WITH A NEW EPILOGUE BY THE AUTHOR World-class free climber Steph Davis delivers a “thrilling and infectiously interesting” (San Francisco Book Review) memoir about rediscovering herself through love, loss, and the joy of letting go. The paperback includes a new epilogue in which Davis shares how her husband Mario’s tragic accident has affected her relationship to climbing and flying. Steph Davis is a superstar in the climbing community and has ascended some of the world’s most challenging and awe-inspiring peaks. But after her first husband makes a controversial climb in a national park, the media fallout escalates rapidly and in one fell swoop leaves her without a partner, a career, a source of income or a purpose. In the company of only her beloved dog, Fletch, Davis sets off on a search for a new identity and discovers skydiving. Falling out of an airplane is completely antithetical to the climber’s control she’d practiced for so long, but she perseveres, turning each daring jump into an opportunity to fly, first as a skydiver, then as a base jumper. As she opens herself to falling, she also finds the strength to open herself to love again, even in the wake of heartbreak. And before too long, she meets someone who shares her passion for living life to the limit. With gorgeous black-and-white photos throughout, Learning to Fly is Davis’s fascinating account of her transformation. From her early tentative skydives, to zipping into her first wingsuit, to surviving devastating accidents against the background of breathtaking cliffs, to soaring beyond her past limits, she discovers new hope and joy in letting go.

Aging and outdated, most of the ships plummeted back to earth long ago. The only thing keeping the two surviving lifeboats in the sky are Hell Divers—men and women who risk their lives by skydiving to the surface to scavenge for parts the ships desperately need. When one of the remaining airships is damaged in an electrical storm, a Hell Diver team is deployed to a hostile zone called Hades. But there 's something down there far worse than the mutated creatures discovered on dives in the

Video game coder, Harley Kelso, thought a tandem skydive would help her make her latest game more realistic. Instead, it literally put her in the arms of the sexiest man she's ever seen. Geeky to the core, Harley is the polar opposite of big and burly Beckett, but that doesn't stop her from wanting to play more carnal games with the sexy soldier. When Beckett "Coach" Ralston offers to fill-in at a friend's skydiving club, he doesn't suspect he'll meet a woman who will change his life—and he definitely doesn't expect her to save it. But that's exactly what happens when an accident mid-air forces Harley to land them both safely. She's earned Coach's complete gratitude, and even more, sexual interest. Until she disappears without a trace. With Harley missing, a happy ending might not be in the cards for the man who loves her—especially when he becomes the main suspect. ** Rescuing Harley is the 3rd book in the Delta Force Heroes Series. Each book is a stand-alone, with no cliffhanger endings.

“ [A] superb new historical novel . . . about the heady late 1920s, when the public went crazy every day over barnstorming pilots and their heroic stunts. ” —Publishers Daily Reviews People are doing all sorts of screwy things in 1929. It is a time of hope, boundless optimism, and prosperity. “ Blue Skies ” is the song on everyone ’ s lips. The tabloids are full of flagpole sitters, flappers, and marathon dancers. Ever since Charles Lindbergh flew across the Atlantic solo, the entire world has gone nuts over flying. But everyone agrees that the stunt pilots take the cake. Jenny Flynn defies the odds and conventions in her pursuit of the sky. She attracts the attention of Laura Bailey, a brash reporter crashing through her own glass ceiling at a New York City newspaper. Laura chases the pilot ’ s story—and the truth about her own mysterious father—on a barnstorming escapade from Manhattan to the Midwest. Flying Jenny offers a vivid portrait of an earlier time when airplanes drew swarming crowds entranced by the pioneers—male and female—of flight. Finalist for the Oklahoma Book Awards, Fiction “ [A] romp through the early days of women ’ s aviation history . . . Debutante pilot Jenny Flynn and cub reporter Laura Bailey carry the spunk of Thelma & Louise to new heights as they fight for space in the cockpit and the city room. ” —Janet Groth, author of The Receptionist: An Education at The New Yorker “ Tuohy uses both Jenny and Laura to explore gender roles in the late 1920s and how two young women push their own boundaries as well as the society around them. ” —Historical Novels Review

