### Flying the Alaska Wild

In November, countless families across Texas head out for the annual deer hunt, a ritual that spans generations, ethnicities, socioeconomics, and gender as perhaps no other cultural experience in the state. Rick Bass's family has returned to the same hardscrabble piece of land in the Hill Country—"the Deer Pasture"—for more than seventy-five years. In *A Thousand Deer*, Bass walks the Deer Pasture again in memory and stories, tallying up what hunting there has taught him about our need for wildness and

wilderness, about cycles in nature and in the life of a family, and particularly about how important it is for children to live in the natural world. The arc of *A Thousand Deer* spans from Bass's boyhood in the suburbs of Houston, where he searched for anything rank or fecund in the little oxbow swamps and pockets of woods along Buffalo Bayou, to his commitment to providing his children in Montana the same opportunity—a life afield—that his parents gave him in Texas. Inevitably this brings him back to the Deer Pasture and the passing of seasons and generations he has experienced there. Bass lyrically describes his own passage from young manhood, when the urge to hunt was something primal, to mature adulthood and the waning of the urge to take an animal, his commitment to the hunt evolving into a commitment to family and to the last wild places.

A New York Times Bestseller "The Wild Truth is an important book on two fronts: It sets the record straight about a story that has touched thousands of readers, and it opens up a conversation about hideous domestic violence hidden behind a mask of prosperity and propriety."—NPR.org The spellbinding story of Chris McCandless, who gave away his savings, hitchhiked to Alaska, walked into the wilderness alone, and starved to death in 1992, fascinated not just New York Times bestselling author Jon Krakauer, but also the rest of the nation. Krakauer's book, *Into the Wild*, became an international bestseller, translated into thirty-one languages, and Sean Penn's inspirational film by the same name further skyrocketed Chris McCandless to global fame. But the real story of Chris's life and his journey has not yet been told - until now. The missing pieces are finally revealed in *The Wild Truth*, written by Carine McCandless, Chris's beloved and trusted sister. Featured in both the book and film, Carine has wrestled for more than twenty years with the legacy of her brother's journey to self-discovery, and now tells her own story while filling in the blanks of his. Carine was Chris's best friend, the person with whom he had the closest bond, and who witnessed firsthand the dysfunctional and violent family dynamic that made Chris willing to embrace the harsh wilderness of Alaska. Growing up in the same troubled household, Carine speaks candidly about the deeper reality of life in the McCandless family. In the many years since the tragedy of Chris's death, Carine has searched for some kind of redemption. In this touching and deeply personal memoir, she reveals how she has learned that real redemption can only come from speaking the truth.

## **Penguin Minis: Looking for Alaska**

From his self-built cabin in the southern Rockies and throughout the wilderness West, Petersen has spent the past twenty years observing, studying, praising, and defending the grand wild beasts that animate his daily world. Especially so the elk, a miraculous come-back that, through the 112,000-member Rocky Mountain Elk Foundation, enjoys a larger and more dedicated fan club than even the grizzly bear or wolf. In this tightly linked collection of essays, Petersen takes us deep into the mountain forests to watch, smell, and talk with wapiti (a Shawnee word meaning white rump) and their wild neighbors, reflecting with wisdom, authority, and humility on their evolution, their behavior, their daily lives, and the impacts of the continued suburbanization of the West. Our guide looks as well at the various creatures who prey on elk -- from insects, to bears, to people with guns. In the latter instance, Petersen steps boldly beyond conventional side-taking to selectively praise the good and damn the bad, his only loyalty being truth, culminating with an exuberant condemnation of elk ranching and other forms of wildlife profiteering.

Guy Grieve's life was going nowhere - trapped in a job he hated, commuting 2,000 miles a month and up to his neck in debt. But he dreamed of escaping it all to live alone in one of the wildest, most remote places on earth - Alaska. And just when he'd given up hope, the dream came true. Suddenly Guy was thrown into one of the harshest environments in the world, miles from the nearest human being and armed with only the most basic equipment. And he soon found - whether building a log cabin from scratch, hunting, ice fishing or of course dodging bears in the buff - that life in the wilderness was anything but easy Part Ray Mears, part Bill Bryson, *CALL OF THE WILD* is the gripping story of how a mild-mannered commuter struggled with the elements - and himself - and eventually learned the ways

of the wild.

