Work

In her attempts to juggle work and family life, Brigid Schulte has baked cakes until 2 a.m., frantically (but surreptitiously) sent important emails during school trips and then worked long into the night after her children were in bed. Realising she had become someone who constantly burst in late, trailing shoes and schoolbooks and biscuit crumbs, she began to question, like so many of us, whether it is possible to be anything you want to be, have a family and still have time to breathe. So when Schulte met an eminent sociologist who studies time and he told her she enjoyed thirty hours of leisure each week, she thought her head was going to pop off. What followed was a trip down the rabbit hole of busy-ness, a journey to discover why so many of us find it near-impossible to press the 'pause' button on life and what got us here in the first place. Overwhelmed maps the individual, historical, biological and societal stresses that have

ripped working mothers' and fathers' leisure to shreds, and asks how it might be possible for us to put the pieces back together. Seeking insights, answers and inspiration, Schulte explores everything from the wiring of the brain and why workplaces are becoming increasingly demanding, to worldwide differences in family policy, how cultural norms shape our experiences at work, our unequal division of labour at home and why it's so hard for everyone - but women especially - to feel they deserve an elusive moment of peace.

The Joy of Missing Out

The Joy of Running is BACK! Current and future runners can now discover the inspiration, support, and guidance packed in this essential running book—information no other book can give you. If your doctor or a friend has ever told you to start exercising, you'll feel better, it's thanks to this book, because in its pages Dr. Thaddeus Kostrubala first described how running can lift your spirits. This is the book that started it all, the book you read to discover how running can save your life—and your soul. The Joy of Running is the book you read to reveal the secrets of running as a path to self-discovery. Running can literally rearrange your personality. In some people the changes are profound—introverts become extraverts. Depressed people lose their depression. Anxiety diminishes or disappears. The Joy of Running was the first book to describe in detail what we now call "runner's high." In no other book will you find a highly-credentialed psychiatrist exploring this expansion of

consciousness and its effects on a runner's life. You'll discover how running benefits not only physical fitness, but psychological and spiritual health, as well. And you'll finally understand the changes in your own personality that running can bring about. As Dr. Jack Scaff, founder of the Honolulu Marathon Clinic, said: "The Joy of Running is a bright new light at the end of a long tunnel of ignorance about the effects of slow distance-running on the mind and body of man. Books like this are long overdue." The Joy of Running is the book you hand to someone who is just starting to run. The Joy of Running is the book you read to finally understand the true reason why you are a runner and why you want to ALWAYS be a runner. The Joy of Running is the book that will help you take your running to the next level—the level of self-discovery and growth. The level of joy. But be warned: After almost 40 years the book's magic is very much alive and powerful. Reading it will change your life—and your running.

The principles behind this ancient practice have long eluded some of the best minds in modern science. Until now. In this groundbreaking work, world-renowned Buddhist teacher Yongey Mingyur Rinpoche invites us to join him in unlocking the secrets behind the practice of meditation. Working with neuroscientists at the Waisman Laboratory for Brain Imaging and Behavior, Yongey Mingyur provides clear insights into modern research indicating that systematic training in meditation can enhance activity in areas of the brain associated with happiness and compassion. He has also worked with physicists across the country to develop a fresh, scientifically based interpretation of the Buddhist understanding of the nature of reality. Senior now asks: what are the effects of children on their parents? In *All Joy and No Fun*, award-winning journalist Jennifer Senior tries to tackle this question, isolating and analyzing the many ways in which children reshape their parents' lives, whether it's their marriages, their jobs, their habits, their hobbies, their friendships, or their internal senses of self. She argues that changes in the last half century have radically altered the roles of today's mothers and fathers, making their mandates at once more complex and far less clear. Recruiting from a wide variety of sources—in history, sociology, economics, psychology, philosophy, and anthropology—she dissects both the timeless strains of parenting and the ones that are brand new, and then brings her research to life in the homes of ordinary parents around the country. The result is an unforgettable series of family portraits, starting with parents of young children and progressing to parents of teens. Through lively and accessible storytelling, Senior follows these mothers and fathers as they wrestle with some of parenthood's deepest vexations—and luxuriate in some of its finest rewards. Meticulously researched yet imbued with emotional intelligence, *All Joy and No Fun* makes us reconsider some of our culture's most basic beliefs about parenthood, all while illuminating the profound ways children deepen and add purpose to our lives. By focusing on parenthood, rather than parenting, the book is original

