Journalist Scott Wallace chronicles an expedition into the Amazon's uncharted depths, discovering the rainforest's secrets while moving ever closer to a possible encounter with one such tribe of seldom-glimpsed warriors known to repulse all intruders with showers of deadly arrows. On assignment for National Geographic, Wallace joins Brazilian explorer Sydney Possuelo at the head of a 34-man team that ventures deep into the unknown in search of the tribe. There is no record of Marco Polo ever visiting the Andaman Islands, so his brief description of the islanders must have been drawn from a secondary source. They were, he wrote, "a most brutish and savage race, having heads, eyes, and teeth like those of dogs. They are very cruel, and kill and eat every foreigner whom they can lay their hands upon." Most subsequent travelers and travelogues have tended to agree, although in an age of inclusion and diversity, the modern understanding and appreciation of the indigenous Andamanese is somewhat more sympathetic. Nonetheless, that one common theme has persisted, in particular in the many colonial-era chronicles, which were all written at a time when Darwin and his contemporaries

were rationalizing evolution, and evolutionary divergence. How could it be, they ask, that a small pocket of the human race could be content to linger so far behind in the journey of human development? The Andaman and Nicobar Islands comprise a tiny archipelago of some 200 islands in the Indian Ocean. They are located in a seemingly insignificant spot in the Bay of Bengal, comprising a combined area of only 3,500 square miles, but the islands are a tropical idyll, populated by dark Indians drawn mainly from the east coast, with a curious aboriginal people who appear more African than Asian. The islands have been within sight of international shipping routes since the very birth of ocean travel, and yet, until the arrival of the great European trading enterprises, the archipelago remained virtually unvisited, and absolutely unsettled by any other than its indigenous inhabitants. *The Sentinelese: The History of the Uncontacted People on North Sentinel Island* profiles the indigenous people, famous attempts to contact them, and what's known and unknown about them. Along with pictures of important people, places, and events, you will learn about the Sentinelese like never before.

Stafford's extraordinary prose and lush descriptions. In April 2008, Ed Stafford set off to become the first man ever to walk the entire length of the Amazon. He started on the Pacific coast of Peru, crossed the Andes Mountain range to find the official source of the river. His journey led on through parts of Colombia and right across Brazil; all while outwitting dangerous animals, machete-wielding indigenous people as well as negotiating injuries, weather and his own fears and doubts. Yet, Stafford was undeterred. On his grueling 860-day, 4,000-plus mile journey, Stafford witnessed the devastation of deforestation firsthand, the pressure on tribes due to loss of habitats as well as nature in its true-raw form. Jaw-dropping from start to finish, *Walking the Amazon* is the unforgettable and gripping story of an unprecedented adventure. *Walking the Amazon* is also available in a Spanish edition entitled *Caminado El Amazonas*.

Told from the eyes of Lucie as a child, "Unconquered" traces her three-year journey from when Nazis took over her home in Vienna to her arrival at Ellis Island and assimilation in New York. Tested again and again, Lucie watched as her grandfather died after being brutally beaten and her cousins shot before her very eyes. But, it was a traumatic incident with two Nazi soldiers that has left the deepest scar. More than a "Holocaust story," "Unconquered" demonstrates the resiliency of the human spirit and the fire of a girl who refuses to let anyone crush her soul. One of the diminishing few Jewish Holocaust refugees still living, Lucie Burian Liebman, mother of five and married for 52 years, devoted her career to nursing. An extraordinary true story about one man ' s attempt to salve the wounds of war and save his own soul through an audacious adventure. In the 1930s, as official government expeditions set their sights on conquering Mount Everest, a little-known World War I veteran named Maurice Wilson conceives his own crazy, beautiful plan: he will fly a plane from England to Everest, crash-land on its lower slopes, then become the first person to reach its summit—all utterly alone. Wilson doesn ' t know how to climb. He barely knows how to fly. But he has the right plane, the right equipment, and a deep yearning to achieve his goal. In 1933, he takes off from London in a Gipsy Moth biplane with his course set for the highest mountain on earth. Wilson ' s eleven-month journey to Everest is wild: full of twists, turns, and daring. Eventually, in disguise, he sneaks into Tibet. His icy ordeal is just beginning. Wilson is one of the Great War ' s heroes, but also one of its victims. His hometown of Bradford in northern England is ripped apart by the fighting. So is his family. He barely survives the war himself. Wilson returns from the conflict unable to cope with the sadness that engulfs him. He begins a years-long trek around the world, burning through marriages and relationships, leaving damaged lives in his wake. When he finally returns to England, nearly a decade after he first left, he finds himself falling in love once more—this time with his best friend ' s wife—before depression overcomes him again. He emerges from his funk with a crystalline ambition. He wants to be the first man to stand on top of the world. Wilson believes that Everest can redeem him. This is the tale of an adventurer unlike any you have ever encountered: complex, driven, wry, haunted, and fully alive. He is a man written out of the history

