Fourth Edition

Most children are afraid of the dark. Some fear monsters under the bed. But at least ten percent of children have excessive fears and worries—phobias, separation anxiety, panic attacks, social anxiety, or obsessive-compulsive disorder—that can hold them back and keep them from fully enjoying childhood. If your child suffers from any of these forms of anxiety, the program in this book offers practical, scientifically proven tools that can help. Now in its second edition, *Helping Your Anxious Child* has been expanded and updated to include the latest research and techniques for managing child anxiety. The book offers proven effective skills based in cognitive behavioral therapy (CBT) to aid you in helping your child overcome intense fears and worries. You'll also find out how to relieve your child's anxious feelings while parenting with compassion. Inside, you will learn to:

- Help your child practice “detective thinking” to recognize irrational worries
- What to do when your child becomes frightened
- How to gently and gradually expose your child to challenging situations
- Help your child learn important social skills

This book has been awarded The Association for Behavioral and Cognitive Therapies Self-Help Seal of Merit—an award bestowed on outstanding self-help books that are consistent with cognitive behavioral therapy (CBT) principles and that incorporate scientifically tested strategies for overcoming mental health difficulties. Used alone or in conjunction with therapy, our books offer powerful tools readers can use to jump-start changes in their lives.

Intercultural Learning

As a school administrator, instructional coach, or teacher leader, you know that reflective teachers are effective teachers. But how can you help teachers become self-reflective practitioners whose thoughtful approach translates into real gains for student achievement? In *Creating a Culture of Reflective Practice*—a companion volume to their teacher-oriented book *Teach, Reflect, Learn*—authors Pete Hall and Alisa Simeral draw on lessons learned from educators across grade levels, content areas, and district demographics to present a definitive guide to developing a culture of reflective practice in your school. Hall and Simeral expand on ideas originally presented in *Building Teachers' Capacity for Success* to help you gain a clear understanding of your role and responsibilities—and those of your teachers—within each stage of the Continuum of Self-Reflection. Armed with the book's real-life examples and research-based tools, you'll learn how to determine the current location of all stakeholders on the continuum and how teacher-leadership activities, transformational feedback,

Russian Revolution

When it comes to the hard work of reconstructing our schools into places where every student has the opportunity to succeed, Mirko Chardin and Katie Novak are absolutely convinced that teachers should serve as our primary architects. And by “ teachers ” they mean legions of teachers working in close collaboration. After all, it ’ s teachers who design students ’ learning experiences, who build student relationships . . . who ultimately have the power to change the trajectory of our students ’ lives. Equity by Design is intended to serve as a blueprint for teachers to alter the all-too-predictable outcomes for our historically under-served students. A first of its kind resource, the book makes the critical link between social justice and Universal Design for Learning (UDL) so that we can equip students (and teachers, too) with the will, skill, and collective capacity to enact positive change. Inside you ’ ll find: Concrete strategies for designing and delivering a culturally responsive, sustainable, and equitable framework for all students Rich examples, case studies, and implementation spotlights of educators, students (including Parkland survivors), and programs

that have embraced a social justice imperative Evidence-based application of best practices for UDL to create more inclusive and equitable classrooms A flexible format to facilitate use with individual teachers, teacher teams, and as the basis for whole-school implementation “ Every student, ” Mirko and Katie insist, “ deserves the opportunity to be successful regardless of their zip code, the color of their skin, the language they speak, their sexual and/or gender identity, and whether or not they have a disability. ” Consider Equity by Design a critical first step forward in providing that all-important opportunity. “ Our calling is to drop our egos, commit to removing barriers, and treat our learners with the unequivocal respect and dignity they deserve. ” ~Mirko Chardin and Katie Novak