Joy at Work

An instant New York Times bestseller Two spiritual giants. Five days. One timeless question. Nobel Peace Prize Laureates His Holiness the Dalai Lama and Archbishop Desmond Tutu have survived more than fifty years of exile and the soul-crushing violence of oppression. Despite their hardships—or, as they would say, because of them—they are two of the most joyful people on the planet. In April 2015, Archbishop Tutu traveled to the Dalai Lama's home in Dharamsala, India, to celebrate His Holiness's eightieth birthday and to create what they hoped would be a gift for others. They looked back on their long lives to answer a single burning question: How do we find joy in the face of life's inevitable suffering? They traded intimate stories, teased each other continually, and shared their spiritual practices. By the end of a week filled with laughter and punctuated with tears, these two global heroes had stared into the abyss and despair of our time and revealed how to live a life brimming with joy. This book offers us a rare opportunity to experience their astonishing and unprecedented week together, from the first embrace to the final good-bye. We get to listen as they explore the Nature of True Joy and confront each of the Obstacles of Joy—from fear, stress, and anger to grief, illness, and death. They then offer us the Eight Pillars of Joy, which provide the

foundation for lasting happiness. Throughout, they include stories, wisdom, and science. Finally, they share their daily Joy Practices that anchor their own emotional and spiritual lives. The Archbishop has never claimed sainthood, and the Dalai Lama considers himself a simple monk. In this unique collaboration, they offer us the reflection of real lives filled with pain and turmoil in the midst of which they have been able to discover a level of peace, of courage, and of joy to which we can all aspire in our own lives.

For those who are called to it, pastoral ministry can be a source of deep joy. But there are also challenges. An increasing number of pastors seem to be burning out under the load. That Their Work Will Be a Joy was written to encourage mutual understanding between pastors and congregations about the stresses of ministry. The authors present five principles that will help ministry remain more of a joy than a burden. Every chapter contains practical recommendations targeted specifically for pastors, congregational leaders, and even seminarians preparing for ministry. A dozen personal responses to the book, written as letters from people in ministry, have been collected together at the end. The book is helpful as a ministry preparation text, a guide for those serving as pastors, or as a discussion starter for pastors support groups. It will help church committees smooth a pastoral transition, or calm seminary graduates anticipating their first placement. The hope is that stressed-out pastors will recover their sense of vocation, and congregations will begin to fulfill their calling as the body of Christ.

New York Times bestselling poet and multi-platinum singer-songwriter Jewel explores her unconventional upbringing and extraordinary life in an inspirational memoir that covers her childhood to fame, marriage, and motherhood. When Jewel's first album, *Pieces of You*, topped the charts in 1995, her emotional voice and vulnerable performance were groundbreaking. Drawing comparisons to Joan Baez and Joni Mitchell, a singer-songwriter of her kind had not emerged in decades. Now, with more than thirty million albums sold worldwide, Jewel tells the story of her life, and the lessons learned from her experience and her music. Living on a homestead in Alaska, Jewel learned to yodel at age five, and joined her parents' entertainment act, working in hotels, honky-tonks, and biker bars. Behind a strong-willed family life with an emphasis on music and artistic talent, however, there was also instability, abuse, and trauma. At age fifteen, she moved out and tasked herself with a mission: to see if she could avoid being the kind of statistic that her past indicated for her future. Soon after, she was accepted to the prestigious Interlochen Arts Academy in Michigan, and there she began writing her own songs as a means of expressing herself and documenting her journey to find happiness. Jewel was eighteen and homeless in San Diego when a radio DJ aired a bootleg version of one of her songs and it was requested into the top-ten countdown, something unheard-of for an unsigned artist. By the

time she was twenty-one, her debut had gone multiplatinum. There is much more to Jewel's story, though, one complicated by family legacies, by crippling fear and insecurity, and by the extraordinary circumstances in which she managed to flourish and find happiness despite these obstacles. Along her road of self-discovery, learning to redirect her fate, Jewel has become an iconic singer and songwriter. In *Never Broken* she reflects on how she survived, and how writing songs, poetry, and prose has saved her life many times over. She writes lyrically about the natural wonders of Alaska, about pain and loss, about the healing power of motherhood, and about discovering her own identity years after the entire world had discovered the beauty of her songs. Exercise is health-enhancing and life-extending, yet many of us feel it's a chore. But, as Kelly McGonigal reveals, it doesn't have to be. Movement can and should be a source of joy. Through her trademark blend of science and storytelling, McGonigal draws on insights from

