Why Celebrities Swear by These 15 Powerful Techniques As The Secret to Anything You Want in Life Do you easily complain or start nagging whenever something isn't going your way? Do you give fault and make others responsible for your misery? Are you annoyed looking around seeing others having exactly what you want in life? Believe it or not, you are the driver of your own life and no one else can steal your seat if you don't let them. What if there were straight-forward, easy principles to get everything you want in life? Maybe you already manifest regularly or you've heard of it, but never tried it. Using manifestation means using the power of your thoughts, feelings or beliefs to bring something into your physical reality. At first, it sounds abstract, but science has proven, everything is made of energy: objects, animals, thoughts, and humans. There are laws that control how this energy flows and where it goes just as there are laws of gravity and laws of growth. The more you know about these laws the easier it is to navigate the energy you need in the right direction. No wonder that even stars like Will Smith, Jim Carey, Oprah Winfrey and Lady Gaga swear by manifestation as the secret to their success. Jim Carrey makes it sound really simple. He says: "As far as I can tell, it's just about letting the universe know what you want and then working towards it while letting go of how it comes to pass." Yet, there are reasons why some people are better at manifesting than others. There are a couple of fundamentals you need to understand in order to apply manifestation effectively. Yet, with a little guidance and the right techniques, your best life is

waiting for you. This is only a select sample of what you'll discover in *The Magic of Manifestation: Flap or Fab: Why you should care about manifestation more than you think* The scientific secret behind changing your reality Why you might be manifesting your misery and how to avoid these common mistakes The smartest and most powerful way to attract anything you want in life How scientists manipulate your life with one particular weakness that outweighs all of science's strengths (check page 27) Is everything connected? If you think "manifestation" is just another 2020 buzzword, then you haven't heard the success stories of millions of people who made their dreams come true with this one powerful tool. It goes from 6-year-old Kabir who manifested to become the Malaysian David Copperfield and got invited to perform in *The Magic Castle* in Hollywood to family father Daniel who manifested his dream house in Maui. ## Mindset for Mastery

You know the feeling. You meet someone new—at a party or at work—and you just hit it off. There is an instant sense of camaraderie. In a word, you “click.” From the bestselling authors of *Sway*, *Click* is a fascinating psychological investigation of the forces behind what makes us click with certain people, or become fully immersed in whatever activity or situation we’re involved in. From two co-workers who fall head over heels for each other while out to dinner and are married a month later (and fifteen years later remain just as in love), to a team of scientists who changed the world with the magic of their invention, these kinds of peak experiences, when our senses are completely focused on the moment, are something that individuals—and companies—strive to achieve. After all, when you’re in the “zone,” you’re happier and more productive. Why is it that we click in certain situations and with certain people, but not with others? Can this kind of magical connection be consciously encouraged? Is there a way to create such peak experiences, whether on a date or in your job? According to Ori and Rom Brafman, there is. In a powerful, story-driven narrative that weaves together cutting-edge research in psychology and sociology, the Brafmans explore what it means to “click”: the common factors present when our brain and senses are fully engaged. They identify five “accelerators” that increase the likelihood of these kinds of magic connections in our work and relationships. From actors vying for a role on a popular TV series to police officers negotiating with hostage takers, we learn how one can foster an environment where we can click with another person and shape our thinking, behavior, and emotions. A fascinating journey into how we engage with the world around us, *Click* will transform our thinking about those

moments when we are in the zone and everything seems to fall into place. Acclaim for *Sway*: "A provocative new book about the psychological forces that lead us to disregard facts or logic and behave in surprisingly irrational ways." – New York Times "A unique and compulsively readable look at unseen behavioral trends." – Fortune "A breathtaking book that will challenge your every thought, *Sway* hovers above the intersection of *Blink* and *Freakonomics*."--Tom Rath, coauthor of the New York Times #1 bestseller *How Full Is Your Bucket?* "[An] engaging journey through the workings—and failings—of the mind...Their stories of senselessness...are as fascinating as the lessons we learn from them." – Fast Company "Count me swayed--but in this instance by the pull of entirely rational forces. Ori and Rom Brafman have done a terrific job of illuminating deep-seated tendencies that skew our behavior in ways that can range from silly to deadly. We'd be fools not to learn what they have to teach us."--Robert B. Cialdini, author of New York Times bestseller *Influence* "If you think you know how you think, you'd better think again! Take this insightful, delightful trip to the sweet spot where economics, psychology, and sociology converge, and you'll discover how our all-too-human minds actually work."--Alan M. Webber, founding editor of Fast Company From the Hardcover edition.

