Although trees play an important economic and social role in many farming systems, they have until recently been neglected in both agricultural and forestry research. This text sets out major advances in our understanding of tree resources, particularly in relation to agricultural intensification.

On the Management of Fruit Trees on the Walls of the Garden at St. Anne's, near Leeds. [With a folding plate.]

Chambers's encyclopædia

Exploring Stone Walls

The only field guide to stone walls in the Northeast. Exploring Stone Walls is like being in Thorson's geology classroom, as he presents the many clues that allow you to determine any wall's history, age, and purpose. Thorson highlights forty-five places to see interesting and noteworthy walls, many of which are in public parks and preserves, from Acadia National Park in Maine to the South Fork of Long Island. Visit the tallest stone wall (Cliff Walk in Newport, Rhode Island), the most famous (Robert Frost's mending wall in Derry, New Hampshire), and many more. This field guide will broaden your horizons and deepen your appreciation of New England's rural history.