Just after World War II, the people of McCall, Idaho, found themselves with a problem on their hands. McCall was a lovely resort community in Idaho's backcountry with mountain views, a sparkling lake, and plenty of forests. People rushed to build roads and homes there to enjoy the year-round outdoor activities. It was a beautiful place to live. And not just for humans. For centuries, beavers had made the region their home. But what's good for beavers is not necessarily good for humans, and vice versa. So in a unique conservation effort, in 1948 a team from the Idaho Fish and Game Department decided to relocate the McCall beaver colony. In a daring experiment, the team airdropped seventy-six live beavers to a new location. One beaver, playfully named Geronimo, endured countless practice drops, seeming to enjoy the skydives, and led the way as all the beavers parachuted into their new home. Readers and nature enthusiasts of all ages will enjoy this true story of ingenuity and determination.

In this #1 New York Times bestseller, Nora Roberts delves into the world of elite firefighters who thrive on danger and adrenaline—men and women who wouldn't know how to live life if it wasn't on the edge. Little else in life is as dangerous as fire jumping. But there's also little else as thrilling—at least to Rowan Tripp. Being a Missoula smoke jumper is in Rowan's blood: her father is a legend in the field. At this point, returning to the wilds of Montana for the season feels like coming home—even with reminders of the partner she lost last season still lingering in the air. One of the best of this year's rookie crop, Gulliver Curry is a walking contradiction, a hotshot firefighter with a big vocabulary and a winter job at a kids' arcade. And though Rowan, as a rule, doesn't hook up with other smoke jumpers, Gull is convinced he can change her mind. But everything is thrown off balance when a dark presence lashes out against Rowan, looking to blame someone for last year's tragedy. Rowan knows she can't complicate things with Gull—any distractions in the air or on the ground could be lethal. But if she doesn't find someone she can lean on when the heat gets intense, her life may go down in flames.

scary mishaps in our aerial playground. Every skydive, no matter how routine it may seem, is a unique experience. It begins with the familiar rush of air on exit, and your body accelerates through the sky. Often a jump involves playing in the air with others, dancing through formations and watching a number of smiling faces. Then there is the conventional separation where you clear your airspace and deploy your canopy. At this point the bliss begins to fade as you anticipate opening shock. If something goes wrong, you know it right away, and a story will begin where ecstasy can quickly turn to terror. The tales you'll read within these pages have happy and sometimes humorous endings. These are the kinds of skydives you could never forget; the stories are told by the skydivers who actually experienced them. They are all true. This compilation of stories is a labor of love by its collaborators--Tim Long, Doug Garr, Michael Kearns and Jan Works--and is intended to entertain their fellow skydivers and friends. Profits from the book's sale will be donated to building and maintaining the International Skydiving Museum & Hall of Fame.

Beyond Band of Brothers

PEN / ESPN Award for Literary Sports Writing (2015 LONGLIST) “ [P]erversely entertaining In a truly intoxicating read that was hard to put down, Matt Higgins has managed to make real a world about as far removed from daily life as it gets. ” --Daily Beast "Matt Higgins cracks open this astonishingly dangerous sport and captures the spectacular adrenaline surges it delivers."--The Wall Street Journal "[R]iveting a must-read. A highflying, electrifying story." --Kirkus (STARRED) A heart-stopping narrative of risk and courage, *Bird Dream* tells the story of the remarkable men and women who pioneered the latest advances in aerial exploration—from skydiving to BASE jumping to wingsuit flying—and made history with their daring. By the end of the twentieth century BASE jumping was the most dangerous of all the extreme sports, with thrill-seeking jumpers parachuting from bridges, mountains, radio towers, and even skyscrapers. Despite numerous fatalities and legal skirmishes, BASE jumpers like Jeb Corliss of California thought they had discovered the ultimate rush. But all this changed for Corliss in 1999, when, high in the mountains of northern Italy, he and other jumpers watched in wonder as a stranger—wearing a cunning new jumpsuit featuring “ wings ” between the arms and legs—leaped from a ledge and then actually flew from the vertiginous cliffs. Drawing on intimate access to Corliss and other top pilots from around the globe, *Bird Dream* tracks the evolution of the wingsuit movement through the larger than life characters who, in an age of viral video, forced the sport onto the world stage. Their exploits—which entranced millions of fans along the way—defied imagination. They were flying; not like the Wright brothers, but the way we do in our dreams. Some dared to dream of going further yet, to a day when a wingsuit pilot might fly, and land, all without a parachute. A growing number of wingsuit pilots began plotting ways in which a human being might leap from the sky and land. A half dozen groups around the world were dedicated to this quest for a “ wingsuit landing, ” conjuring the pursuit of nations that once inspired the race to first summit Everest. Given his fame as a stuntman, the brash, publicity-hungry Corliss remained the popular favorite to claim the first landing. Yet *Bird Dream* also tracks the path of another man, Gary Connery—a forty-two-year-old Englishman—who was quietly plotting to beat Corliss at his own game. Accompanied by an international cast of wingsuit devotees—including a Finnish magician, a parachute tester from Brazil, an Australian computer programmer, a gruff hang-gliding champion-turned-aeronautical engineer, a French skydiving champion, and a South African costume designer—Corliss and Connery raced to leap into the unknown, a contest that would lead to triumph for one and nearly cost the other his life. Based on five years of firsthand reporting and original interviews, *Bird Dream* is the work of journalist Matt Higgins, who traveled the world alongside these extraordinary men and women as they jumped and flew in Europe, Africa, Asia, and the Americas. Offering a behind-the-scenes take on some of the most spectacular and disastrous events of the wingsuit movement, Higgins ’ s *Bird Dream* is a riveting, adrenaline-fueled adventure at the very edge of human experience. From the Trade Paperback edition.