neuroscience, psychology, anthropology, and evolutionary biology, as well as memoirs, ethnographies, and philosophers. She shows how movement is intertwined with some of the most basic human joys, including self-expression, social connection, and mastery--and why it is a powerful antidote to the modern epidemics of depression, anxiety, and loneliness. McGonigal tells the stories of people who have found fulfillment and belonging through running, walking, dancing, swimming, weightlifting, and more, with examples that span the globe, from Tanzania, where one of the last hunter-gatherer tribes on the planet live, to a dance class at Juilliard for people with Parkinson's disease, to the streets of London, where volunteers combine fitness and community service, to races in the remote wilderness, where athletes push the limits of what a human can endure. Along the way, McGonigal paints a portrait of human nature that highlights our capacity for hope, cooperation, and self-transcendence. The result is a revolutionary narrative that goes beyond familiar arguments in favor of exercise, to illustrate why movement is integral to both our happiness and our humanity. Readers will learn what they can do in their own lives and communities to harness the power of movement to create happiness, meaning, and connection.

Imagine a company where people love coming to work and are highly productive on a daily basis. Imagine a company whose top executives, in a quest to create the most "fun" workplace ever, obliterate labor-management divisions and push decision-making responsibility down to the plant floor. Could such a company compete in today's bottom-line corporate world? Could it even turn a profit? Well, imagine no more. In *Joy at Work*, Dennis W. Bakke tells the true story of this extraordinary company--and how, as its co-founder and longtime CEO, he challenged the business establishment with revolutionary ideas that could remake America's organizations. It is the story of AES, whose business model and operating ethos -"let's have fun"-were conceived during a 90-minute car ride from Annapolis, Maryland, to Washington, D.C. In the next two decades, it became a worldwide energy giant with 40,000 employees in 31 countries and revenues of \$8.6 billion. It's a remarkable tale told by a remarkable man: Bakke, a farm boy who was shaped by his religious faith, his years at Harvard Business School, and his experience working for the Federal Energy Administration. He rejects workplace drudgery as a noxious remnant of the Industrial Revolution. He believes work should be fun, and at AES he set out to prove it could be. Bakke sought not the empty "fun" of the Friday beer blast but the joy of a workplace where every person, from custodian to

CEO, has the power to use his or her God-given talents free of needless corporate bureaucracy. In *Joy at Work*, Bakke tells how he helped create a company where every decision made at the top was lamented as a lost chance to delegate responsibility--and where all employees were encouraged to take the "game-winning shot," even when it wasn't a slam-dunk. Perhaps Bakke's most radical stand was his struggle to break the stranglehold of "creating shareholder value" on the corporate mind-set and replace it with more timeless values: integrity, fairness, social responsibility, and a sense of fun.

Writing with depth, wit, and insight, Ingrid Fetell Lee shares all you need to know in order to create external environments that give rise to inner joy."--Susan Cain, author of Quiet and founder of Quiet Revolution Designer and TED star Ingrid Fetell Lee presents groundbreaking research to explain how making small changes to your surroundings can create extraordinary happiness in your life. Have you ever wondered why we stop to watch the orange glow that arrives before sunset, or why we flock to see cherry blossoms bloom in spring? Is there a reason that people -- regardless of gender, age, culture, or ethnicity -- are mesmerized by baby animals, and can't help but smile when they see a burst of confetti or a cluster of colorful balloons. We are often made to feel that the physical world has little or no impact on our inner joy. Increasingly, experts urge us to find balance and calm by looking inward -- through mindfulness or meditation -- and muting the outside world. But what if the natural vibrancy of our surroundings is actually our most renewable and easily accessible source of joy? In Joyful, designer Ingrid Fetell Lee explores how the seemingly mundane spaces and objects we interact with every day have surprising and powerful effects on our mood. Drawing on insights from neuroscience and

Work Like You're Showing Off!

“The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational.” -Kevin Kwan, author of Crazy Rich Asians Amy Tan’s beloved, New York Times bestselling tale of mothers and daughters Four mothers, four daughters, four families whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy, they choose to gather to raise their spirits and money. "To despair was to wish back for something already

lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.
