Own the Day, Own Your Life

Rand Fishkin, the founder and former CEO of Moz, reveals how traditional Silicon Valley "wisdom" leads far too many startups astray, with the transparency and humor that his hundreds of thousands of blog readers have come to love. Everyone knows how a startup story is supposed to go: A young, brilliant entrepreneur has a cool idea, drops out of college, defies the doubters, overcomes all odds, makes billions, and becomes the envy of the technology world. This is not that story. It's not that things went badly for Rand Fishkin; they just weren't quite so Zuckerberg-esque. His company, Moz, maker of

marketing software, is now a \$45 million/year business, and he's one of the world's leading experts on SEO. But his business and reputation took fifteen years to grow, and his startup began not in a Harvard dorm room but as a mother-and-son family business that fell deeply into debt. Now Fishkin pulls back the curtain on tech startup mythology, exposing the ups and downs of startup life that most CEOs would rather keep secret. For instance: A minimally viable product can be destructive if you launch at the wrong moment. Growth hacking may be the buzzword du jour, but initiatives can fizzle quickly. Revenue and growth won't protect you from layoffs. And venture capital always comes with strings attached. Fishkin's hard-won lessons are applicable to any kind of business environment. Up or down the chain of command, at both early stage startups and mature companies, whether your trajectory is riding high or down in the dumps: this book can help solve your problems, and make you feel less alone for having them.

Designed to generate impulse sales, titles in this line are carefully balanced for gift giving, self-purchase, or collecting. Little Books may be small in size, but they're big in titles and sales.

Unf*ckology

Let this handy workbook guide you on your quest for healthier relationships and more excellent sex. Created as a companion for Dr. Faith's book *Unfuck Your Intimacy*, these exercises can also stand alone. Includes a ton of good stuff, like body maps, communication templates, boundary-setting exercises, a sexual history questionnaire like the ones therapists use, and of course help with understanding and coping with anything upsetting that might come up. Almost all the exercises can absolutely be done with a partner, but the focus is on getting to know your body, your desires, and your needs, to explore on your own or together.

Unfuck Your Brain

Our brains are doing our best to help us out, but they can be real assholes sometimes. Sometimes it seems like your own brain is out to get you—melting down in the middle of the grocery store, picking fights with your date, getting you addicted to something, or shutting down completely at the worst possible moments. You already told your brain firmly that it isn't good to do these things. But your brain has a mind of its own. That's where this book comes in. With humor, patience, and lots of swearing, Dr. Faith shows you the science behind what's going on in your skull and talks you through the process of retraining your brain to respond appropriately to the non-emergencies of everyday life. If you're working to deal with old traumas, or if you just want to have a more measured and chill response to situations you face all the time, this book can help you put the pieces of the puzzle together and get your life and brain back. Here's an excerpt from the book: Knowing what's going on up in your brain is HUGE. So much of how we interact with the world around us is a completely normal response when we take into account our past experiences and how our brains work. • Freaking the fuck out • Avoiding important shit we need to take care of • Feeling pissed off all the time • Being a dick to people we care about •

Putting shit in our bodies that we know isn't good for us • Doing shit we know is dumb or pointless None of these things are fucking helpful. But they all make sense. Your brain has adapted to the circumstances in your life and started doing things to protect you, bless it. It's not TRYING to fuck you over (even though it totally is, at times). As we navigate the world, nasty shit happens. The brain stores info about the nasty shit to try to avoid it in the future. Sometimes these responses are helpful. Sometimes the responses become a bigger problem than the actual problem was. It's called a trauma reaction. And even if you aren't dealing with a specific trauma? Adaptive coping strategies, bad habits, and funky behaviors all wire in similar ways. And research is showing that these issues are actually some of the easier ones to treat in therapy ... if we address what's really going on, rather than just the symptoms.

real-world approach to powerfully translate our most negative thoughts and behaviors into a vitalizing, sabotage-free future. “Stop indulging yourself with fantasies and dramas and unresolved issues. Wake the hell up!” Bishop writes. Look, you might have fu*ked up in the past, so what? Stop Doing That Sh*t

Amy Alkon presents Unf*ckology, a “science-help” book that knocks the self-help genre on its unscientific ass. You can finally stop fear from being your boss and put an end to your lifelong social suckage. Have you spent your life shrinking from opportunities you were dying to seize but feel “that’s just who I am”? Well, screw that! You actually can change, and it doesn’t take exceptional intelligence or a therapist who’s looking forward to finally buying Aruba after decades of listening to you yammer on. Transforming yourself takes revolutionary science-help from Amy Alkon, who has spent the past 20 years translating cutting-edge behavioral science into highly practical advice in her award-winning syndicated column. In Unf*ckology, Alkon pulls together findings from neuroscience, behavioral science, evolutionary psychology, and clinical psychology. She explains everything in language you won’t need a psych prof on speed-dial to understand—and with the biting dark humor that made Good Manners for Nice People Who Sometimes Say F*ck such a great read. She debunks widely-accepted but scientifically unsupported notions about self-esteem, shame, willpower, and more and demonstrates that:

- Thinking your way into changing (as so many therapists and self-help books advise) is the most inefficient way to go about it.
- The mind is bigger than the brain, meaning that your body and your behavior are your gym for turning yourself into the new, confident you.
- Fear is not just the problem; it’s also the solution.
- By targeting your fears with behavior, you make changes in your brain that reshape your habitual ways of behaving and the emotions that go with them.

