to kill each other. What if, after centuries of preaching the globe as a religious icon, "the powers that be" found out that it was actually not a sphere, but instead something much different? Would they risk unravelling 500 years of science doctrine by informing the public? Could a government still retain it's authority if there were actually proof of a higher power? It's about proving the Flat Earth, but more importantly, it's about disproving the globe, and that shouldn't be possible, but there are several big questions which science has a difficult time with. Why was there only one blue marble image used for 43 years? Where are

the videos of the earth rotating from space? Astronauts can't turn around in space with the camera running? Not even by accident? Are the Van Allen radiation belts dangerous? Why does the Orion Trial by Fire video exist? Why was the space shuttle program cancelled? Why does the Mars mission keep getting postponed? Why are they closing down the ISS? Why is Psalm 19:1 on Werner Von Braun's headstone? Why is the moon generating a light that is sometimes 12 degrees colder than the moon shade? How is that possible if it's reflecting the sun's rays? And if the moon is generating its own light source, then what was that dark grey thing we landed on? We can beam back crystal clear photos of Pluto, but the Global Positioning System doesn't track planes in the Southern oceans? And why does this topic, compared to ANY other, conspiracy or not, make people excited, angry, or scared? Some of you are getting anxious just listening! Why? Because it's the greatest trick of all, and we all fell for it. You should be excited, because it's going to change the world. You should be angry, because you were fooled your entire life, and you should be a little scared, because this is uncharted territory. This is the Flat Earth theory, that the world is easy to understand, more intimate, and very deliberate. It didn't just happen, it was built, and more importantly built for you. Open your eyes and smile. You have never been alone. Published by Booglez Limited, UK - Flat Earth Clues is digestible nuggets of information broken down in a very reader-friendly way. Author Mark Sargent is located in the USA and can be contacted on msargent23@comcast.net or +303-494-6631. He runs a regular radio show called Enclosed World where you can phone in and discuss the topic. More information about Flat Earth can be found at www.EnclosedWorld.com and the links to the video clues series are also on that website.

"The Secret of Getting Ahead Is Getting Started"

A [true] story of spiritual victory over A[a→A] deathly A[a→A] negative episodes and life-saving encounters with A[a→A] The Divine Presence A[a→A] (God/Source), this self-help revelation is powerful and inspiring! A secret held for over twenty years has finally resulted in this long awaited expression of love for God, self, nature and humanity. From spoiled man child, to gangster men affiliate, to spiritual awakening A[a→A] the experience of triumph over one A[a→A] [own] understanding is full with the miracle of redemption and mental transformation; leading to a new life of prosperity and well-being. A former public school district colleague wrote, A[a→A] Thanks for blessing me with your manuscript. I always knew you were cool, but I had no idea how thoughtful, insightful and provocative you are. I agree wholeheartedly with you that our thoughts and attitudes determine our fates. Once I started reading, I couldn't stop. Keep up the good work A[a→A] two thumbs up! A[a→A]

Infinite Sky

With his signature elan, Gaines weaves a gossipy tapestry of brokers, buyers, co-op boards, and eccentric landlords and tells of the apartment hunting and renovating adventures of many celebrities -- from Tommy Hilfiger to Donna Karan, from Jerry Seinfeld to Steven Spielberg, from Barbra Streisand to Madonna. Gaines uncovers the secretive, unwritten rules of co-op boards: why diplomats and pretty divorcees are frowned upon, what not to wear to a board interview, and which of the biggest celebrities and CEOs have been turned away from the elite buildings of Fifth and Park Avenues. He introduces the carriage-trade brokers who never have to advertise for clients and gives us finely etched portraits of a few of the discreet, elderly society ladies who decide who gets into the so-called Good Buildings. Here, too, is a fascinating chronicle of the changes in Manhattan's residential skyline, from the slums of the nineteenth century to the advent of the luxury building. Gaines describes how living in boxes

stacked on boxes came to be seen as the ultimate in status, and how the co-operative apartment, originally conceived as a form of housing for the poor, came to be used as a legal means of black-balling undesirable neighbors. A social history told through brick and mortar, The Sky's the Limit is the ultimate look inside one of the most exclusive and expensive enclaves in the world, and at the lengths to which people will go to get in.

The Sky Is the Limit

The Sky Is NOT the Limit is a collection of adventures that have taken us around the world. Each chapter is an individual story and can be read independently. Perhaps when Joan and I are old and gray we will sit together and read and re-live all these memories. The stories take you to the four corners of the world, on all seven continents, and the major cities of the world. At last count the number was sixty countries and counting. I am not too sure who else would be interested - perhaps one day our grandchildren and then one day their grandchildren. Young people who would be curious to know something about their ancestors and what life was like at the close of the 20th century and the dawn of the 21 century. Oh well, who knows. But it sure was fun writing about these travels. And a whole lot more exciting creating these memories with my soul-mate.

Sky Is Not My Limit

"Different from any knitting book I've ever seen! Think of it as a journal of your life, not with pen and paper, but with knitting needles" (Lisa Congdon, author of Find Your Artistic Voice). Record the beauty, emotions, and experiences of everyday life—with your knitting needles! Author Lea Redmond offers thirty-two enchanting projects that will inspire you to create beautiful finished pieces full of personal meaning and memories. Stock up on shades of blue, gray, and white and knit one strip of a scarf each day for a year, using the color that matches the sky on that day. When you're done, you'll have a unique memento of your year better than anything you can keep in a scrapbook. Or when you're traveling, knit postcard-size swatches at each place you visit, using the colors you see around you. When the trip is over, piece the swatches together into a throw or scarf that will remind you of your journey every time you use it. Or knit a height-chart scarf for a beloved baby, starting with her length at birth, then add inches each year until you have the perfect gift for her eighteenth birthday. These are knitting projects like no other, resulting in one-of-a-kind heirlooms that tell a story only you can tell. Redmond provides instructions for all the stitches and techniques you need, as well as required patterns. "In this charming book, Lea Redmond puts her big heart into creative knitting projects. She reminds us that the sky's the limit—in knitting and in life." —Ann Hood, author of The Knitting Circle "Not your usual book about knitting . . . [It] aspires to turn on your creativity, to awaken the designer within you." —In Stitches
