"If you ever wondered about the repeated number sequences you see and what they might be trying to tell you, Jones and Flaxman take you on a rollercoaster ride through the levels of mind and consciousness." - Chellie Campbell, author *The Wealthy Spirit and Zero to Zillionaire* Do you wake up every night and see 11:11 on the clock? Or 3:33? 4:44? Does the same number sequence seem to appear throughout your life over and over? Did you know that millions of people all over the world experience the same phenomenon? These mysterious number sequences are known as "time prompts," and show up on digital clocks, cell phones, receipts, billboards, advertisements, and other places. They seem like pure coincidence, but what if they are actually messages from a higher source, like angels, guides, or even the Universe itself, urging you to pay attention to something important? This book explores the many theories about what these number sequences are, including: The science behind synchronicities, coincidences, and the mathematical nature of reality Numerical patterns and sacred geometry in nature - such as the Fibonacci spiral, the golden ratio, and DNA sequences Enter the intriguing world of time prompts. If numbers are the language of the Universe, what are they saying to you?

The author follows up his highly acclaimed account of the 1988 presidential campaign with a scathing and hilarious chronicle of the 1996 contest and the back-room negotiations and money-mongering that led to Clinton's reelection. 20,000 first printing. Tour.

The New York Times Book Review

"Shrewdly disarming the reviewers who pounce on the transparently autobiographical novel, the author cheerfully admits that this is indeed so. He then goes on in a mercifully short first person narrative to describe those always self-fascinating years when (to borrow the blurb copy's perishable phrase) he was "only beginning to find out who he really is and where he is going." He's an Italian-American in Rome studying opera, stringing for Time-Life, sleeping with an English girl who has dropped out of marriage with a young husband turning homosexual. . . . Their affair is dismal to read about and her alley-cat appetites and dispassionate detachment from her baby make her thoroughly unsympathetic; when the author-narrator lets her go and writes about Rome and Romans and expatriates, it flashes off the page as real and funny and tragi-comic. He's a very light tenor whose dreams of operatic glory fizzle out on stage in an Italian music hall where he's assigned to sing "Go Down, Moses" in the middle of a madly swirling troop of dancers done up as Hawaiians. So it's half and half with the last half the better part."--Kirkus

In times of loss, everyone experiences grief, whether from the loss of a marriage, the loss of a job, or the loss of a life. In grief, you are not alone, we often say to comfort grieving loved ones. But tell that to the woman who feels like her world has just been turned inside out. During two inconceivably difficult weeks, author Trish Rankins life radically morphs into something almost unrecognizable. Her husband dies of an inoperable brain tumor, and, simultaneously, their son suffers liver failure. To move forward together, both as partners and parents, on their God adventure, Trish and Dr. David Rankin chose to use the techniques she had taught for years in grief programs. In this honest, heartbreaking memoir, Trish lifts the veil on loss. She stares lovingly into the face of whats real: the shock, the agony, the suffering, the hope, the re-emergence, and, eventually, the ability to rediscover joy. Once she finds the strength to lift that metaphorical veil, she realizes that, like the butterfly emerging from its cocoon, her loss is the gateway to an awakening and perhaps to creating a full life once again. Woven within this inspiring grief journey are techniques to help others on their own path to healing. Trish Rankins story is one of tragedy,

deep struggle, and, ultimately, hope.

The filmography and bibliography are also updated.

an extortion case in an effort to get out of town for a few days. State Senator Eddie Black, the tree-hugging black sheep of an oil-rich East Texas family, has a problem. Somebody wants him to change his vote on an important environmental bill. If he refuses, Black's long-time friend and his entire family will be killed, one by one, starting with the oldest child, the head-strong Tess McPherson. In the aftermath of a bloody encounter with the mobster at Tess McPherson's apartment, Oswald finally realizes the chilling connection between the two cases: a dead man named Billy Barringer, Hank's onetime best friend and the firstborn son of an East Texas crime boss. As the stakes mount, each treacherous step toward the missing file forces Oswald to confront the haunting memory of a split second decision which ultimately cost Billy Barringer his life. Now it looks like the dead man's family has teamed up with the new player in town, and everybody's got Oswald in their cross hairs. As the clock ticks down to a startling climax, Oswald races across the mean streets of Dallas to find the missing file and the secret it holds. Once the file is found, the explosive discovery forces a dangerous decision, one full of hard choices Oswald thought had been left long ago in his murky past.