Follow Amy Alkon's groundbreaking advice in Unf*ckology, and eventually, you’ll no longer need to act like the new you; you’ll become the new you. And how totally f*cking cool is that?

Girl, Stop Apologizing

The Angry Therapist who has helped thousands of men find more happiness in their relationships and more purpose in their lives now shares his insights with everyone in this powerful guide—self-help in a shotglass—covering essential topics, from vulnerability and posturing to workouts and women. Deep in post-divorce soul searching, John Kim came to an astonishing realization: he was a miserable f*ck who might just be to blame for the problems in his life. Armed with this new insight, he began *The Angry Therapist* blog—an admission that, while he was a licensed therapist and life coach, he was no better than the people who sought his advice. In his first post, “My Fucking Feelings,” he wrote about the struggles and shortcomings that had led him to this point. As his work caught on, catapulting him into the role of unlikely and unconventional guide for thousands of people all over the world, Kim evolved from behaving like a boy to living like a man—and showed his clients how to do so as well. In *I Used to Be a Miserable F*ck*, Kim delivers the dos and don'ts for stepping up and into manhood, which he defines by transparency and strength of character, not six-pack abs or a corner office. With his signature no-nonsense approach that will make you laugh and think, Kim takes you on a rugged, rough and tumble road trip of self-exploration and discovery, sharing his wisdom and insights, such as why: Being nice is for boys, and being kind is for men Scheduling man dates could make you a better friend, lover, and human being Peeing in the shower is a sign of a larger problem Arguing, judging, and answering, “I dunno” are keeping you from a healthy relationship, a great career, and a happy life We are not born men. We are born boys. The transition from misery to meaning is an internal process that requires work: reflection, pain, courage, and sometimes, a rebirth. Kim knows because he's been there. The truth is, men weren't meant to just pay bills and die. With this book as your guide, you will love hard, walk tall, and find a life filled with purpose and passion.

The 5 Essential People Skills

The New York Times bestselling author of How to Read Literature Like a Professor uses the same skills to teach how to access accurate information in a rapidly changing 24/7 news cycle and become better readers, thinkers, and consumers of media. We live in an information age, but it is increasingly difficult to know which information to trust. Fake news is rampant in mass media, stoked by foreign powers wishing to disrupt a democratic society. We need to be more perceptive, more critical, and more judicious readers. The future of our republic may depend on it. How to Read Nonfiction Like a Professor is more careful, more attentive, more aware reading. On bookstore shelves, one book looks as authoritative as the next. Online, posts and memes don't announce their relative veracity. It is up to

File Type PDF Unfu K Yourself 2021 Day To Day Calendar Get Out Of Your Head And Into Your Life

readers to establish how accurate, how thorough, how fair material may be. After laying out general principles of reading nonfiction, *How to Read Nonfiction Like a Professor* offers advice for specific reading strategies in various genres from histories and biographies to science and technology to social media. Throughout, the emphasis will be on understanding writers' biases, interrogating claims, analyzing arguments, remaining wary of broad assertions and easy answers, and thinking critically about the written and spoken materials readers encounter. We can become better citizens through better reading, and the time for that is now.

"I believe we can change the world. But first, we've got to stop living in fear of being judged for who we are." Rachel Hollis has seen it too often: women not living into their full potential. They feel a tugging on their hearts for something more, but they're afraid of embarrassment, of falling short of perfection, of not being enough. In *Girl, Stop Apologizing*, #1 New York Times bestselling author and founder of a multimillion-dollar media company, Rachel Hollis sounds a wake-up call. She knows that many women have been taught to define themselves in light of other people—whether as wife, mother, daughter, or employee—instead of learning how to own who they are and what they want. With a challenge to women everywhere to stop talking themselves out of their dreams, Hollis identifies the excuses to let go of, the behaviors to adopt, and the skills to acquire on the path to growth, confidence, and believing in yourself.

Find Your F*cking Happy

"The perfect housekeeping guide for somebody who is overwhelmed with their mess and can't figure out how to start." –Lifehacker "An accessible guide on how to clean for normal people." –Livestrong "It actually changed my life and my home; I'm serious." –Book Riot Finally, a housekeeping and organizational system developed for those of us who'd describe our current living situation as a "f*cking mess" that we're desperate to fix. *Unf*ck Your Habitat* is for anyone who has been left behind by traditional aspirational systems. The ones that ignore single people with full-time jobs; people without kids but living with roommates; and people with mental illnesses or physical limitations. Most organizational books are aimed at traditional homemakers, DIYers, and people who seem to have unimaginable amounts of free time. They assume we all iron our sheets, have linen napkins to match our

table runners, and can keep plants alive for longer than a week. Basically, they ignore most of us living here in the real world! Interspersed with lists and challenges, this practical, no-nonsense advice relies on a 20/10 system (20 minutes of cleaning followed by a 10-minute break; no marathon cleaning allowed) to help you develop lifelong habits. It motivates you to embrace a new lifestyle in manageable sections so you can actually start applying the tactics as you progress. For everyone stuck between *The Life-Changing Magic of Tidying Up* and *Adulthood*, this philosophy is more realistic than aspirational, but the goal is the same: not everyone will have a showcase of a home, but whatever your habitat, you deserve for it to bring you happiness, not stress.