### **Finding List. May 1895**

A captivating, often hilarious novel of family, loss, wilderness, and the curse of a violent America, Dave Eggers's *Heroes of the Frontier* is a powerful examination of our contemporary life and a rousing story of adventure. Josie and her children's father have split up, she's been sued by a former patient and lost her dental practice, and she's grieving the death of a young man senselessly killed. When her ex asks to take the children to meet his new fiancée's family, Josie makes a run for it, figuring Alaska is about as far as she can get without a passport. Josie and her kids, Paul and Ana, rent a rattling old RV named the Chateau, and at first their trip feels like a vacation: They see bears and bison, they eat hot dogs cooked on a bonfire, and they spend nights parked along icy cold rivers in dark forests. But as they drive, pushed north by the ubiquitous wildfires, Josie is chased by enemies both real and imagined, past mistakes pursuing her tiny family, even to the very edge of civilization. A tremendous new novel from the bestselling author of *The Circle*, *Heroes of the Frontier* is the darkly comic story of a mother and her two young children on a journey through an Alaskan wilderness plagued by wildfires and a uniquely American madness.

## Looking for Alaska

In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. His name was Christopher Johnson McCandless. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage

out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page. From the Trade Paperback edition.

City girl Calla Fletcher attempts to reconnect with her estranged father, and unwittingly finds herself torn between her desire to return to the bustle of Toronto and a budding relationship with a rugged Alaskan pilot in this masterful new romance from acclaimed author K.A. Tucker. Calla Fletcher was two when her mother took her and fled the Alaskan wild, unable to handle the isolation of the extreme, rural

lifestyle, leaving behind Calla's father, Wren Fletcher, in the process. Calla never looked back, and at twenty-six, a busy life in Toronto is all she knows. But when her father reaches out to inform her that his days are numbered, Calla knows that it's time to make the long trip back to the remote frontier town where she was born. She braves the roaming wildlife, the odd daylight hours, the exorbitant prices, and even the occasional—dear God—outhouse, all for the chance to connect with her father: a man who, despite his many faults, she can't help but care for. While she struggles to adjust to this new subarctic environment, Jonah—the quiet, brooding, and proud Alaskan pilot who keeps her father's charter plane company operational—can't imagine calling anywhere else home. And he's clearly waiting with one hand on the throttle to fly this city girl back to where she belongs, convinced that she's too pampered to handle the wild. Jonah is probably right, but Calla is determined to prove him wrong. As time passes, she unexpectedly finds herself forming a bond with the burly pilot. As his undercurrent of disapproval dwindles, it's replaced by friendship—or perhaps something deeper? But Calla is not in Alaska to stay and Jonah will never leave. It would be foolish of her to kindle a romance, to take the same path her parents tried—and failed at—years ago. It's a simple truth that turns out to be not so simple after all.

## **Wild Rivers, Wild Rose**

From the acclaimed, bestselling author of *Turn Right at Machu Picchu*, a fascinating, wild, and wonder-filled journey into Alaska, America's last frontier. In 1899, railroad magnate Edward H. Harriman organized a most unusual summer voyage to the wilds of Alaska: He converted a steamship into a luxury "floating university," populated by some of America's best and brightest scientists and writers, including the anti-capitalist eco-prophet John Muir. Those aboard encountered a land of immeasurable beauty and impending environmental calamity. More than a hundred years later, Alaska is still America's most sublime wilderness, both the lure that draws one million tourists annually on Inside Passage cruises and as a natural resources larder waiting to be raided. As ever, it remains a magnet for weirdos and dreamers. Armed with Dramamine and an industrial-strength mosquito net, Mark Adams sets out to retrace the 1899 expedition. Traveling town to town by water, Adams ventures three thousand miles north through

Wrangell, Juneau, and Glacier Bay, then continues west into the colder and stranger regions of the Aleutians and the Arctic Circle. Along the way, he encounters dozens of unusual characters (and a couple of very hungry bears) and investigates how lessons learned in 1899 might relate to Alaska's current struggles in adapting to the pressures of a changing climate and world.