"Good luck isn't just chance, it can be learned and leveraged, and The Serendipity Mindset explains how to use serendipity to make life better at work, at home-everywhere. Most of us think that the important decisions and events in our lives happen by chance, that they're out of our control. Often we think that successful people-and successful companies and organizations-are simply luckier than the rest of us. Good fortune-serendipity-just seems to happen to them. But is that true? Are some people naturally luckier than others? Or are they better at creating the conditions for coincidence to arise and taking advantage of them when they do? How can we connect the dots of seemingly random events to improve our lives? In The Serendipity Mindset, Christian Busch explains that serendipity isn't about luck in the sense of randomness. It's about seeing what others don't, combining these observations in unexpected and strategic ways, and learning how to detect the moments when apparently random or unconnected ideas merge to form new opportunities. Busch explores serendipity from a rational and scientific perspective

and argues that there are identifiable approaches we can use to improve the conditions to let serendipity grow in our lives. The Serendipity Mindset offers a clear, engaging blueprint for how individuals, families, communities, and businesses can cultivate serendipity to increase innovation and influence. Drawing from the latest research in biology, chemistry, physics, management, and information systems, and using examples of people from all walks of life, Busch illustrates how serendipity works, in the process explaining how each of us can train our own serendipity muscle to use this powerful force in our own lives. Once we understand how serendipity works, Busch says, we become curators of it and luck is no longer something that just happens to us--it becomes a force that we can grasp, shape, and hone"--

## The Manifestation Mindset

The award-winning New York Times bestseller about the extraordinary things that can happen when we harness the power of both the brain and the heart Growing up in the high desert of California, Jim Doty was poor, with an alcoholic father and a mother chronically depressed and paralyzed by a stroke. Today he is the director of the Center for Compassion and Altruism Research and Education (CCARE) at Stanford University, of which the Dalai Lama is a founding benefactor. But back then his life was at a dead end until at twelve he wandered into a magic shop looking for a plastic thumb. Instead he met Ruth, a woman who taught him a series of exercises to ease his own suffering and manifest his greatest desires. Her final mandate was that he keep his heart open and teach these techniques to others. She gave him his first glimpse of the unique relationship between the brain and the heart. Doty would go on to put Ruth's practices to work with extraordinary results—power and wealth that he could only imagine as a twelve-year-old, riding his orange Sting-Ray bike. But he neglects Ruth's most important lesson, to keep his heart open, with disastrous results—until he has the opportunity to make a spectacular charitable contribution that will virtually ruin him. Part memoir, part science, part inspiration, and part practical instruction, *Into the Magic Shop* shows us how we can fundamentally change our lives by first changing our brains and our hearts.

## The Growth Mindset

Do you want to achieve startup speed at enterprise scale? Growth. It's what every company strives for. But it's become more and more elusive as companies struggle to hit their projected growth rates in an increasingly competitive market. While zero-based budgeting (ZBB) has been wielded for decades to cut costs, it falls short when it comes to spurring growth. But a zero-based mindset (ZBx) does that and more. ZBx facilitates forensic oversight into resource allocation that funnels savings back into growth initiatives and encourages new sources of innovation. The Big Zero shows how a ZBx approach focuses on agility over austerity, visibility over guesswork and the future over the past to fuel growth and competitiveness.

## New Mindset, New Results

The updated edition of the book that has changed millions of lives with its insights into the growth mindset. After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced

#1 New York Times bestselling author John C. Maxwell's latest book will enhance the lives of leaders, professionals, and anyone who wants to achieve success and personal growth. We often treat the word capacity as if it were a natural law of limitation. Unfortunately, most of us are much more comfortable defining what we perceive as off limits rather than what's really possible. Could it be that many of us have failed to expand our potential because we have allowed what we perceive as capacity to define us? What if our limits are not really our limits? In his newest book, John Maxwell identifies 17 core capacities. Some of these are abilities we all already possess, such as energy, creativity and leadership. Others are aspects of our lives controlled by our choices, like our attitudes, character, and intentionality. Maxwell examines

“This is a powerful book—tiny is mighty. Sharon Rowe's simple shift in thinking is a profound idea, precisely what we need to hear.” —Seth Godin, author of *Linchpin* Too many of us feel trapped by work that keeps us from living our purpose. We fantasize about starting our own business, yet we're warned against falling into debt, working eighty hours a week, and coping with the pressure to grow. Eco-Bags Products founder Sharon Rowe says there's another way: go tiny. Like a tiny house, a tiny business is built on maintaining a laser focus on what is essential by living an intentional life. As an entrepreneur and mother, Rowe is most concerned with putting family first, maintaining financial security, and doing something that makes an impact in the world. Using the success story of Eco-Bags Products, Rowe distills the step-by-step process of building a profitable, right-scaled, sustainable venture that doesn't compromise your values. She shows you
