### Magnificent Places

Along the notorious Rogue River, gold seekers, crazed by the discovery of nuggets that made them rich overnight, are at war with one another. The river itself swarms with salmon, bringing along with them another kind of wealth and violent fighting between fishermen and the fish-packing monopoly. Into this scene comes Keven Bell, returning to face life after being handicapped by a disfiguring wound he received in World War I. Keven teams up with a broken-down fisherman and boatbuilder. When they try to buck the salmon-packing monopoly, they encounter violence and trickery; their boat is sunk and they

are left to swim for their lives. Keven is tended to by Beryl, the daughter of a gold miner. His convalescence is slow, but the autumn days, fishing and camping, make a woodland dream of romance. But no sooner has an operation straightened out Keven's injuries than he is framed on a charge of murder in the salmon-packing war. Keven must carry on as best he can, along with what help Beryl and her old father can give, to clear his name and ensure his and Beryl's safety on the turbulent Rogue. Zane Grey's vigorous storytelling and portrayal of violence in the wild make this novel one of his best. There is a deep emotional feeling for nature in the raw, for the great salmon runs, and for the clashes of men fighting for gold.

### The Best Coast - A Road Trip Atlas

Photo Quest - Discovering Your Photographic & Artistic Voice is a sequel to Rick Sammon's internationally best-selling book, Photo Therapy Motivation and Wisdom - discovering the power of pictures. This book, Rick's 41st, was written for photographers, as well as for all types of artists -

because the lessons and philosophies on these pages are universal to all creatives. Like Photo Therapy, Photo Quest includes only words of wisdom motivation and inspiration. There are no photographs in this book. Rick says there are two reasons for not including photographs (unlike his 40 other books and 18 online classes that are richly illustrated with hundreds of photographs from his travels around the world): "One, I want you to slow down and read the text carefully; Two, I want you to think about your photography and art when you are reading about an idea or technique - and not be distracted by my colorful images." Rick Sammon has assembled an all-star team of photo and creative mentors for this important book - a team that offers advice and insight on finding one's photographic and artist voice. As Rick says, "You'd be hard pressed to find this much talent between the covers of one photography book." This list of contributors reads like a "Who's Who" in the world of photography in 2020. These pros include Erin Babnick, Martin Baily, Richard Bernabe, Steve Brazill, Jeff Cable, Tony Corbell, Patricia Davidson, Dave DeBaermaeker, Ron Clifford, Ed Cooley, Unmsh Dinda, Frank Doorhof, Piper Mackay, Scott Kelby, Karen Hutton, Don Komarechka, Ian Plant, Trey Ratcliff, Art Wolfe - and more! If you are in search of becoming a more creative photographer, and not just ways of taking better pictures (there is a big difference), you have come to the right place. And if you are thinking about "changing lanes" - changing your career or making creative changes in your life - this book is for you. On these pages you will learn about (in chapter titles of the same name): Finding Your Superpower and Inner Voice, Your Secret Weapon, Idea to Image, Specializing or Not Specializing, The Rollercoaster Ride of Creatives, The Importance of Your Conversation, Changing Lanes, Creating a Sense of Mystery, Photography & The Death of Reality, Know Your Audience & Build Your Brand - and more. Each of the 22 chapters in the book ends with a Mission - an assignment - that will help you on your personal photo quest, which Rick feels will be one of the most rewarding adventures in your photographic and

artistic life. This book is also filled with dozens of inspirational quotes relating to photographs and all artists. Here is one of Rick's favorites: An artist cannot fail; it is a success to be one. - Charles Cooley

hearing and listening. In *Creative Visualization*, master photographer, photo educator and photo instructor Rick Sammon presents his proven methodology for creative digital photography. His signature inspiring and motivating approach opens creative avenues for photographers in a variety of genres. With easy-to-follow examples, Sammon shows you how simple changes—with visualization, composition, post-processing, and more—can mean the difference between a snapshot and a great shot. This book, illustrated with more than 300 of Rick's photographs, includes invaluable information about exposure, composition, subject choice, lighting, mood, and depth. In the *Food for Thought* section, Rick offers guidelines for setting goals, getting motivated, connecting with a subject, learning, painting with light, thinking like a painter and more. In *Develop Your Creative Vision*, Rick takes you on an exploration of composition, exposure, making images with impact, creating a mood, altering reality, and pursuing your passion. Corrective and creative image processing techniques, as well as HDR, EDR, panoramas and black-and-white imaging, are covered in the *Image Processing Specialties* section. Rick also shares a chapter on self-assignments — photo challenges — that you can use to expand your photographic horizons. *Canon Explorer of Light* and master photographer Rick Sammon shares the secrets behind learning to see photographically, to make the necessary changes that will have a noticeable impact on your photographs. Includes easy-to-follow instruction for post-processing techniques in Lightroom and Photoshop. Tips for making the best HDR and EDR images are also included, as well as illustrations of how plug-ins can help photographers awaken the artist within. Unlike Rick Sammon's 39 other best-selling and photo-rich books, Photo Therapy Motivation and Wisdom - Discovering the Power of Pictures, has no photographs between the covers. Yet, Rick feels as though it is his most important work. He trusts this book will make you think - hard - about your photography, and about how using your brain, the best photo "accessory," will help you become a better photographer. Or as stated by famed black-and-white landscape photographer Ansel Adams, "The single most important component of a camera is the twelve inches behind it." It's not that Rick is tired of having to "lug around a camera," as Lewis Hine said, it's just that he thinks the motivational and

inspirational message of this book is better expressed without showing his own pictures. Rather, in reading the 35,000-word text, he'd like you to imagine your own pictures - and potential pictures - while he is describing a situation, process, technique, feeling or emotion. Chapters include: Emotional Intelligence for Photographers, Seeing vs. Looking, Creating Your Own Reality, It's Never Too Late to Be What You Might Have Been, Light and Color Therapy, Learning is Health, and What Does Your Photography Mean to You? The book also includes more than 20 "missions" that you can accept in your quest to expand your photographic horizons. This very personal book is filled with Rick's photo and life wisdom - wisdom he has gained by spending almost an entire lifetime - starting in the late 1950's with developing pictures in his parents' basement - involved in photography in many forms and fashions. You will find many inspirational quotes in this book. One of Rick's favorites: "When you are through changing, you are through." - Bruce Barton

## Exploring the Oregon Coast Trail

When you look at an image, what do you see and feel? What do you want your audience to see and feel when they view your work? In today's digital age, it has become all too easy to randomly click away, without really focusing on what exactly it is that you are trying to capture in your shot. For over fifteen years, Professor Richard Zakia has been helping thousands of photographers hone in on their creative vision through the inspirational, informative text and images included in his classic book, *Perception and Imaging*. In this updated fourth edition, Professor Zakia continues to share his wisdom in what is so much more than a step-by-step, technical photography instruction manual. Instead, it explores the fundamental act of photography - in other words, seeing - through a combination of technique, history, visual perception, philosophy, and psychology. Photographers of all levels will benefit from the information in this book, because it will help you to think more clearly about what it is that you want to convey in your images, no matter what level you are at in terms of technical skill. Includes inspirational images from some of the world's most well-known photographers, like Henri Cartier-Bresson and Man Ray All new sections on what perception means for your photography in the digital age New coverage of the Rule of Thirds and Contemplative Photography; how can these tools work for you?