In the Godfather Garden

In the Godfather Garden is the true story of the life of Richie “ the Boot ” Boiardo, one of the most powerful and feared men in the New Jersey underworld. The Boot cut his teeth battling the Jewish gang lord Abner Longy Zwillman on the streets of Newark during Prohibition and endured to become one of the East Coast ’ s top mobsters, his reign lasting six decades. To the press and the police, this secretive Don insisted he was nothing more than a simple man who enjoyed puttering about in his beloved vegetable garden on his Livingston, New Jersey, estate. In reality, the Boot was a confidante and kingmaker of politicians, a friend of such celebrities as Joe DiMaggio and George Raft, an acquaintance of Joseph Valachi—who informed on the Boot in 1963—and a sworn enemy of J. Edgar Hoover. The Boot prospered for more than half a century, remaining an active boss until the day he died at the age of ninety-three.

Although he operated in the shadow of bigger Mafia names across the Hudson River (think Charles "Lucky" Luciano and Louis "Lepke" Buchalter, a cofounder of the Mafia killer squad Murder Inc. with Jacob "Gurrah" Shapiro), the Boot was equally as brutal and efficient. In fact, there was a mysterious place in the gloomy woods behind his lovely garden—a furnace where many thought the Boot took certain people who were never seen again. Richard Linnett provides an intimate look inside the Boot's once-powerful Mafia crew, based on the recollections of a grandson of the Boot himself and complemented by never-before-published family photos. Chronicled here are the Prohibition gang wars in New Jersey as well as the murder of Dutch Schultz, a Mafia conspiracy to assassinate Newark mayor Kenneth Gibson, and the mob connections to several prominent state politicians. Although the Boot never saw the 1972 release of *The Godfather*, he appreciated the similarities between the character of Vito Corleone and himself, so much so that he hung a sign in his beloved vegetable garden that read "The Godfather Garden." There's no doubt he would have relished David Chase's admission that his muse in creating the HBO series *The Sopranos* was none other than "Newark's erstwhile Boiardo crew."

that has never been conquered--have lived as warriors, hunters, cultivators, and healers for generations. Even in today's acquisitive, often wasteful world they defend their rainforests and sustainable ways of life and offer their philosophy of love, joy, and hope. More than three decades after first befriending members of the Shuar, author and environmentalist John Perkins and his publisher, Ehud Sperling, inspired Shakaim Mariano Chumpi-a young Shuar warrior who has fought in the jungle war between his native Ecuador and Peru-to travel among his people and record their thoughts, history, and customs. The result is Spirit of the Shuar. Here, in their own words, the Shuar share their practices of shapeshifting, "dreaming the world," and ecstatic sex, including the role older women play in teaching uninitiated men how to please. They explain the interdependence of humans and the environment, their formula for peace and balance, and their faith in arutam, the life-giving spirit of nature that allows each of us to transform ourselves. And they describe how their ancient-and current-practice of shrinking heads fits into their cultural philosophy. Whether exploring the mystery of shamanic shapeshifting, delving deeper into the powers of healing herbs and psychotropic plants, or finding new ways to live sustainably and sensitively in the face of encroaching development and environmental destruction, the Shuar have emerged as a strong people determined to preserve their identity and beliefs and share their teachings with a world in dire need of their wisdom. A portion of the proceeds from the sale of this book will be donated to the Ayumpum Foundation to help the Shuar conserve their forests and spread their message.

