The Airstream is an eye-catching vintage classic. First appearing on American highways in the early 1930s, these sleek aluminum icons were compact, cozy spaces that could be hitched to the family car and taken out on the open road – and nearly a century later their timeless design has lost none of its appeal, with the Airstream enjoying renewed popularity among celebrities, event planners and young travelers who appreciate its air of nostalgia and distinctively American blend of functionalism and beauty. Born in the California backyard of inventor Wally Byam and partly inspired by the work of Hawley Bowlus, the famed chief builder of *The Spirit of St. Louis*, the Airstream's modernist aesthetic has remained relatively unchanged in eight decades, and its industrial durability has earned a reputation without equal,

This Old House meets Wayne 's World in this zany guide to designing and building tiny homes Derek Diedricksen has always had a love for small, modest houses ever since his father gave him the book *Tiny Tiny Houses* by Lester Walker for his tenth birthday. Combining his artistic abilities, wild imagination, and his passion for small houses, he self-published *Humble Homes, Simple Shacks, Cozy Cottages, Ramshackle Retreats, Funky Forts, and Whatever the Heck Else we could Squeeze in Here* in 2009. This book is a collection of Diedricksen 's creative/imaginative sketches for building small houses, shacks, cottages, and forts. The sketches are accompanied with hand-written commentary, both instructive and comical. Derek 's main purpose is to get your creative juices flowing and encourage you to get off the couch and use your hands. Believing that specific building plans squash creativity, he avoids too many detailed instructions, giving you the chance to put your own creative spin on your very own small abode (even if it is just in your imagination).
