McGinn, Bernard, 2001, *The Mystical Thought of Meister Eckhart: The Man from Whom God Hid Nothing*, New York: Crossroad Publishing.

## **Religious Experience (Stanford Encyclopedia of Philosophy)**

Discussions of religious experience in terms of feelings, like Schleiermacher's (1998) "feeling of absolute dependence," or Otto's (1923) feeling of the numinous, were important early contributions to theorizing about religious experience, but some have since then argued (see Gellman 2001 and Alston 1991, for example) that religious

## **The neuroscience of religious and spiritual experience**

Morality (from Latin: moralitas, lit. 'manner, character, proper behavior') is the differentiation of intentions, decisions and actions between those that are distinguished as proper and those that are improper. Morality can be a body of standards or principles derived from a code of conduct from a particular philosophy, religion or culture, or it can derive from a standard that a person