The War Come Home

"Based on a breathtaking range of research in British and German archives, *The War Come Home* is written in an engaging, immediately accessible style and filled with rich anecdotes that are excellently told. This impressive book offers a powerful set of insights into the lasting effects of the First World War and the different ways in which belligerent states came to terms with the war's consequences."—Robert Moeller, author of *War Stories: The Search for a Usable Past in the Federal Republic of Germany* "With verve, compassion, and above all else, clarity, *The War Come Home* makes the dismal story of the failed reconstructions of disabled veterans in interwar Britain and German into engaging and provocative reading. Cohen moves from astute analysis of the interventions of high level bureaucrats to sensitive interpretations of how disabled veterans wrote and talked about their lives and the treatment they received at the hands of public and private agencies. She beautifully interweaves histories from below and above, showing how the two shaped -- but also collided with -- one another in profoundly consequential ways for the history of the 20th century."—Seth Koven, coeditor (with Sonya Michel) of *Mothers of a New World: Maternalist Politics and the Origins of Welfare States*

expeditions—the last of which resulted in a relentlessly challenging year-long fight for survival. The human story has always been one of perseverance—often against remarkable odds. The most astonishing survival tale of all might be that of 16th-century Dutch explorer William Barents and his crew of sixteen, who ventured farther north than any Europeans before and, on their third polar exploration, lost their ship off the frozen coast of Nova Zembla to unforgiving ice. The men would spend the next year fighting off ravenous polar bears, gnawing hunger, and endless winter. In *Icebound*, Andrea Pitzer masterfully combines a gripping tale of survival with a sweeping history of the great Age of Exploration—a time of hope, adventure, and seemingly unlimited geographic frontiers. At the story's center is William Barents, one of the 16th century's greatest navigators whose larger-than-life ambitions and obsessive quest to chart a path through the deepest, most remote regions of the Arctic ended in both tragedy and glory. Journalist Pitzer did extensive research, learning how to use four-hundred-year-old navigation equipment, setting out on three Arctic expeditions to retrace Barents's steps, and visiting replicas of Barents's ship and cabin. “A visceral, thrilling account full of tantalizing surprises” (Andrea Barrett, author of *The Voyage of the Narwhal*), Pitzer's reenactment of Barents's ill-fated journey shows us how the human body can function at twenty degrees below, the history of mutiny, the art of celestial navigation, and the intricacies of building shelters. But above all, it gives us a first-hand glimpse into the true nature of human courage.

The Dragon Behind the Glass

During the 2014 World Cup, an isolated Amazonian tribe emerged from the jungle on the misty border of Peru and Brazil, escaping massacre at the hands of illegal loggers. A year later, in the jungle capital of Manaus, a bloody weekend of reprisal killings inflames a drug war that blurs the line between cops and kingpins. Both events reveal the dual struggles of those living in and around the vast, endangered Amazon jungle. As indigenous tribes lose their ancestral territory every day to loggers and drug runners, local communities in cities such as Manaus, are plagued by intense violence due to the ongoing drug wars and entrenched corruption within the police and government. The chaos and violence echo the atrocities that have haunted the rain forest since Europeans first arrived in the New World. Following doctors and soldiers, environmental activists and indigenous Olympic archers, among others, *The Third Bank of the River* traces development in the Amazon from the arrival of the first Spanish flotilla. Veteran journalist Chris Arnold grounds his story in rigorous first-hand reporting and in-depth research, revealing a portrait of Brazil and the Amazon that is complex, bloody, and often tragic.