### **Call of the Wild**

A 2019 EDGAR AWARDS NOMINEE (BEST FACT CRIME) • A BANFF MOUNTAIN BOOK AWARDS FINALIST Two modern adventurers sought a treasure possessed by the legendary "Wild Men of Borneo." One found riches. The other vanished forever into an endless jungle. Had he shed civilization—or lost his mind? Global headlines suspected murder. Lured by these mysteries, New York Times bestselling author Carl Hoffman journeyed to find the truth, discovering that nothing is as it seems in the world's last Eden, where the lines between sinner and saint blur into one. In 1984, Swiss traveler Bruno Manser joined an expedition to the Mulu caves on Borneo, the planet's third largest island. There he slipped into the forest interior to make contact with the Penan, an indigenous tribe of

peace-loving nomads living among the Dayak people, the fabled “Headhunters of Borneo.” Bruno lived for years with the Penan, gaining acceptance as a member of the tribe. However, when commercial logging began devouring the Penan’s homeland, Bruno led the tribe against these outside forces, earning him status as an enemy of the state, but also worldwide fame as an environmental hero. He escaped captivity under gunfire twice, but the strain took a psychological toll. Then, in 2000, Bruno disappeared without a trace. Had he become a madman, a hermit, or a martyr? American Michael Palmieri is, in many ways, Bruno’s opposite. Evading the Vietnam War, the Californian wandered the world, finally settling in Bali in the 1970s. From there, he staged expeditions into the Bornean jungle to acquire astonishing art and artifacts from the Dayaks. He would become one of the world’s most successful tribal-art field collectors, supplying sacred works to prestigious museums and wealthy private collectors. And yet suspicion shadowed this self-styled buccaneer who made his living extracting the treasure of the Dayak: Was he preserving or exploiting native culture? As Carl Hoffman unravels the deepening riddle of Bruno’s disappearance and seeks answers to the questions surrounding both men, it becomes clear saint and sinner are not so easily defined and Michael and Bruno are, in a sense, two parts of one whole: each spent his life in pursuit of the sacred fire of indigenous people. *The Last Wild Men of Borneo* is the product of Hoffman’s extensive travels to the region, guided by Penan through jungle paths traveled by Bruno and by Palmieri himself up rivers to remote villages. Hoffman also draws on exclusive interviews with Manser’s family and colleagues, and rare access to his letters and journals. Here is a peerless adventure propelled by the entwined lives of two singular, enigmatic men whose stories reveal both the grandeur and the precarious fate of the wildest place on earth.

If that wasn't enough, we close with potential questions and responses to help you get the conversation started with co-workers, friends, or fellow book club members. This newly discovered gem from the past (2005) has become a must-read, thanks in no small part to the success of Green's 2012 masterpiece: *The Fault in Our Stars*. As many Green fans have already discovered, our sidekick is the ultimate go-to source for understanding the complexities of John Green's tales of teen angst and tragedy. *Looking for Alaska* tells

the story of Miles Halter, a 16-year-old with a nondescript life who is seeking a "Great Perhaps." In his quest, he finds himself at the Culver Creek Boarding School, where his past life of boredom and safety takes a back seat to adventure and sexual experimentation. His trek to the other side of the tracks takes him only a few steps, as he meets Alaska Young just down the hall at school. She is sexy, funny, and everything else that makes teenage boys drool. She is also a self-destructive sort, headed toward the "After" portion of *Looking for Alaska*, where everything comes crashing down. As our sidekick details, the themes of life and death weave their way through the novel, drawing the characters closer together while preparing them for something that will rip them apart.