Disaster On Green Ramp: The Army's Response

Like the instant classic *The Last American Man*, *Fearless* is the story of a remarkable individual who accepts no personal limits—including fear. Freya Hoffmeister, a forty-six-year-old former sky diver, gymnast, marksman, and Miss Germany contestant, left her twelve-year-old son behind to paddle alone and unsupported around Australia—a year-long adventure that virtually every expert guaranteed would get her killed. She planned not only to survive the 9,420-mile trip through huge, shark-infested seas, but to do it faster than the only other paddler who did it. As journalist and expert kayaker Joe Glickman details the voyage of this Teutonic force of nature, he captures interminable days on the water and nights camped out on deserted islands; hair-raising encounters with crocs and great white sharks; and the daring 300-mile open-ocean crossing that shaved three weeks off her trip. For 332 days Glickman followed Freya's journey on her blog—along with a far-flung audience of awestruck, even lovesick, groupies—as she took on one terrifying ordeal after the next. In the end, he says, “ her vanity and pigheadedness paled next to her nearly superhuman ability to master fear and persevere. ”

Military Writers Society of America Gold Medal Winner: An account of the Korean War, as told by the men who fought it. Includes photos. In the four years of the Korean War, America lost almost 54,000 men, roughly the same number who lost their lives in Vietnam, yet this war has almost disappeared into American history, often called the “ Forgotten War. ” *George-3-7th Marines* recounts the bloody Marine infantry campaigns fought in the deadly mountain ranges of Korea. It is the story of the men who fought—and died anonymously—in a little-known yet bloody war. These never-before-told tales of the battle-hardened Marines of G-3-7 have been collected and recorded by one of their own. Described by those who experienced the action firsthand, these accounts blend the shocking details of savage, bloody killing with gentle, almost heartbreaking prose seldom seen in a chronicle of war. Jim Nicholson paints a brutally accurate picture of America and the Valhalla culture that shaped the toughness of soldiers in the 1950s. He examines the events and mistakes that led to a collision of the free world with the rapidly expanding Communist military machine. He reminds us that the sacrifice of young American boys saved the South Koreans, who now live freely in their beautiful “ land of the morning calm. ”

There are plenty of books and movies about what different soldiers experienced in war - but few grind out the details of why they do it. Sons of the Flag brings together the veterans from each of the American wars from WWII to the present and the veteran firefighters of 9/11 who served during the greatest attack on American soil. Each contributor tells precisely why they do what they do - putting country and brotherhood before their own safety. Weaving their chapters together, author Ryan "Birdman" Parrott, an American veteran, shares the journey that led from being a self-described screw-up to becoming the visionary and leader of Sons of the Flag, an organization dedicated to burn survivors. The contributors associate key moments in their lives that impacted them forever in putting their brothers to the right and left before themselves. Parrott asks readers to imagine a country where all citizens were as dedicated as these men in serving their fellow Americans.