It was not a commercial success when it was published, but has gone on to sell over 3 million copies. The first substantial fiction of Rand to appear in over twenty years, this important volume contains two never-before published versions of the play - the first and last versions (the latter entitled *The Unconquered*). With a preface that places the work in its historical and political context, an essay on the history of the theatrical adaptation by Jeff Britting, the curator of the Ayn Rand Archives, and two alternative endings, this book is a must-have for anyone interested in Rand's philosophy.

b.A masterpiece of historical adventure, *Skeletons on the Zahara* The western Sahara is a baking hot and desolate place, home only to nomads and their camels, and to locusts, snails and thorny scrub -- and its barren and ever-changing coastline has baffled sailors for centuries. In August 1815, the US brig *Commerce* was dashed against Cape Bojador and lost, although through bravery and quick thinking the ship's captain, James Riley, managed to lead all of his crew to safety. What followed was an extraordinary and desperate battle for survival in the face of human hostility, starvation, dehydration, death and despair. Captured, robbed and enslaved, the sailors were dragged and driven through the desert by their new owners, who neither spoke their language nor cared for their plight. Reduced to drinking urine, flayed by the sun,

crippled by walking miles across burning stones and sand and losing over half of their body weights, the sailors struggled to hold onto both their humanity and their sanity. To reach safety, they would have to overcome not only the desert but also the greed and anger of those who would keep them in captivity. From the cold waters of the Atlantic to the searing Saharan sands, from the heart of the desert to the heart of man, *Skeletons on the Zahara* is a spectacular odyssey through the extremes and a gripping account of courage, brotherhood, and survival.

We ' re told that if we care about our health—or our planet—eliminating red meat from our diets is crucial. That beef is bad for us and cattle farming is horrible for the environment. But science says otherwise. Beef is framed as the most environmentally destructive and least healthy of meats. We ' re often told that the only solution is to reduce or quit red meat entirely. But despite what anti-meat groups, vegan celebrities, and some health experts say, plant-based agriculture is far from a perfect solution. In *Sacred Cow*, registered dietitian Diana Rodgers and former research biochemist and New York Times bestselling author Robb Wolf explore the quandaries we face in raising and eating animals—focusing on the largest (and most maligned) of farmed animals, the cow. Taking a critical look at the assumptions and misinformation about meat, *Sacred Cow* points out the flaws in our current food system and in the proposed “ solutions. ” Inside, Rodgers and Wolf reveal contrarian

but science-based findings, such as: Meat and animal fat are essential for our bodies. A sustainable food system cannot exist without animals. A vegan diet may destroy more life than sustainable cattle farming. Regenerative cattle ranching is one of our best tools at mitigating climate change. You ' ll also find practical guidance on how to support sustainable farms and a 30-day challenge to help you transition to a healthful and conscientious diet. With scientific rigor, deep compassion, and wit, Rodgers and Wolf argue unequivocally that meat (done right) should have a place on the table. It ' s not the cow, it ' s the how!

Claw The Unconquered

The first literary work of one of the most influential philosophers and novelists of the twentieth century-available for the first time in trade paperback. Ayn Rand wrote of her first novel, *We the Living*, "It is as near to an autobiography as I will ever write. The plot is invented, the background is not. The specific events of Kira's life were not mine: her ideas, her convictions, her values, were and are." *We the Living* depicts the struggle of the individual against the state, and the impact of the Russian Revolution on three human beings who demand the right to live their own lives and pursue their own happiness. It tells of a young woman's passionate love, held like a fortress against the corrupting evil of a totalitarian state. This classic novel is not a story of politics, but of the men and women who have to struggle for existence behind the banners and slogans.

Africa ' s Hunter S. Thompson. ” An Afrikaner, Malan is the scion of a centuries-old clan deeply involved in the creation of apartheid. As a young crime reporter, he covered the atrocities of an undeclared race war and ultimately fled the country, unhinged by what he had seen. Eight years later, he returns to confront his own demons, and those that are tearing his country apart. With unflinching candor, Malan explores the grizzly violence and perverse rationalizations at the root of his nation ' s identity. Written in the final years of apartheid ' s bloody collapse, My Traitor ' s Heart still resonates, offering a “ passionate, blazingly honest testament ” to the darkest recesses of the black and white South African psyches. “ Those who read it will never again see South Africa the same way ” (Los Angeles Times Book Review).
